Convocation

12 SEPTEMBER 2015, IMU BUKIT JALIL CAMPUS
A Brief History of IMU

23 years ago, it was clear that Malaysia was facing a serious shortage of doctors. Dr Kamal Salih, a visionary, and Dr Mei Ling Young, a social scientist with a strong interest in development, hit on a brilliant, simple idea – if young Malaysian students could not go out into the world to get the medical education they wanted and deserved, they would bring it to them.

And so the idea for the International Medical College (IMC) was born.
(scheduled to be the Foundation Dean of the Clinical School), fleshed out the modern, innovative curriculum with eight outcomes, the Phase 2 curriculum. This curriculum incorporated the most forward-looking aspects of medical curricula.

The IMU Clinical School, comprising its curriculum, building and staff recruitment was completed in record time – just one year.

On 4 February 1999, IMC was granted university status and became the International Medical University (IMU), thus providing students the additional option of reading the whole medical degree in Malaysia, graduating with the IMU MBBS. With this, IMU also became the country’s first private medical college to be upgraded to a university.

On 20 September 1999, the IMU Clinical School welcomed its first batch of 46 medical students. The School was located on the grounds of the Seremban Hospital, now Hospital Tuanku Ja’afar. In 2001, just 3 years after launching the programme, the IMU MBBS programme earned accreditation from the National Accreditation Board.

IMU then went on to establish teaching relationships with several other hospitals, the result of which was that IMU MBBS students were exposed, over the course of their degree, to the full spectrum of primary, secondary and tertiary care. The implementation of the “Senior Clerkship” programme when the student in their final semester behaves like a houseman is one of the distinguishing features of the IMU MBBS programme, and one that has contributed significantly to the quality of the IMU medical graduate.

100% Medical and Healthcare Education Specialist

Well before the development of the IMU MBBS programme, the IMC was already exploring ways in which it could expand its healthcare education offering.

It introduced a twinned Pharmacy programme with University of Strathclyde in 1996, its own Bachelor of Pharmacy programme in 2004 and dentistry in 2008, which follow the IMU’s unique model – a shared Phase 1 programme, with the option to complete their degree in IMU, or continue to any of their Partner Schools around the world.

Believing that health is holistic, IMU introduced the Chiropractic programme in 2010, the first of its kind in Southeast Asia. The IMU Chiropractic programme features an evidence-based curriculum, meaning the material that is taught is derived from research findings as much as possible.

IMU then introduced the Chinese Medicine programme in February 2011, where students are required to learn the basic medical sciences alongside clinical practices of Chinese Medicine. This integration is important as it combines the best of both types of medicine; students adopt and apply a scientific and an evidence-based approach to Chinese Medicine.

Completing its offering of medical and healthcare programmes are other clinically-based health professions like Nursing, Dietetics with Nutrition, and Psychology as well as non-clinical health programmes such as Medical Biotechnology, Biomedical Science, Nutrition and Pharmaceutical Chemistry.

Since 2004, IMU has been offering postgraduate programmes, their MSc and PhD by research. And in

The International Medical College was officially launched on 13 April 1992.

In 1993, the pioneer batch of 75 students were enrolled in the medical programme.
September 2011, IMU welcomed the pioneer batch of students enrolled in the first postgraduate taught programme in IMU, the MSc in Public Health. Besides this programme, other postgraduate programmes offered are MSc in Analytical and Pharmaceutical Chemistry, MSc in Environmental Health, Master of Pharmacy Practice and MSc in Molecular Medicine.

Despite the variety, the different programmes share the same philosophy – to produce thinking students who are lifelong learners. IMU seeks to widen access to healthcare education, with courses that are both progressive and innovative. Its aim: to grow into a centre of healthcare educational excellence in the Asia-Pacific region.

Moving Into Healthcare

In January 2010, IMU took a bold step in its plan to be a holistic healthcare provider, with the opening of the IMU Oral Health Centre. This marked a major breakthrough for the University – for the very first time, IMU was receiving and treating real patients.

This was quickly followed by the opening of the IMU Chiropractic Centre in May 2010, the IMU Medical Clinic in July 2010 and the IMU Chinese Medicine Centre in November 2010.

Together, the four clinics form the IMU Healthcare Centre, which is unique in that it brings the disciplines of allopathic (western) medicine under one roof beside those of traditional and complementary medicine, offering western medicine, dental services, nutrition and dietary and psychological advice, alongside chiropractic and Chinese medicine services.

The Healthcare Centre serves as a teaching site for IMU students, and plays an important role in educating future healthcare professionals who understand the importance and benefits of offering holistic healthcare services. It also allows IMU to extend the learning experience, beyond that already offered by its partnerships with Ministry of Health hospitals and clinics, and helps attract quality faculty. It is both a teaching and service innovation.

Research Focused on Medicine and Medical Education

Moving into research was a natural progression in the evolution of the IMU in its continual quest for academic excellence. IMU thrust areas for research are: environmental health, cancer biology, stem cell research, active biomolecules and cellular mechanisms, pharmaceutics and drug delivery systems, and natural compounds and nutraceuticals.

While medical and healthcare-related research continues to be an area of focus, IMU is also making progress in a new area of research – that of medical education.

Since 2000, when research activities first started, IMU has initiated 947 research projects, consisting of a mix of undergraduate, graduate and faculty research. From 2008 – 2011, it published 568 papers, of which 281 (49.5%) were in ISI papers. These were in respected journals such as the Lancet, British Medical Journal, Cochrane Data Base Systematic Reviews, Human Pathology, to name a few.
IMU’s research efforts are further enhanced when its Institute of Research, Development and Innovation (IRDI) came onstream in 2012, which will elevate the University as a significant player in biomedical and clinical research.

An Engaged University
One of IMU’s core values is that to be good healthcare professionals, students must be moulded to be good human beings. And this includes being aware of, and sensitive to, the needs of the communities in which they live and work, hence IMU’s tradition of active community engagement.

Through a comprehensive community engagement programme, students, faculty and staff work with local communities, particularly those in need, to build therapeutic relationships, share healthcare knowledge through treatment and counsel and run educational programmes. Amongst these are IMU’s long-running “Kampung Angkat” (village adoption) programme, its “Health and Wellness Programme”, its IMU Cares programmes and its regular Health Awareness Days.

Looking Forward
Today IMU is an integrated medical and healthcare institution, offering education, healthcare and research in partnership with some of the world’s most respected individuals and universities in the field of medicine and healthcare. It is Malaysia’s only university focused a hundred percent on medical and healthcare education, and continues to play a significant role in nation-building.

It has remained focused on the central philosophy that guided its founders – access to quality medical education, innovation and imagination as its cornerstone, and continuous reflection leading to insight to guide IMU into the future.

Its success stems from a lot of hard work, and the belief that everything that IMU does must draw from its core ethos of Innovation, Imagination and Insight. Innovation, to be creative and productive and to be focused on continuous innovation, Imagination to be realistic about what can be achieved and measured, and Insight to be focused on productivity and responsiveness, to be acceptable to those IMU serves.

In January 2011, IMU launched its 5-year Strategic Plan – ASPIRE, which will see the University work towards becoming a truly Learning Organisation, as envisaged by Peter Senge.

Forging ahead, IMU will have to develop an academic health centre where all the three components of education, research and healthcare will add value to each other. This will also differentiate IMU.

As it celebrates its 23rd Anniversary, IMU continues to be focused on its most important role – to help mould individuals to be better people, and to be better medical and healthcare professionals.

IMU Healthcare offers Chiropractic and Chinese Medicine, Dental and Medical services as well as Psychological, Nutritional and Dietary advice and counselling.

The IMU MSc in Public Health – the first ever postgraduate programme in Public Health offered by a private university – received its pioneer batch of students on 5 September 2011.
The University Mace

The mace is the symbol of authority of the International Medical University (IMU). The globe at the top symbolises the international nature of the University. Gold denotes the quality of education provided by the IMU.

The seven kris (traditional Malay weapon) represent the nations participating in the International Medical Consortium.

The songket motif symbolises the country's cultural tradition. The bunga raya (hibiscus) is Malaysia's national flower.

The five facets of the mace signify the five continents of the world.

The second ring consists of the logo of the IMU to signify its new charter as a University. Below the second ring of the mace are the logos of the original five Partner Medical Schools which helped start this innovative medical programme.

The original International Medical College emblems are etched on each side of the brace in the third ring of the mace. Below the third ring are the logos of the international Partner Universities involved through their medical schools in the International Medical Consortium. The bottom part of the mace is carved in the shape of the Kelantanese gasing (spinning top), another symbol of Malaysian culture.
Our Vision

IMU shall be an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens; and visionary leaders.

IMU is committed to academic freedom and the principles of equal opportunity in the pursuit and application of knowledge, the highest standards of intellectual, educational and research productivity; and the establishment of a learning organisation that respects the individual.

Our Educational Mission

As an educational institution, our mission is:

• To further strengthen the IMU as centre of excellence for undergraduate programmes in medicine, pharmacy and other health sciences programmes
• To establish the IMU as a centre for higher education providing training through multidisciplinary programmes
• To establish the IMU as a centre for postgraduate training and Continuing Professional Education
• To train knowledgeable and skilful professionals with high ethical standards who will be dedicated to serve and improve the quality of life of the community
• To train competent professionals with the use of innovative technologies of knowledge especially ICT in the teaching-learning process

Our Quality Policy

IMU aims to be an innovative centre of excellence in learning and research, producing competent, caring and ethical professionals who are lifelong learners. It is committed to achieving the highest standards of intellectual, educational and research productivity.

Our Logo

The initials IMU represent the name of the University. The strips on the “I” represent the three pillars of Innovation, Imagination and Insight. The snake and staff are the traditional symbols for medicine, which is the educational focus of the University. The colour white represents integrity. The globe stands for international connections: the IMU as a member of the International Medical Consortium, both in terms of partnerships with many well-known foreign universities, as well as its international faculty and student body. The tilted square represents the mortarboard, which is the symbol of academia in relation to the community. The colour blue, in its two shades, stands for peace and harmony.
Message from the President

On behalf of the International Medical University family, I would like to extend our sincere congratulations to the graduating students, their families and friends. It is a pleasure for me to specially congratulate the first cohort of MSc in Molecular Medicine students who will be graduating today.

Our nursing students should also be proud of what they have achieved, being the seventh cohort to achieve 100% passes in their Professional Licensure Examination, marking the 7th consecutive year of 100% passes since its first cohort of students sat for the same examination in 2009.

This convocation, we will be awarding the Honorary Doctorate to Prof Mak Joon Wah. This honorary degree is IMU’s highest academic honour which is bestowed on individuals with notable achievements.

A convocation is a celebration; a mark for the achievements of our graduates, and acknowledgement of the support of their teachers, relatives and friends. It is a ritual that has existed for centuries which marks a significant milestone in so many lives. These ceremonies are a careful balance of tradition and celebration, events that will create lifelong memories for those graduating, their families and friends.

Graduates of this University are unique in that, regardless of their chosen area of practice, they have the opportunity to enrich the lives of those around them. In the coming years, these graduates should not forget this University, its teaching staff and friends that they have made while studying here. It is also important to us that these graduates keep us updated on the many achievements they will experience in their careers and personal lives. We will always take great pride in their achievements.

As the graduates embark upon and progress through their careers, it is essential for them to remember why they chose their respective fields and the sacrifices endured in order to make it happen: to serve our communities and improve the quality of life and health of its members with compassion, honesty and integrity.

Congratulations again to the graduates. The IMU Family is very proud of you.

YBhg Tan Sri Dato’ Dr Abu Bakar Suleiman
MBBS (Monash), MMed (S’pore), DMedSc (UKM), DSc Hon (UPM),
PhD Hon (UMS), FRACP, FAMM, FAMS, FACP (Hon), FRCP, FRCPE,
FRCP (Glasgow), FRCPI, FRCSE (Hon), FRCSE (Hon), FAFPM, FASc, AMP (Harvard)
The Chancellor and Pro-Chancellor

Chancellor

Honorary Doctor of Medicine

Prof Roger Green
Honorary Doctor of Medicine

Prof John Marley
Honorary Doctor of Medicine

YBhg Tan Sri Dato’
Dr Yahya Awang
Honorary Doctor of Medicine

Prof Chris Stephens
Honorary Doctor of Medicine
Conferment of Doctor of Science _honoris causa_ upon

**Prof Mak Joon Wah**

Mak Joon Wah was born in Penang in 1942, and is the fourth child of six boys of Mak Kok Kee, a businessman, and Pak Mooi Chee, a housewife. Joon Wah received his secondary education from Methodist Boys School in Penang, and obtained his medical degree from the National University of Singapore in 1967. After graduation, he served in various hospitals under the Ministry of Health, Malaysia for five years before joining the Institute for Medical Research (IMR) in 1972. During his stay with the IMR, Dr Mak headed the Malaria and Filariasis Division, and the Biotechnology Division before his appointment as Director in 1995. After his retirement from IMR, he joined the Faculty of Medicine and Health Sciences in Universiti Putra Malaysia in 1997 where he served for three years as Professor of Tropical Medicine.

Prof Mak joined International Medical University (IMU) as Professor of Medical Parasitology in 2001, and served as Dean of the School of Postgraduate Studies from 2006 to 2013. He was appointed as the Vice President (Research) on 1 September 2011, and as Director of the Institute for Research, Development and Innovation (IRDI) IMU in September 2012. Prof Mak is also a Fellow of the Academy of Sciences Malaysia, and a Fellow of the Academy of Medicine Malaysia.

Throughout his research career, Prof Mak’s main interests are in tropical medicine, bioactive molecules, and infectious diseases. He is a globally recognised expert in filariasis and malaria, and has been appointed as a WHO consultant in 17 countries. He has published over 345 scientific papers in refereed journals. He was the Foundation Editor of the journal, “Tropical Biomedicine”, which is the first biomedical ISI journal in Malaysia (published by the Malaysian Society of Tropical Medicine and Parasitology). Recognising the urgent need for a good resource for medically important parasites, he produced an “Atlas of Medically Important Parasites” together with his wife, Dr Choong Mooi Fai. This book is now used as a text in universities for the training of medical and health science undergraduates and postgraduates, and is currently in the third edition, with more than 5,000 copies being sold worldwide. In addition, Prof Mak has successfully supervised 13 PhD and 11 MSc students.

For his contributions to science, Prof Mak was the joint recipient of the first National Science Award (Anugerah Sains Negara) in 1985, and awarded the Sandosham Gold Medal in 1989. In 2011, Prof Mak was the winner of the prestigious Merdeka Award for “Outstanding Scholastic Achievement”, in recognition of his contributions to fundamental and applied research in parasitology and parasitic diseases, public health and pathology. Prof Mak was instrumental in influencing the Ministry of Science, Technology and Innovation (MOSTI) to include the private universities in the country in the allocation of research funds. This is a milestone achievement for the progress of scientific research in Malaysia.

Under the dedicated stewardship of Prof Mak, IMU has made significant progress in research, as evidenced by the significant increase in publications in peer reviewed journals, success in getting external grants for research, and increased number of postgraduate students. Prof Mak is instrumental in setting the directions of research in IMU, which focus on four thrust areas, namely Environmental and Population Health, Cancer and Stem Cell Research, Bioactive Molecules and Drug Delivery, and Health Professional Education Research. Under the ASPIRE strategic plans, Prof Mak set the stage with the establishment of the Institute for Research, Development and Innovation (IRDI) on 18 September 2012.

Prof Mak and his wife have three children – two boys, Yew Meng and Yew Nam, and a girl, Yuet Mei and five grandchildren. He has many hobbies which include jungle trekking, hiking, gardening and reading, especially poems and classics.

Reception
The Graduands
September 2015
Doctor of Philosophy in Medical and Health Sciences (By Research) Graduands

- **Anil Philip Kunnath**
  Thesis title: Induction of intracellular death of breast cancer cells through combined intracellular delivery of a tumor-suppressor gene and small interfering RNAs against growth factor receptor and anti-apoptotic genes

- **Shantakumari Rajan**
  Thesis title: Use of antioxidants to counter the adverse effects of bisphenol A in a mouse model

Master of Science in Medical and Health Sciences (By Research) Graduands

- **Ng Kay Lee Haema**
  Thesis title: The elucidation of molecular targets regulated by tocotrienols (delta and gamma) and beta-carotene in human chronic myelogenous leukaemia (K562) cells

- **Shamala A/P Nadaraju**
  Thesis title: Formulation and characterization studies of doxorubicin and cyclosporine-A co-encapsulation in polymeric nanoparticles for oral chemotherapy

- **Siti Aisya Binti Saud Gany**
  Thesis title: Anti-oxidative and anti-neuroinflammatory activities of three Malaysian seaweeds, *Caulerpa racemosa, Padina australis* and *Sargassum polycystum*

Master of Science in Molecular Medicine Graduands

- **Amy Chong Siew Peng**
- **Dina Elrabie Abubakr Osman**
- **Muhammad Daniel Azlan Mahadzir**
- **Ten Yi Yang**
- **Wong Li Zhe**

Master of Science in Analytical and Pharmaceutical Chemistry Graduands

- **Rajakumari A/P Rajasingam**
- **Shuaib Faridah Olubunmi**
- **Tan Yee Hon**
### Bachelor of Medical Sciences (Hons) Graduands

**List of Graduands for I1/14 and I2/14**

- Second Class Honours, Upper Division
  - Mohd Faiz B Ab Basir
  - Jagraj Singh Dhillon A/L Amrik Singh
  - Leviana Ercylina Nathan
  - Lleika A/P Kunaselann
  - Ng Wen Cern
  - Wong Tze Hao

- Second Class Honours, Lower Division
  - Perry Faith Tan Tze Ming
  - Yew Sheng Qian

- Third Class
  - Kamal Hakim Bin Kamarulzaman

### Bachelor of Medicine & Bachelor of Surgery Graduands

**DEAN’S LIST OF GRADUANDS WITH HIGH ACADEMIC ACHIEVEMENT**

- Liew Jun Yong
- Yong Kai Yunn
- Gan De Yee

**List of Graduands for C1/13**

- Adrian Low Sheng Kian
- Ahmad Farhan Bin Agusalim
- Ahmad Mukhlis Bin Rahimi
- Amanda Chang Yen Tin
- Ashley Nicholas Dong Cheng Jian
- Ashwinie A/P Ragavan
- Banumathy Ramakrishnan

- Ling Hwee Chia
- Loh Ya Fui
- Loke Li Zhen
- Low Jun Ken

**DR JOHN JOSEPH BOSCO MEMORIAL GOLD MEDAL**

This award is given in memory of the late Dr John Joseph Bosco who played an instrumental role in the development of the IMU Clinical School. The gold medal is presented to Liew Jun Yong who achieved the highest marks in the Medical Convocating Class of C1/13.
Bachelor of Science (Hons) Pharmaceutical Chemistry Graduands

TUN ZAHIR MERIT AWARD
This award is given in memory of the late Tun Dato’ Seri Dr Mohamed Zahir who was the Chancellor of IMU from 1999 to 2005. The merit award is presented to Hovah Marie Emilie Leiticia who was the top student in the Dean's list.

List of Graduands for PC1/12 First Class Honours
- Hovah Marie Emilie Leiticia

Second Class Honours, Upper Division
- Amala A/P Muniandy
- Danny Tan Hock Siang
- Farah Syuhaidah Binti Ahmad Jahiddin
- Khor Fang Jin
- Lwin May Thet
- Michelle Too Ra-Chelle
- Ooi Saik Ann
- Tan Lee Wei

Second Class Honours, Lower Division
- Annette Nangendo Zake
- Charmaine Yap Chooi Teng
- Durga A/P Selvarajan
- Ee Ming Huey
- Esther Thoo Kar Mun
- Geh Pei San
- Harshiny Devi A/P Rathakrishnan
- Jaita Kanchan
- Karen Voong Ai Jing
- Lee Hui Leng
- Ling Ji Yang
- Mak Kit Kay
- Neshaleni A/P Perakasam
- Ong Hui Sheng
- Phuvaneswari A/P Arumugam
- Puvaneswari A/P Marappan
- Sasitaran A/L Munuganan
- Selvambigai D/O Perumal
- Sinthu D/O Prakasam
- Teo Xu Jen
Bachelor of Science (Hons) Biomedical Science Graduands

TUN ZAHIR MERIT AWARD
This award is given in memory of the late Tun Dato’ Seri Dr Mohamed Zahir who was the Chancellor of IMU from 1999 to 2005.
The merit award is presented to Kee Meng Lu who was the top student in the Dean’s list.

List of Graduands for BM1/12
First Class Honours
• Cheng Han Ping
• Foong Yi Huan
• Kee Meng Lu
• Koh Yuan Lin
• Kong Xin Ru
Second Class Honours, Upper Division
• Chew Kean Heng
• Chew Ling Li
• Fatou K. Jaiteh
