
IMU COMMUNITY CENTRE - FACT SHEET

ABOUT IMU Community Centre

1. The IMU Community Centre (IMU CC) was initiated April 2015 as a flagship community project under the leadership of the International Medical University (IMU) with the integration and support of IMU Cares and IMU Healthcare.
2. IMU CC was mooted with the vision to provide integrated and quality healthcare services among the community and also introduce the co-existence of Modern and Complementary Medicine towards enhancing the health and quality of life among Malaysians.
3. IMU CC will provide services by both registered professionals and final year students under strict guidance. Based on IMU's commitment to provide high quality education and training instilled with intrinsic values of ethics, compassion and service to the community, patients can be rest assured on the quality of care, professionalism and efficacy of IMU's healthcare services. Patients will also have the right to choose their preferred consultation.
