

IMU students win at Nutrition Society of Malaysia Scientific Conference

TWO undergraduate final year students from the Bachelor of Science (Hons) Nutrition programme, Ho Wan Hui and Tan Ying Chien, won consolation prize under the category of poster competition at the Nutrition Society of Malaysia (NSM) 33rd Scientific Conference with the theme on 'Investing in Nutrition: Act Now', on July 24-26.

Wan Hui's poster entitled "Association between dietary intake, physical activity and macronutrient composition of breast milk among lactating women in Klang Valley" while "Effect of cooking methods (conventional rice cooker and draining method) on amylose,

amylopectin, resistant starch and total starch content of selected brown rice" is the research title for Ying Chien.

Both students are very appreciative of the support and encouragement provided by their supervisors along the journey in completing the research. They felt very fortunate to see their hard work has finally been turned into something memorable in this prominent scientific gathering. The students competed against 110 posters from more than 10 different institutions within and outside the country.

Each year, the Nutrition programme commence in July and September. If you have an

interest in science, an ability to work in a team and really want to make a difference in the lives of others, make an online application today and begin a career that challenges you to stretch your skills and open new doors.

If you have just completed your SPM and do not have pre-university qualification, consider enrolling in the one-year IMU Foundation in Science, the preferred foundation and direct route for entry into any of the University's degree programmes, including credit transfer options.
