## **IMU announces building works of new hospital block**

**THE** building works for International Medical University (IMU) Healthcare's new specialist hospital in Bukit Jalil, IMU Hospital is scheduled to take place soon as IMU Healthcare named Pembinaan Mitrajaya Sdn Bhd as the contractor at an announcement event recently. Pembinaan Mitrajaya Sdn Bhd will be in charge of the building construction of IMU Hospital's Phase 1 block which includes 96 inpatient beds with three operating theatres, an emergency room, 22 specialist clinics and two wellness clinics, to be ready by end of 2020 and operational in 2021.

IMU Healthcare Chief Executive Officer Dr Chong Su Lin said the RM150million hospital will further enhance the existing healthcare services that IMU Healthcare has been providing the residents of Bukit Jalil and its surrounding neighbourhoods since 2010.

"This will be the first private hospital in the Bukit Jalil area. With its new patient-centric inpatient and surgical facilities, the hospital will provide affordable quality medical services to this up-and-coming township as well as nearby housing and luxury condominiums."

The hospital will be staffed by IMU clinicians, focused on patient-centred and team-based care. IMU hospital forms the inpatient hub of the IMU academic health eco-system to complement the existing university as well as outpatient-based healthcare services.
