SIMULATED PATIENT PROGRAMME

A Simulated Patient (SP) is an individual who is trained to simulate real patients based on scenarios, role play and acting to assist students in their learning of communication and physical examination skills.

Organised by **Clinical Skills & Simulation Centre (CSSC)**
International Medical University
Bukit Jalil | Seremban

WHAT ARE THE REQUIREMENTS?

- Committed to participate and contribute in medical or health sciences education.
- Any race, gender, age group or educational background (we welcome young college students to join us).
- Good command of English.
- Able to arrange own transport to reach IMU.
- Able to memorise script and enjoy acting.
- Physically fit and stable.
- Those with physical disabilities (blind/deaf) are welcome to join but application will be reviewed.

HOW TO APPLY

- You may apply online via the IMU website, www.imu.edu.my/sp
- You may contact us for more details.

WHAT IS EXPECTED FROM A SIMULATED PATIENT?

- Memorise script for history taking session and role play as a patient according to the script provided.
- Allow to be examined physically by students as required during classes or examinations.

HOW OFTEN WILL YOU BE NEEDED FOR CLASSES OR EXAMS?

- Being a Simulated Patient (SP) in IMU is on a voluntary basis.
- You will be called accordingly to the needs and requirement of the particular programme or examination. Thus, it cannot be considered as a full-time or part-time job.
