# History of IMU

22 years ago, it was clear that Malaysia was facing a serious shortage of doctors. Dr Kamal Salih, a visionary, and Dr Mei Ling Young, a social scientist with a strong interest in development, hit on a brilliant, simple idea – if young Malaysian students could not go out into the world to get the medical education they wanted and deserved, they would bring it to them.

And so the idea for the International Medical College (IMC) was born.

Kamal and Mei Ling roped in Dr Saidi Hashim, who had helped start the Universiti Sains Malaysia (USM)'s Medical School and Prof Ong Kok Hai, also a USM colleague, to help put the plan for the school together. They in turn invited two leading medical educationists – Prof Ron Harden and Prof Ian Hart to join the team.

The six of them then put together a unique model that would see medical students spend the first 5 semesters at the International Medical College (IMC) in Kuala Lumpur, before moving to any one of the Partner Medical Schools (PMS) around the world. It was a radical idea – a world's first – that changed the model for medical education. And in the process, helped build a better Malaysia.

The IMC curriculum was unique not just in its teaching and learning

methods, but also in the fact that it was designed to be universally accepted as a Phase 1 by some of the world's best medical schools. And its unique self-directed learning approach taught students to break away from teacher dependent learning and to be responsible for their own learning.

In November 1992 – after only 2 years of intense planning and with five leading PMS on board – the IMC opened its doors to students in Jalan Selangor, Petaling Jaya.

The college was officially launched on 13 April 1992 by the then Education Minister, YB Datuk Amar Dr Sulaiman Haji Daud, demonstrating the full support of the Malaysian Ministry of Education and Ministry of Health.

## **IMC Becomes the International Medical University**

From 1992 to 1998, IMC focused on Phase 1 of its medical programme – the building of its Medical Sciences programme – so that Malaysian students could transfer seamlessly to the PMS. In 1995, IMC started two intakes, and by 1998, transferring approximately 68 students a year.

Everything changed dramatically, when in 1998, the Asian financial crisis struck. Fluctuating currencies and the massive depreciation of the Malaysian

ringgit hit both parents and the Malaysian government, as they had been sending students abroad to study medicine. The scale of uncertainties was unprecedented.

To overcome the problem of potentially stranded students from our Phase 1 programme, IMC quickly put into place a Phase 2 programme to be done locally. It was the IMU MBBS. The then Minister of Education, YB Dato Seri Mohd Najib Tun Razak, now Prime Minister of Malaysia, asked Kamal and Mei Ling to fast-track the setting up of IMC's Clinical School to help solve the problems of parents as well as the government-sponsored students. IMC was invited to become a university thereby being able to award its own degrees. IMU was born.

This had vast implications for IMC – upon completion of their Phase 1, students would have a choice to transfer to a PMS or to the Clinical School to complete their education locally.

Again, with the help of Prof Ron Harden and Prof Ian Hart, both who already had key roles in establishing the IMC, and senior medical deans Prof Michael Orme of the UK, Dr John Ruedy of North America and Prof Ian Simpson of New Zealand, collectively representing UK, North America and Australasia, the curriculum for Phase 2

and the physical design of the Clinical School were drawn up. A handful of clinicians, under the inspiring leadership of Prof John Joseph Bosco, (scheduled to be the Foundation Dean of the Clinical School), fleshed out the modern, innovative curriculum with eight outcomes, the Phase 2 curriculum. This curriculum incorporated the most forward-looking aspects of medical curricula.

The IMU Clinical School, comprising its curriculum, building and staff recruitment was completed in record time – just one year.

On 4 February 1999, IMC was granted university status and became the International Medical University (IMU), thus providing students the additional option of reading the whole medical degree in Malaysia, graduating with the IMU MBBS. With this, IMU also became the country's first private medical college to be upgraded to a university.

On 20 September 1999, the IMU Clinical School welcomed its first batch of 46 medical students. The School was located on the grounds of the Seremban Hospital, now Hospital Tuanku Ja'afar. In 2001, just 3 years after launching the programme, the IMU MBBS programme earned accreditation from the National Accreditation Board.

IMU then went on to establish teaching relationships with several other hospitals, the result of which was that IMU MBBS students were exposed, over the course of their degree, to the full spectrum of primary, secondary and tertiary care. The implementation of the "Senior Clerkship" programme when the student in their final semester behaves like a houseman is one of the distinguishing features of the IMU MBBS programme, and one that has

contributed significantly to the quality of the IMU medical graduate.

### **100% Medical and Healthcare Education Specialist**

Well before the development of the IMU MBBS programme, the IMC was already exploring ways in which it could expand its healthcare education offering.

It introduced a twinned Pharmacy programme with University of Strathclyde in 1996, its own Bachelor of Pharmacy programme in 2004 and dentistry in 2008, which follow the IMU's unique model – a shared Phase 1 programme, with the option to complete their degree in IMU, or continue to any of their Partner Schools around the world.

Believing that health is holistic, IMU introduced the Chiropractic programme in 2010, the first of its kind in Southeast Asia. The IMU Chiropractic programme features an evidence-based curriculum, meaning the material that is taught is derived from research findings as much as possible.

IMU then introduced the Chinese Medicine programme in February 2011, where students are required to learn the basic medical sciences alongside clinical practices of Chinese Medicine. This integration is important as it combines the best of both types of medicine; students adopt and apply a scientific and an evidence-based approach to Chinese Medicine.

Completing its offering of medical and healthcare programmes are other clinically-based health professions like Nursing, Dietetics with Nutrition, and Psychology as well as non-clinical health programmes such as Medical Biotechnology, Biomedical Science, Nutrition and Pharmaceutical Chemistry.

Since 2004, IMU has been offering postgraduate programmes, their MSc and PhD by research. And in September 2011, IMU welcomed the pioneer batch of students enrolled in the first postgraduate taught programme in IMU, the MSc in Public Health. Besides this programme, other postgraduate programme offered are MSc in Analytical and Pharmaceutical Chemistry, Master of Formulation Science and MSc in Molecular Medicine.

Despite the variety, the different programmes share the same philosophy – to produce thinking students who are lifelong learners. IMU seeks to widen access to healthcare education, with courses that are both progressive and innovative. Its aim: to grow into a centre of healthcare educational excellence in the Asia-Pacific region.

### **Moving Into Healthcare**

In January 2010, IMU took a bold step in its plan to be a holistic healthcare provider, with the opening of the IMU Oral Health Centre. This marked a major breakthrough for the University – for the very first time, IMU was receiving and treating real patients.

This was quickly followed by the opening of the IMU Chiropractic Centre in May 2010, the IMU Medical Clinic in July 2010 and the IMU Chinese Medicine Centre in November 2010.

Together, the four clinics form the IMU Healthcare Centre, which is unique in that it brings the disciplines of allopathic (western) medicine under one roof beside those of traditional and complementary medicine, offering western medicine, dental services, nutrition and dietary and psychological advice, alongside chiropractic and Chinese medicine services.

1

- 1 The International Medical College was officially launched on 13 April 1992.
- 2 In 1993, the pioneer batch of 75 students were enrolled in the medical programme.
- 3 On 20 April 1998, IMU received an invitation to become a university.
- 4 The pioneer batch of 30 students was enrolled in the IMU Chiropractic programme on 22 February 2010.
- 5 IMU Healthcare offers Chiropractic and Chinese Medicine, Dental and Medical services as well as Psychological, Nutritional and Dietary advice and counselling.
- 6 The IMU MSc in Public Health – the first ever postgraduate programme in Public Health offered by a private university – received its pioneer batch of students on 5 September 2011.

The Healthcare Centre serves as a teaching site for IMU students, and plays an important role in educating future healthcare professionals who understand the importance and benefits of offering holistic healthcare services. It also allows IMU to extend the learning experience, beyond that already offered by its partnerships with Ministry of Health hospitals and clinics, and helps attract quality faculty. It is both a teaching and service innovation.

### **Research Focused on Medicine and Medical Education**

Moving into research was a natural progression in the evolution of the IMU in its continual quest for academic excellence. IMU thrust areas for research are: environmental health, cancer biology, stem cell research, active biomolecules and cellular mechanisms, pharmaceuticals and drug delivery systems, and natural compounds and nutraceuticals.

While medical and healthcare-related research continues to be an area of focus, IMU is also making progress in a new area of research – that of medical education.

Since 2000, when research activities first started, IMU has initiated 947 research projects, consisting of a mix of undergraduate, graduate and faculty research. From 2008 – 2011, it published 568 papers, of which 281 (49.5%) were in ISI papers. These were in respected journals such as the Lancet, British Medical Journal, Cochrane Data Base Systematic Reviews, Human Pathology, to name a few.

IMU's research efforts are further enhanced when its Institute of Research, Development and Innovation (IRDI) came onstream in 2012, which will elevate the University

as a significant player in biomedical and clinical research.

### **An Engaged University**

One of IMU's core values is that to be good healthcare professionals, students must be moulded to be good human beings. And this includes being aware of, and sensitive to, the needs of the communities in which they live and work, hence IMU's tradition of active community engagement.

Through a comprehensive community engagement programme, students, faculty and staff work with local communities, particularly those in need, to build therapeutic relationships, share healthcare knowledge through treatment and counsel and run educational programmes. Amongst these are IMU's long-running "Kampung Angkat" (village adoption) programme, its "Health and Wellness Programme", its IMU Cares programmes and its regular Health Awareness Days.

### **Looking Forward**

Today IMU is an integrated medical and healthcare institution, offering education, healthcare and research in partnership with some of the world's most respected individuals and universities in the field of medicine and healthcare. It is Malaysia's only university focused a hundred percent on medical and healthcare education, and continues to play a significant role in nation-building.

It has remained focused on the central philosophy that guided its founders – access to quality medical education, innovation and imagination as its cornerstone, and continuous reflection leading to insight to guide IMU into the future.

Its success stems from a lot of hard

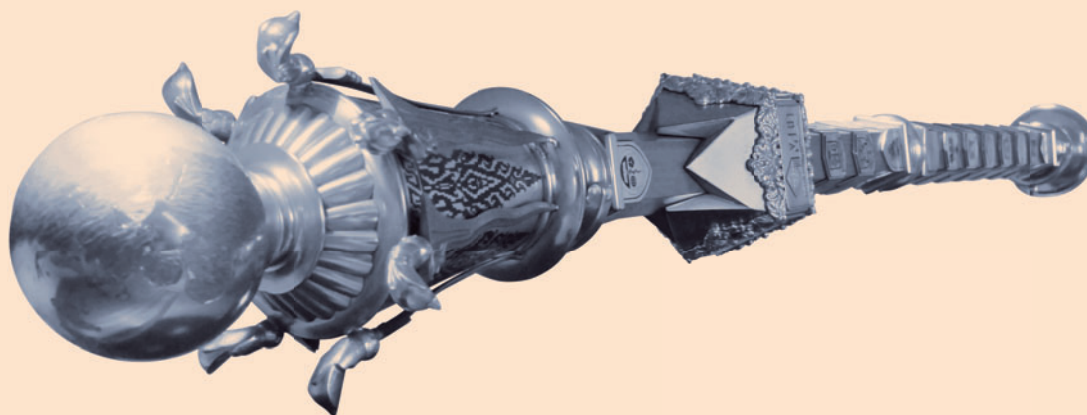

work, and the belief that everything that IMU does must draw from its core ethos of Innovation, Imagination and Insight. Innovation, to be creative and productive and to be focused on continuous innovation, Imagination to be realistic about what can be achieved and measured, and Insight to be focused on productivity and responsiveness, to be acceptable to those IMU serves.

In January 2011, IMU launched its 5-year Strategic Plan – ASPIRE, which will see the University work towards becoming a truly Learning Organisation, as envisaged by Peter Senge.

Forging ahead, IMU will have to develop an academic health centre where all the three components of education, research and healthcare will add value to each other. This will also differentiate IMU.

As it celebrates its 22nd Anniversary, IMU continues to be focused on its most important role – to help mould individuals to be better people, and to be better medical and healthcare professionals.

# The University Mace

The mace is the symbol of authority of the International Medical University (IMU). The globe at the top symbolises the international nature of the University. Gold denotes the quality of education provided by the IMU.

The seven kris (traditional Malay weapon) represent the nations participating in the International Medical Consortium. The songket motif symbolises the country's cultural tradition. The bunga raya (hibiscus)

is Malaysia's national flower. The five facets of the mace signify the five continents of the world.

The second ring consists of the logo of the IMU to signify its new charter as a University. Below the second ring of the mace are the logos of the original five Partner Medical Schools which helped start this innovative medical programme.

The original International Medical College emblems are etched on each side of the brace in the third ring of the mace. Below the third ring are the logos of the international Partner Universities involved through their medical schools in the International Medical Consortium. The bottom part of the mace is carved in the shape of the Kelantanese gasing (spinning top), another symbol of Malaysian culture.

## Our Vision

IMU shall be an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens; and visionary leaders.

IMU is committed to academic freedom and the principles of equal opportunity in the pursuit and application of knowledge, the highest standards of intellectual, educational and research productivity; and the establishment of a learning organisation that respects the individual.

---

## Our Quality Policy

IMU aims to be an innovative centre of excellence in learning and research, producing competent, caring and ethical professionals who are lifelong learners. It is committed to achieving the highest standards of intellectual, educational and research productivity.

---

## Our Logo

The initials IMU represent the name of the University. The strips on the "I" represent the three pillars of Innovation, Imagination and Insight. The snake and staff are the traditional symbols for medicine, which is the educational focus of the University. The colour white represents integrity. The globe stands for international connections: the IMU as a member of the International Medical Consortium, both in terms of partnerships with many well-known foreign universities, as well as its international faculty and student body. The tilted square represents the mortarboard, which is the symbol of academia in relation to the community. The colour blue, in its two shades, stands for peace and harmony.

# Congratulations to our graduates on their convocation!

Today is a special day which we hope is a day that all of you who are graduating today will remember fondly for the rest of your lives. This is a significant milestone for our graduates, a culmination of many years of study. In achieving this goal, our graduates have demonstrated the commitment to succeed in their chosen healthcare career. This achievement had been the result of hard work and the support of staff of the university, families, relatives and friends who provided the emotional, practical and financial support which has contributed to this success.

Today also marks the installation of our new chancellor YBhg Dato' Dr Amir Abbas as the university's fourth Chancellor and YBhg Prof Dato' Dr Gan Ee Kiang as its Pro-Chancellor. The installation today will definitely strengthen the administration of IMU and bring the university to a higher level of academic excellence and international standing.

A special congratulations goes to the first cohort of Bachelor of Science (Hon) Chiropractic (IMU) graduates. This programme under the University's School of Health Sciences, was awarded full accreditation by the Council on Chiropractic Education, Australasia (CCEA) last year. IMU is the first and only University to offer such a programme in Malaysia as well as in all of Southeast Asia.

Another programme that received

international accreditation was the University's 3-year Bachelor of Science (Hons) Pharmaceutical Chemistry. This pharmaceutical chemistry programme received accreditation from the Royal Society of Chemistry (RSC), the world's leading chemistry community and professional body, advancing excellence in the chemical sciences early this year.

Our School of Medicine also received international recognition when it was conferred the Association for Medical Education in Europe (AMEE) ASPIRE to Excellence Award in the area of "Student Engagement" last year. As it was the inaugural AMEE ASPIRE to Excellence Award, IMU is one of the first Medical Schools in the world to win this award.

Enrollment across all of the University's programmes is positive in both quality and quantity. We are now expanding to pre-university level of education beyond the undergraduate and postgraduate programmes currently offered at the University. In January this year, the pioneer batch of students was enrolled in the IMU Foundation in Science programme.

Graduates, you should take with you the values and traditions of your alma mater as you enter a world full of opportunities and start of another phase in your life. Be a caring healthcare professional who is committed to lifelong learning, good leadership and ethical behaviour. Our

graduates should live up to our vision and mission of becoming leaders that make a difference to the community.

Friendships that will last our graduates a lifetime have been developed during your studies in this University. I urge our graduates to maintain this relationship and their relationship with the University via the alumni. Our alumni will be an invaluable resource to the graduates when they embark on their careers, forging connections around the world and across all disciplines. As alumni, the graduates will be joining a special group of individuals who represent hope and a true passion for lifelong learning.

On behalf of everyone at the University, I would like to once again extend our warmest congratulations to all our graduates on their success. We wish them every success as they enter a new phase in their life and hope that in the coming years, they will stay connected with IMU. We wish them truly happy and fulfilling lives ahead with good health, meaningful career and phenomenal success in their professional life as well as a contributing member of society.

# Chancellor

**YBhg Dato' Dr Amir Abbas**  
DPMP  
D.medsc (Hon)(UKM), FRCP, DTM&H (L'pool),  
FAMM, MBBS (UM-S'pore)

Dato' Dr Amir Abbas hails from the state of Perak and had his early education in Taiping. He read medicine at the University of Malaya in Singapore and graduated with MBBS in 1961. Upon graduation he returned to Malaysia and served the Ministry of Health as a medical officer in Kuala Kangsar, Kuala Lumpur and Ipoh before he was appointed as a research officer at the Institute for Medical Research (IMR). In 1967 he left for the United Kingdom to pursue his postgraduate studies. There he obtained the Diploma in Tropical Medicine and Hygiene from the University of Liverpool and passed his examinations for Membership of the Royal College of Physicians. He returned to Malaysia in 1969 and was appointed the Head of the Rural Health Research Department at the IMR.

In 1972 he was selected by the government to establish the new Medical Faculty at Universiti

Kebangsaan Malaysia (UKM) and was the Foundation Dean of the Faculty from 1972 – 1975 when he left the university for private practice.

Dato' Dr Amir has vast experience in the field of medicine, both in the public and private sector. He played a key role in establishing the then Subang Jaya Medical Centre and was the Medical Director and consultant physician there from 1985 – 1987. Dato' Dr Amir had been a member of the Councils of both Universiti Kebangsaan Malaysia and the University of Malaya. He was a past President of the College of Physicians of Malaysia and a Fellow of the Academy of Medicine of Malaysia. In recognition of his significant contributions to the development of medicine in Malaysia, Dato' Dr Amir was conferred the Honorary Doctor of Medicine Science by UKM in 2001.

Today Dato' Dr Amir still runs an active medical practice and is the Managing Director of Meditek Equipment

Sdn Bhd, a company that provides consultancy in medical equipment.

IMU has also benefitted tremendously from Dato' Dr Amir's wisdom and experience. Dato' Dr Amir was a member of the Board of Governors from 2006 – 2013 and the Pro-Chancellor of the University from 2011 to 2013. It is indeed IMU's privilege to have such a distinguished personality as Dato' Dr Amir in our establishment. The appointment of Dato' Dr Amir as Chancellor will further enhance the prestige of our University and bring us to ever greater heights, in terms of our intellectual development as well as our standing in the field of medicine and health.

Ladies and gentlemen, I have the privilege and honour of presenting Dato' Dr Amir Abbas, for installation as the new Chancellor of the International Medical University.

# Pro-Chancellor

**YBhg Dato' Dr Gan Ee Kiang**

PKT, BCN, JMN, DSPN  
BSc (Hon), PhD (UWA)

Dato' Dr Gan Ee Kiang, the eldest son of a businessman, was born in Alma, a small town in Bukit Mertajam Penang on the 23rd of June 1944. He completed his secondary education in Bukit Mertajam High School and after his Form 5, left for Australia in 1963. There, he completed his matriculation in Coburg High School in Melbourne. He was then admitted to the University of Western Australia where he graduated with an honours degree in Pharmacology. Following this, he was awarded a National Health and Medical Research Council scholarship to pursue his PhD in Pharmacology under the supervision of the late Emeritus Professor M. F. Lockett, the first female professor in Australia and a world renowned Pharmacologist from the University of London. Dato' Dr Gan obtained his PhD in 1972 for his thesis, "Intra-renal secretion of renin".

While still in Australia, Dato' Dr Gan had job offers from the University of Malaya, the National University of Singapore and Universiti Sains Malaysia (USM; then called the University of Penang). He decided to return to Penang to join USM as a Lecturer, and was promoted to Associate Professor in 1977, Professor in 1990 and Senior Professor in 1994. He was later appointed Deputy Dean (1977), Acting Dean (1979), and Dean (1980 - 1995) of the School of Pharmaceutical Sciences. During his tenure as Dean, the School gained international prominence in Clinical Pharmacy Education, as well as a provider of consultancy services, and in research & development (R&D) activities. During this time, he was instrumental in setting up three new centres at USM. These centres are the: (i) Drug Research Centre in 1981, (ii) National Poison Centre in 1995, and (iii) National Doping Control Centre in 1996.

In 1974, Dato' Dr Gan spent 9 months collaborating with the late Professor (Sir) W. S. Peart FRSc to research the Renin-Angiotensin system at St. Mary's Hospital Medical School,

University of London. Since then he has published two books as well as over 100 scientific/professional publications and is a co-inventor of two patented inventions. These publications are largely based on his research interests in cardiovascular pharmacology, active compounds from natural products and pharmacy education. He was appointed, on three occasions, as WHO temporary advisor and was an invited speaker at various eminent professional meetings in the USA, Europe and Asia. He sits on the Editorial Board of several professional journals. He was also the first Malaysian member of the "International Health Advisory Panel of the United States Pharmacopoeia Convention (USP)" a position he held from 1990-1995. Dato' Dr Gan was also panel member of the "National Panel for Best Inventor Award MOSTI (Ministry of Science, Technology and Innovation)" for almost 10 years, and the Malaysian Drug Control Authority (DCA) for eight years.

Dato' Dr Gan has been conferred three state awards by the Penang State Government, the "Pingat Kelakuan Terpuji (PKT, 1986)", the "Bintang Cemerlang Negeri (BCN, 1997)", and the "Darjah Setia Pangkuan Negeri (DSPN, 2004)", and one by the Malaysian Government, the "Johan Mangku Negara (JMN, 1999)". For his enduring contribution to Pharmacy Education, Dato' Dr Gan was the second person in Asia to be awarded "The Donald C Brodie, PhD Award" by the Pan Pacific Foundation in Honolulu, Hawaii in 1991. This award was given in recognition of his contribution to the "development of exemplary educational and service programmes in pharmacy, which have benefited the profession of pharmacy on a national and international level".

Dato' Dr Gan is the founder of the USAINS Group and served as Managing Director from 1999 to 2013. The USAINS Group is the first company incorporated by a public university in Malaysia with the approval of the Ministry of Finance

and the Ministry of Education. USAINS was incorporated to help USM generate income through technology transfer, the commercialisation of R&D results and to make available University expertise/facilities to serve the public and the private sectors. He was also the founding member of the Malaysian Society of Pharmacology and Therapeutics in the seventies. During his tenure as President, and under his chairmanship, Malaysia hosted the South East Asia and Western Pacific Regional Meeting of Pharmacologists for the first time. Dato' Dr Gan was also advisor to "The Malaysian Society of Pharmaceutical Trade and Manufacturers Association".

Dato' Dr Gan is active in community services. He was Past President of the Rotary Club of Bayan Baru in Penang which led many charitable projects. Currently, he is a Trustee of a Foundation that awards scholarships yearly to needy students and supports deserving poor patients needing medical assistance. He also sits on the Board of Directors of several limited companies. He has been consultant on many occasions to banks and venture capitalists for their investments and is currently advisor to several companies. He has been a member of the Board of Governors, International Medical University since January 2004.

Dato' Dr Gan Ee Kiang is married to Lilian Yeoh Beng Guat, and has two children, a daughter and a son as well as four grandchildren. His daughter, Datin Michelle Gan, is a double degree holder in commerce and in law, and his son, Dr Michael Gan holds an MD degree, but pursues corporate activities in Malaysia and in the Asia Pacific region. Dato' Dr Gan used to play golf but now mainly enjoys cooking Italian and French cuisine. He is also an avid gardener.

Ladies and gentlemen, I have the privilege and honour of presenting Dato' Dr Gan Ee Kiang, for installation as the new Pro-Chancellor of the International Medical University.
