ABOUT THE INTERNATIONAL MEDICAL UNIVERSITY

In 1992, Malaysia was facing a serious shortage of doctors. Dr Kamal Salih, a visionary, and Dr Mei Ling Young, a social scientist with a strong interest in development, hit on a brilliant, simple idea – if young Malaysian students could not go out into the world to get the medical education they wanted and deserved, they would bring it to them. And so the idea for the International Medical College (IMC) was born. The college was officially launched on 13 April 1992 by the then Education Minister, YB Datuk Amar Dr Sulaiman Haji Daud, demonstrating the full support of the Malaysian Ministry of Education and Ministry of Health.

Changing the landscape of medical education, IMC introduced the world's first unique curriculum model that allow medical students to spend the first five semesters at the IMC in Kuala Lumpur, before moving to initially one of the five leading Partner Medical Schools (PMS) around the world.

Gaining University Status

On 4 February 1999, IMC was granted university status and became the International Medical University (IMU), thus providing students the additional option of reading the whole medical

degree in Malaysia, graduating with the IMU MBBS. With this, IMC also became the country's first private medical college to be upgraded to a university.

Since then, IMU has grown from a medical college with five PMS offering one programme, to an internationally recognised higher education institution offering 23 programmes with over 30 world class partner universities in Australia, New Zealand, Canada, Ireland, the United Kingdom and China. It is also the first university in Malaysia that offers conventional and complementary medicine, together, with the philosophy that health is holistic.

Healthcare and Research

In January 2010, IMU took a bold step in its plan to be a holistic healthcare provider. IMU opened its first Oral Health Centre which was quickly followed by the Chiropractic Centre in May 2010, Medical Clinic in July 2010 and the Chinese Medicine Centre in November 2010. These clinics formed the IMU Healthcare Centre which serves as a teaching site for IMU students and plays an important role in educating future healthcare professionals who understand the importance and benefits of offering holistic healthcare services. It also extends the learning experience beyond the partnerships already offered by the Ministry of Health hospitals and clinics.

While medical and healthcare-related research continues to be an area of focus, the University also places

emphasis on medical education research. To support research, the University established the Institute of Research, Development and Innovation (IRDI) in 2012.

Poised to be a significant player in biomedical and clinical research, IRDI's five thrust areas are in environmental and population health, bioactive molecules and drug discovery, cancer and stem cell research, health professions education, as well as translational research.

This is also part of the IMU's vision to be a leading private Asian health educator that creates value through integrating education, research and healthcare. The current development of the IMU Hospital and a planned network of clinics is an important part of this vision and set to be completed by 2021.

Serving the Community

One of IMU's core values is that to be good healthcare professionals, students must be moulded to be good human beings. And this includes being aware of, and sensitive to the needs of the communities in which they live and work, hence IMU's tradition of active community engagement.

Since its launch in 2002, IMU Cares programme has played an important part of University life, providing means for students and staff to engage with the community beyond the University. From small-scale fund-raising activity in 2002, IMU Cares has expanded to provide more than just financial assistance to the less privileged.

The Programme now strives to deliver healthcare, to promote health and wellness, and to prevent disease. In addition, IMU Cares has begun providing more holistic care, including medication counselling and nutritional assessment. Cases requiring further treatment are referred to the IMU Healthcare clinics, and the Khazanah IHH Healthcare Fund (KIHf) underwrites treatment costs.

IMU Cares has also looked into the education and training of caregivers, to enable and empower them to provide better care. From integration and application of knowledge and skills to interprofessional learning and collaborative practice, the programme has become a platform for experiential learning. It enables students to learn leadership, inter-professional teamwork, and to practise the values of professionalism and ethics while making a difference to communities. One of IMU's commendable efforts was seen through its long-running Village Partnership programme which won

first place; out of 63 international universities in the prestigious MacJannet Prize for Global Citizenship Award 2013. In 2013, the University also won the Association for Medical Education in Europe (AMEE) ASPIRE for Excellence Award in the area of "Student Engagement" at the AMEE conference in Prague, Czech Republic.

IMU Cares continues to win accolades and awards for its unique programmes that continues to serve the community including the Bronze Award for the CSR Leadership Award at the 10th Annual Global CSR Summit & Awards 2018.

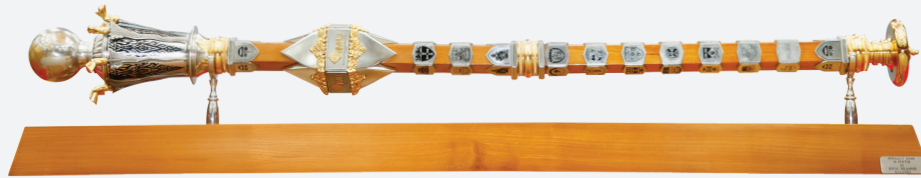

Moving Forward

Committed in its relenting quest for quality, the University was awarded the self-accreditation status – by the Malaysian Qualifications Agency (MQA). This status of autonomy entitles a higher education provider to accredit its programmes except for programmes that require accreditation and recognition of the relevant professional body. The award also demonstrates the fact

that IMU consistently maintains high standards of quality and integrity in all its programmes.

The University also gained a six-star rating under SETARA 2017 for the Mature University Category. This is the highest ranking awarded by the Ministry of Higher Education (MOHE) which measures the performance of three core functions namely teaching, research and services.

As the University progresses into a rapidly changing world, where knowledge and technology is moving at an unimaginable pace, the IMU retains its vision of becoming an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens and visionary leaders.

THE UNIVERSITY MACE

The mace is the symbol of authority of the International Medical University (IMU). The globe at the top symbolises the international nature of the University. Gold denotes the quality of education provided by the IMU.

The seven krises (traditional Malay weapon) represent the nations participating in the international medical consortium.

The songket motif symbolises the country's cultural tradition. The bunga raya (hibiscus) is Malaysia's national flower.

The five facets of the mace stand for the five continents of the world.

The second ring consists of the logo of the IMU to signify its new charter as a University. Below the second ring of the mace are the logos of the original five Partner Medical Schools which helped start this innovative medical programme.

The original International Medical College emblems are etched on each side of the brace in the third ring of the mace. Below the third ring are the logos of the international Partner Universities involved through their medical schools in the international medical consortium.

The bottom part of the mace is carved in the shape of the Kelantanese gasing (spinning top), another symbol of Malaysian culture.

THE LOGO

The initials IMU represent the name of the University. The strips on the "I" represent the three pillars of Innovation, Imagination and Insight. The snake and staff are the traditional symbols for medicine, which is the educational focus of the University. The colour white represents integrity. The globe stands for international connections: the IMU as a member of the International Medical Consortium, both in terms of partnerships with many well-known foreign universities, as well as its international faculty and student body. The tilted square represents the mortar board, which is the symbol of academia in relation to the community. The colour blue, in its two shades, stands for peace and harmony.

VISION

IMU shall be an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens; and visionary leaders.

IMU is committed to academic freedom and the principles of equal opportunity in the pursuit and application of knowledge, the highest standards of intellectual, educational and research productivity; and the establishment of a learning organisation that respects the individual.

EDUCATIONAL MISSION

As an educational institution, our mission is:

- To further strengthen the IMU as centre of excellence for undergraduate programmes in medicine, pharmacy and other health sciences programmes
- To establish the IMU as a centre for higher education providing training through multidisciplinary programmes
- To establish the IMU as a centre for postgraduate training and Continuing Professional Education
- To train knowledgeable and skilful professionals with high ethical standards who will be dedicated to serve and improve the quality of life of the community
- To train competent professionals with the use of innovative technologies of knowledge especially ICT in the teaching-learning process

QUALITY POLICY

IMU aims to be an innovative centre of excellence in learning and research, producing competent, caring and ethical professionals who are lifelong learners. It is committed to achieving the highest standards of intellectual, educational and research productivity.

CHANCELLOR

YBhg Dato' Dr Gan Ee Kiang

BSc (Hon), PhD (UWA), PKT, BCN, JMN, DSPN

Dato' Dr Gan Ee Kiang has been actively involved in the International Medical University (IMU) since 2005 when he was appointed a member of the Board of Governors. He later served as Pro-Chancellor from 2014 to 2017.

Dr Gan completed his secondary education in Bukit Mertajam High School and matriculation in Coburg High School in Melbourne. He graduated in Pharmacology (Hons) from the University of Western Australia and was awarded a National Health and Medical Research Council scholarship to pursue his PhD in Pharmacology under Professor M. F. Lockett, a world renowned Pharmacologist from the University of London. Dr Gan obtained his PhD in 1972 for his thesis, "Intra-renal Secretion of Renin".

He joined Universiti Sains Malaysia (USM) as a Lecturer in the School of Pharmaceutical Sciences, being promoted to associate professor in 1977, professor in 1990 and senior professor in 1994. He was appointed Deputy Dean in 1977, Acting Dean in 1979 and Dean of School of Pharmaceutical Sciences for 17 years from 1979-95. During his tenure as a Dean, the School gained international prominence in clinical pharmacy education as well as consultancy services and research and development (R&D) activities. During this time, he was instrumental in setting up three new centres at USM: the Drug Research Centre in 1981, the National Poison Centre in 1995, and the National Doping Control Centre in 1996.

He has published two books and contributed to over 100 scientific/professional publications and is a co-inventor of two patented inventions. He also served as member of the editorial board of several professional journals. As an eminent figure in the industry, he was appointed, on three occasions, as a WHO temporary advisor. He was invited speaker at various professional meetings in USA, Europe and Asia and visiting fellow and external examiner to universities in United Kingdom, USA, Australia, and Malaysia respectively.

Dr Gan was the first Malaysian member of the "International Health Advisory Panel of the United States Pharmacopoeia Convention (USP)", a position he held from 1990-95. He was also a panel member of the "National Panel for Best Inventor Award MOSTI (Ministry of Science, Technology and Innovation)" for almost 10 years, and the Malaysian Drug Control Authority (DCA) for eight years.

His passion in research commercialisation and innovation, led him to establish USAINS, the commercial arm of USM to help generate income through technology transfer, commercialisation of R&D results and making available University expertise and facilities to serve the public and the private sector. It was the first company incorporated

by a public university in Malaysia with the approval of the Ministry of Finance and the Ministry of Education. He was the Managing Director of the group from 1999-2013.

In line with his interest in linking the public and the private sector, Dr Gan has done consultancy works for private equity.

Dr Gan has also been active in community services. He was Past President of the Rotary Club of Bayan Baru in Penang which led many charitable projects. He is also a life member of Persatuan Mencegah Dadah Malaysia (PEMADAM).

Recognised for his outstanding service to the country, Dr Gan has been conferred several awards and accolades. Among them the Pingat Kelakuan Terpuji (PKT) in 1986, Bintang Cemerlang Negeri (BCN) in 1997, Johan Mangku Negara (JMN) in 1999 and Darjah Setia Pangkuan Negeri (DSPN) in 2004. For his contribution to Pharmacy Education, Dr Gan was the second person in Asia to be awarded "The Donald C Brodie, PhD Award" by the Pan Pacific Foundation in Honolulu, Hawaii in 1991.

PRO-CHANCELLOR

YBhg Tan Sri Dato' Dr Yahya bin Awang

*MBBS (Monash), FRCS (Glasgow), SMJ, KMN,
DPMJ, DMPN, DSAP, PSM, Hon Doct (UKM)*

Tan Sri Dato' Dr Yahya bin Awang, an eminent cardiothoracic surgeon, graduated from Monash University, Melbourne in 1974. On his return to Malaysia, he served as a medical officer in Hospital Johor Bahru and Kota Tinggi. In 1980, he obtained his Fellowship of the Royal College of Surgeons and Physicians of Glasgow (FRCS) Scotland, United Kingdom. He trained as a Cardiac Surgeon from 1980-83 at the Department of Cardiothoracic Surgery in Brompton Hospital, London.

Dr Yahya returned to Malaysia in 1983 when cardiac surgery was in its infancy and there were inadequate facilities and medical personnel to cope with the number of patients requiring open-heart surgery. It was at this time that he played a significant and pioneering role in the development of cardiac surgery in the country. He was instrumental in training cardiac surgeons and cardiac paramedics to meet the needs of the nation.

He served at the General Hospital Kuala Lumpur from 1983-85 and later promoted as Head and Senior Consultant from 1985-92. In July 1992, Dr Yahya, together with colleagues, pioneered the establishment of the National Heart Institute (IJN). During his tenure at IJN, he established the Clinical Research Unit, which enabled the Institute to undertake clinical research and collection of relevant clinical data in cardiac surgery. He has published 23 scientific papers in local and international scientific journals and made 15 presentations at various conferences. Dr Yahya was a Co-Editor for the IJN Proceedings from 2000-03.

With his appointment as President of the Asian Cardiac Surgical Society (1992-94), he led and represented Malaysia in numerous international conferences on cardiac surgery. This has put Malaysia

on the regional map as an excellent training centre for cardiac surgery and has attracted trainees from Indonesia, Japan, Yemen, Myanmar and Bangladesh. In addition, he established the IJN Foundation, an organisation that provides financially disadvantaged patients with assistance in cardiac surgery, scholarships for cardiac trainees and research on heart diseases.

Over a span of 30 years as a cardiac surgeon, Dr Yahya performed no less than 5,000 open-heart surgeries and trained more than 50 cardiac surgeons. With a dedicated and trained team, he successfully performed the first heart transplant in Malaysia on 18 December 1997. The success of this operation and other cardiac surgeries performed, enhanced the confidence of the Malaysian public to have cardiac surgical procedures done locally. Dr Yahya is known for his role in successfully operating on Tun Dr Mahathir bin Mohamad, Malaysia's Prime Minister, for coronary artery bypass surgery in 1989.

For his service and contribution to the nation's medical industry, he received several awards and accolades. He was bestowed the titles Setia Mahkota Johor (SMJ) in 1989, Kesatria Mangku Negara (KMN) in 1990, Darjah Paduka Mahkota Johor (DPMJ) (Dato') in 1990, Darjah Yang Mulia Pangkuan Negeri (DMPN) (Pahang) (Dato') in 1994, Darjah Sultan Ahmad Shah Pahang (DSAP) (Dato') in 2000 and Panglima Setia Mahkota (PSM) (Tan Sri) in 2003. He was also awarded the 2013 Merdeka Award for the Health, Science & Technology Category.

Dr Yahya held the position of President of the Association of Thoracic and Cardiovascular Surgeons of Asia from 1993-95 and was the Founding President for the Malaysian Association of Thoracic and Cardiovascular Surgeons from 1993-98. He is also member and fellow of several associations and committees including the Academy of Science Malaysia, Malaysian Medical Association, International Society of Cardiothoracic Surgeons, the Malaysian Society of Transplantation, and Honorary Member of the Special Committee for Development of National Transplant Policy.

In 2012, Dr Yahya was awarded the Honorary Doctor of Medicine from International the Medical University (IMU) in recognition of his vast contribution to the healthcare arena. He also served as Chairman for the IMU Board of Governors from 2005-17 and continues to be a member of the board.

Today, he continues to serve as an Honorary Consultant for Hospital University Sains Malaysia, Visiting Consultant Surgeon for the Division of Cardiothoracic Surgery in University Kebangsaan Malaysia, Adjunct Professor of the Medical Faculty of University Teknologi MARA, and Chairman of the Expert Panel of Heart and Lung Transplant of the National Transplant Registry. Dr Yahya is also currently the founder and Consultant Cardiothoracic Surgeon at the Cardiac Vascular Sentral Kuala Lumpur.

MESSAGE FROM THE VICE-CHANCELLOR

Dear Friends and Families of IMU,

This year's convocation is a special one for IMU as it is one of many milestones. Our seven graduands from our Postgraduate Diploma in Implant Dentistry make history today as the first graduates from the country's first-ever Postgraduate Diploma in Implant Dentistry. Also graduating today is our first batch of graduands from our Postgraduate Certificate in Health Professions Education. Congratulations to all!

Both programmes are groundbreaking programmes for IMU as they form part of our focus to develop and launch a series of new postgraduate programmes aimed at working professionals. For example, our Postgraduate Diploma in Implant Dentistry provides dental practitioners with advanced training and skills in implant dentistry so that in turn, they can provide better services to their patients.

This initiative perfectly illustrates the institution's commitment to meet the demands of the industry by further nurturing and equipping professionals with more knowledge. Supporting this is also our Open and Distance Learning platform whereby we have integrated technology with education via a rollout of programmes. I believe that combining technology in everything that we do is the way forward in healthcare education where learning can and should be made available without boundaries.

The University itself has achieved several milestones this past and current year. We received a six-star rating – the highest – under SETARA 2017, which is the Ministry of Higher Education's (MOHE) annual rating exercise that measures the performance of undergraduate teaching and learning. Of the eight universities

A handwritten signature in black ink, reading "Aziz", with a long horizontal line extending to the right.

Prof Abdul Aziz Baba
Vice-Chancellor
MBBS (Melb), MRCP (UK),
MRCP (Ireland), FRCP (Edin), AM

that gained this rating under the Mature University Category in 2017, IMU is the only home-grown private university.

We were also awarded with a self-accreditation status last year by the Malaysian Qualifications Agency (MQA) – one that is granted only to an institution with a solid internal quality assurance system – allowing IMU to accredit its non-professional programmes in the health sciences and postgraduate studies. And just earlier this month, our Dietetics with Nutrition programme has been awarded the International Accreditation for Education Programs for Dietitian-Nutritionists conferred by the International Confederation of Dietetics Association (ICDA). We are honored to be the first university in the world to receive this inaugural award by ICDA.

This year, our IMU Cares programme gained international recognition by being the only higher education institution among global corporate names to be awarded the Bronze Award for CSR Leadership at the 10th Annual Global CSR Summit & Awards 2018. I am proud that our IMU Cares programme has been picked out of over 300 submissions, a validation that we are on the right path when it comes to giving back to society.

Another significant milestone was the groundbreaking of the IMU Hospital in 2017. The groundbreaking ceremony reaffirms our journey in creating the IMU Academic Health Centre – an eco-system that combines health education with health services and medical research. Based in Bukit

Jalil, the IMU Hospital is targeted to be operational in 2021 where Phase 1 will open up 96 inpatient beds with three operating theatres, an Emergency Room, 22 Specialist Clinics and 2 Wellness Clinics.

And of course, congratulations to Class of 2018. After all those years of learning, our graduates have come to this juncture where they will now be regarded highly by society as caregivers. I hope that their years with IMU have gifted them with the sharpness on how to make quick life-changing decisions when need be, the wisdom when it comes to imparting sound medical and health advice to those under their care, the far-sightedness to contribute and further improve our nation's healthcare industry, and of course, the compassion to always serve with heart.

The IMU vision has always been to ensure that our students are world-class, industry-ready and highly sought after. We hope that through their years with us, we have given them the building blocks to take their career further and be meaningful contributors to the industry.

Everything that we do at IMU is driven by quality. The milestones mentioned here testify to this and will serve as encouragement for us to do more and better not just for our students but the industry in whole as we drive our commitment to continuously offer quality education and make significant contribution to the healthcare.

Thank you.

CONFERMENT OF EMERITUS PROFESSOR

Prof Mak Joon Wah

Prof Mak Joon Wah was born in Penang in 1942. He obtained his medical degree from the National University of Singapore in 1967. After graduation, he served as a medical doctor for 5 years in the Ministry of Health Malaysia before joining the Institute for Medical Research (IMR) in 1972 which saw him heading the Division of Malaria and Filariasis, and the Biotechnology Division before his appointment as Director in 1995. After his retirement from IMR in 1997, he served for 3 years as Professor of Tropical Medicine in the Faculty of Medicine and Health Sciences in Universiti Putra Malaysia.

Prof Mak joined the International Medical University (IMU) as Professor of Medical Parasitology in 2001, served as Dean of the School of Postgraduate Studies from 2006 to 2013 and was appointed as the Vice-President (Research) on 1 September 2011 as well as Director of the Institute for Research, Development and

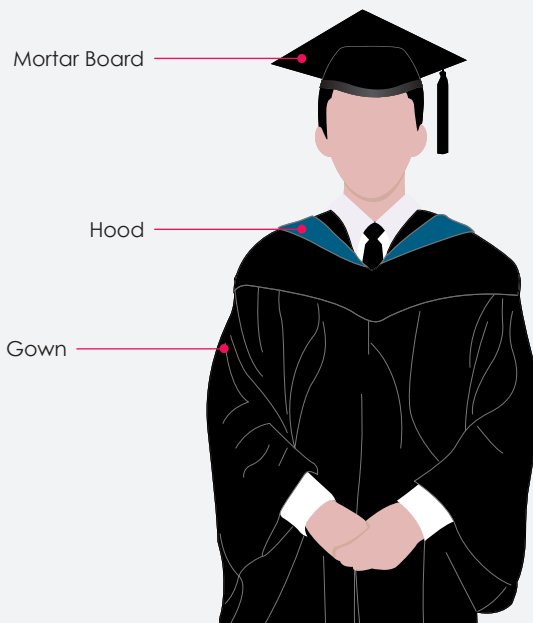

Innovation (IRDI) in September 2012. He served as Pro Vice-Chancellor Research from January 2016 till his retirement in January 2017. Prof Mak is also a Fellow of the Academy of Sciences Malaysia and a Fellow of the Academy of Medicine Malaysia.

Prof Mak's main research interests have been in tropical medicine, infectious diseases and bioactive molecules. He is a globally recognised expert in filariasis and malaria and has been appointed a World Health Organisation consultant in 17 countries. He has published more than 360 papers in refereed journals and was the Foundation Editor of the "Tropical Biomedicine", the first biomedical ISI journal in Malaysia. He has successfully supervised 13 PhD and 13 MSc students and has co-authored an "Atlas of Medically Important Parasites" with his wife, Dr Choong Mooi Fai, a text reference used by undergraduate and postgraduate students, having 5,000 copies currently sold worldwide.

For his significant contributions to fundamental and applied research in parasitology and tropical medicine, Prof Mak was the joint recipient of the National Science Award (Anugerah Sains Negara) in 1985, recipient of the Sandosham Gold Medal in 1989 and winner of the prestigious Merdeka Award for Outstanding Scholastic Achievement in 2011. At IMU's Convocation on 12 September 2015, Prof Mak received an Honorary Doctorate of Science as recognition of his immense contribution in promoting research at the University. Under of his dedicated stewardship, the university has made significant progress in research, as evidenced by increases in the numbers of peer-reviewed publication, external research funding, and numbers of postgraduate research students.

THE GRADUANDS JUNE 2018

Dr John Joseph Bosco Memorial Gold Medal

The **Dr John Joseph Bosco Memorial Gold Medal** is awarded to a student graduating with the IMU MBBS who has achieved the highest academic excellence throughout his/her degree. One medal may be awarded in each graduation cohort. This award is given in memory of the late Dr John Joseph Bosco who played an instrumental role in the development of the IMU Clinical Campus.

Muhammad Anwar bin Azrin **Class of ME1/13**

Muhammad Anwar bin Azrin is the recipient of the Dr John Joseph Bosco Memorial Gold Medal for his MBBS graduating class. Being the top of his class especially when one is pursuing medicine is not an easy feat. However, Anwar, being a self-motivated and ambitious person always strives to achieve the best in everything he does. His first academic award was in 2011 when Anwar received the "Anugerah Emas Tingkatan Lima" (Form 5 Gold Award) from MRSM Kuala Kubu Bharu. This award enabled him to receive the Majlis Amanah Rakyat (MARA) fast-track scholarship and join a Foundation Programme prior to receiving his SPM results. Besides receiving the Gold Medal, Anwar also obtained Distinction Award in the final MBBS examination.

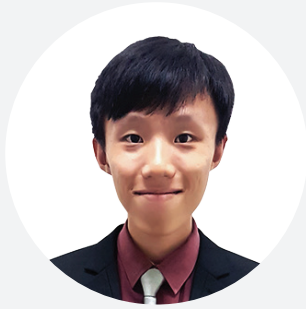

He is known to his friends and lecturers as a dedicated, enthusiastic and proactive person. He is a firm believer of inquisitive learning which involves active participation in classes and teaching sessions. This method of learning has helped Anwar to understand medicine better.

Anwar also strives to be a well-rounded person. He was involved with numerous extra-curricular programmes namely the IMU Cares Project as a health screening committee at Kg Sebir and Kg Senggarang, volunteered in the Malaysian Medical Student Summit 2015 organised by the Malaysian Medics International (MMI) and a committee member for IMU Mental Health Awareness Week 2016. Anwar also has a keen interest in debate, both in Malay and English. He participated in various national inter-varsity debate competitions namely the Debat Alam Sekitar, Debat Perpaduan, Debat ASTAR and IMU Health Science Debate Open. His team was the champion in the Debate Competition of IMU Cup 2014. He believes that debating helps improve his critical thinking and communication skills, which are essentially needed in his challenging medical profession as a doctor.

Moving forward, Anwar intends to be a Cardiothoracic Surgeon after completing his housemanship training. He envisions that in future, the medical fraternity would be able to provide the best professional healthcare services accessible by all levels of community.

Dr Saidi Hashim Memorial Gold Medal

The **Dr Saidi Hashim Memorial Gold Medal** may be presented twice a year to the top student of the convocating class who will be continuing their studies either to the IMU Clinical Campus or Partner Schools overseas. The gold medal award is given in honour of the late Dr Saidi Hashim Tahir, one of the founders of IMU.

Wong Zhen Zhe
Class of ME2/15

Wong Zhen Zhe is currently pursuing his MBBS degree at the International Medical University and completed his Phase I MBBS in June 2018. He is a very pleasant, intelligent, enthusiastic and motivated student. He is a fast and very hard working learner. He had always been a high achiever throughout his studies from Semester 1 to Semester 5.

Zhen Zhe will be a responsible and caring healthcare practitioner in the future. He is well-versed with knowledge and clinical skills. He is tactful and diplomatic. He is friendly and can communicate easily and effectively with simulated patients, his friends and superior.

Zhen Zhe is also a very organised and well-disciplined student. He manages his time well and has also been actively involved in other extra-curriculum activities like AMSA, MyWHA, Empowered, colorectal cancer awareness and etc.

Tan Sri Datuk Amar Dr Sulaiman Daud Merit Award

This award is presented to the top student of the dentistry convocating class. It is given in honour of the late **Tan Sri Datuk Amar Dr Sulaiman Daud** who was the Chancellor of IMU from 2005 to 2010.

Ho Jan Yang
Class of DT1/13

Ho Jan Yang has always been a very hard working and dedicated student. He has always portrayed high intellectual abilities, has great communication skills and has the ability to think critically. He has been a fantastic team player and always supported his fellow colleagues and juniors. He has shown leadership skills during his BDS course and participated in various outreach and community services. He had taken an initiative to visit Mahidol University, Thailand for his elective posting to learn more. This shows his commitment towards lifelong learning and strive for excellence.

Board of Governors' Gold Medal

The **Board of Governors' Gold Medal** is awarded at this Convocation to the student who achieved the highest academic standing in his/her pharmacy degree programme.

Chan Oi Yun
Class of BP1/14

Chan Oi Yun, graduate of Bachelor of Pharmacy from cohort BP1/14, is graduating with First Class Honours after her four-year journey in the International Medical University (IMU). As a diligent student with good time management skills, she excelled in both academic studies and extracurricular activities. She has shown great passion and enthusiasm to learn and to achieve her goal in becoming a competent pharmacist. With her strong perseverance, she always put in her best effort in everything she does and never gives up easily as she believes that nothing worth having was ever achieved without hard work. Despite her busy schedule as a pharmacy student, Oi Yun was also actively involved in various events, both within and away from IMU. As the Vice President of IMU Eco Friends Club 15/16, she has exhibited excellent leadership and critical thinking skills while organising numerous events in raising public environmental awareness. During her final year in IMU, she participated and emerged as the first prize winner of the Poster Presentation Competition at Asian Young Pharmacist Group (AYPG) Leadership Summit 2017. With her sincere and humble personality, it is to be hoped that she will continue to achieve remarkable success in the future as a pharmacist.

Tun Zahir Merit Award

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor of Medical Sciences (Hons) programme, Bachelor of Sciences (Hons) Psychology programme and also in one of the health sciences programmes. It is given in memory of the late **Tun Dato' Seri Dr Mohamed Zahir** who was the Chancellor of IMU from 1999 to 2005.

Toh Shen Yung
Class of I1/17

Toh Shen Yung graduated with First Class Honours from the Bachelor of Medical Science programme. He is a very intelligent and motivated student and a fast learner. He is very willing to learn new things and worked well with both fellow students and supervisors. Toh showed a lot of dedication in carrying out his research and often worked long hours in the laboratory. He also showed great enthusiasm and was very organised and meticulous. This led him to complete his thesis 3 weeks before the deadline. For his other activities, he was actively involved in the IMU orientation for 3 semesters, served as the leader of his individual group in Semester 2, and was in the organising committee in Semester 3. He also plays the piano and has completed Grade 8 ABRSM.

Tun Zahir Merit Award

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor of Medical Sciences (Hons) programme, Bachelor of Sciences (Hons) Psychology programme and also in one of the health sciences programmes. It is given in memory of the late **Tun Dato' Seri Dr Mohamed Zahir** who was the Chancellor of IMU from 1999 to 2005.

Joshi Dhara Krishnakant

Class of PS1/15

Dhara is graduating with a First Class Honours from the Bachelor of Science (Hons) Psychology programme. Throughout the duration of her studies in International Medical University, Dhara has demonstrated a deep sense of responsibility and has been a very diligent student. She is attentive in the lectures, and is an exceptional critical thinker. She works in an organised manner enabling her to meet time-lines with no difficulties – in fact, often ahead of time. Dhara has been a student who demonstrates keen interest with enormous drive for achievement and exceptional commitment to her studies. In terms of character, Dhara is modest, polite and very positive in her outlook. Apart from her studies, she has also demonstrated an exemplary sense of community spirit as evidenced by her participation as a volunteer in numerous activities such as those with orphanages and disadvantaged children, promotion of organ donation, and sexual health education for a secondary school in Malaysia. They are clearly challenging areas of work, in the midst of her undergraduate studies, and she has demonstrated her capabilities by managing them in her strides. Furthermore, her strong communication and interpersonal skills have been evident in her work as the Emcee for the 5th Psychology Professionalism and Ethics Forum held at International Medical University. Dhara's passion and determination for Psychology will be carried along with her and she believes in putting her 100% into everything she does. All these qualities of hers will make her achieve great heights in her career.

Chong Siew Xian

Class of PC1/15

Chong Siew Xian is graduating with a First Class Honours from the Bachelor of Pharmaceutical Chemistry programme and is recipient of the Tun Zahir Merit Award. Her enthusiasm and attitude are the characteristics supporting her to receive the award. Throughout her programme, she always took the initiative to learn by accomplishing all the given tasks while doing more than what was assigned. She is very active in answering questions and in clarifying doubts with lecturers during the lectures. In addition, she never strives for perfection but for excellence because overcoming challenges and improving herself is an endless and ultimate goal, as is demonstrated by her success in getting and maintaining her First Class Honours. Apart from that, she is an organised and dedicated person as shown by her ability to multitask effectively to handle and complete a high-volume workload on time. For example, she was able to be involved in many community services besides accomplishing all the given assignments and her responsibility as being a cohort representative.

Anthony Wong Yoong Joon

Class of CH1/14

Anthony Wong Yoong Joon is graduating with a Bachelor of Science (Hons) Chiropractic degree with First Class Honours. He has shown to be trustworthy and hardworking during his time at IMU. He is known to be a motivated and passionate student during his studies. He is especially remarkable during his final year as an intern. He is consistent and determined to overcome any challenges faced by him. He is well liked by his peers and lecturers. He demonstrates professionalism in classes and in his efforts to help the community. Academically he has excelled and is committed to the IMU core values.

Choo Yuet Mei

Class of CM2/13

Choo Yuet Mei is a graduate from cohort CM2/13 of the IMU Bachelor of Science (Hons) Chinese Medicine programme. She is an independent learner, friendly, and well liked by her peers. In the course of her studies, Yuet Mei has proven herself to be a diligent and hardworking student, often willing to lend a helping hand to her course mates. While undergoing the supervised clinical practice sessions, she has consistently demonstrated dedicated care for her patients. Yuet Mei also did the university proud when she won first runner-up in the inaugural Traditional Chinese Medicine (TCM) Olympiad hosted by UTAR Chinese Medicine Society on 16 July 2017. Yuet Mei is currently in Shanghai University of TCM for her internship.

THE GRADUANDS JUNE 2018

Doctor of Philosophy in Medical and Health Sciences (By Research) Graduands

Hemavathy A/P Subramaiam

Thesis Title: Immunomodulatory effects of tocotrienol and *Spirulina* against a mouse breast cancer model: individual and combined effects

Lee Ching Li

Thesis Title: Low calorie diet using liquid meal replacements versus conventional food for weight loss in obese Malaysian adults with type 2 diabetes in an outpatient clinic setting

Ong Teik Hwa

Thesis Title: Development of chitosan-propolis nanoparticle formulation as an antibacterial agent for control of biofilms formed by *Enterococcus faecalis* and *Staphylococcus epidermidis*

Shonia A/P Subramaniam

Thesis Title: Elucidating the effects of gamma-tocotrienol supplementation on the T-helper and T-regulatory cells in a syngeneic mouse model of breast cancer

Siew Wei Fern

Thesis Title: Work-injury management and return-to-work in the manufacturing industry in Selangor, Malaysia

Master of Science in Medical and Health Sciences (By Research) Graduands

Chan Chee Shan

Thesis Title: Metabolic responses to isomaltulose by Malaysian Chinese adults: a pilot study

Choong Siew Ling

Thesis Title: Allergenic potential of three airborne algae and cyanobacteria isolated from an office building in Kuala Lumpur

Folayan Adeola

Thesis Title: Indoor air quality and related health impact in an electronic factory, an office and a winery in Malaysia

Ng Pei Ying

Thesis Title: Anticancer property of chiral pairs of ternary copper (II) complexes of 1,10-phenanthroline and alanine

Wong See Kiat

Thesis Title: Synthesis, characterisation and evaluation of star-branched folate-conjugated PLLA-PEG copolymers as nanocarriers for targeted delivery of doxorubicin

Yeoh Fang Hoong

Thesis Title: Production of biocompatible and biodegradable waterborne porous polyurethane scaffolds from palm oil-based polyester polyol for tissue engineering

IMU ALUMNI

Congratulations for making it this far in your education and welcome to the IMU Alumni Community! Your relationship with International Medical University (IMU) does not end just because you have graduated. As an IMU graduate, you've automatically become a valued member of the IMU Alumni Community.

Being a part of the IMU Alumni Community, you can reconnect with classmates, get in touch with lecturers and mentors, participate in business and social networks, and attend (or organise!) a range of events including reunions. You may also enjoy special privileges and benefits such as special alumni discounts on continuing professional development programmes at the IMU Centre for Lifelong Learning (ICL), as well as receive updates and first-hand information on IMU News and events. The IMU experience is not just about your years on campus but beyond. Many alumni find that they carry the IMU learning skills well into their professional and personal lives.

How Can The Alumni Contribute?

KEEP IN TOUCH ~ We appreciate your ongoing interest in IMU. Connect with our various social media channels, as well as the IMU Alumni website, which are all designed to help you STAY IN TOUCH with what's going on. Keep your profile up-to-date via <http://alumni.imu.edu.my> or stay tuned with us on Facebook "IMU Alumni" to stay informed of the latest happenings!

ALUMNI SHARING ~ Come and share your experience with the students on campus - life in PMS, working experience, guidance on specialty, research work, etc are just some of the topics that you can explore. You can even consider providing internship or employment opportunity in the future. Contact us at alumni@imu.edu.my to know more.

FEATURED ALUMNI ~ We want employers, institutions and individuals to know where you studied and where you are now. Write back to us a short story of yours anytime and anywhere. After all, WE ARE PROUD OF YOU!

You are the "living proof" of the educational philosophy promoted at IMU. Your story will be kept to be featured wherever deemed appropriate. Write to us at alumni@imu.edu.my.

IMU Alumni Relations Office

Established in 2002, the IMU Alumni Association (IAA) aims to develop an international network of IMU graduates and to engage alumni through the exchange of knowledge, academic ideas and professional development. The Alumni Relations Office is the point of contact for graduates of IMU. We will ensure that your time is used wisely and that your experience is rewarding. We offer a range of special alumni events, services and publications to allow graduates to stay connected to the University and benefit from networking with one another.
