ABOUT THE INTERNATIONAL MEDICAL UNIVERSITY

02

In 1992, Malaysia was facing a serious shortage of doctors. Dr Kamal Salih, a visionary, and Dr Mei Ling Young, a social scientist with a strong interest in development, hit on a brilliant, simple idea – if young Malaysian students could not go out into the world to get the medical education they wanted and deserved, they would bring it to them. And so the idea for the International Medical College (IMC) was born. The college was officially launched on 13 April 1992 by the then Education Minister, YB Datuk Amar Dr Sulaiman Haji Daud, demonstrating the full support of the Malaysian Ministry of Education and Ministry of Health.

Changing the landscape of medical education, IMC introduced the world's first unique curriculum model that allow medical students to spend the first five semesters at the IMC in Kuala Lumpur, before moving to initially one of the five leading Partner Medical Schools (PMS) around the world.

Gaining University Status

On 4 February 1999, IMC was granted university status and became the International Medical University (IMU), thus providing students the additional option of reading the whole medical

degree in Malaysia, graduating with the IMU MBBS. With this, IMU also became the country's first private medical college to be upgraded to a university.

Since then, IMU has grown from a medical college with five PMS offering one programme, to an internationally recognised higher education institution offering 24 programmes with over 30 world class partner universities in Australia, New Zealand, Canada, Ireland, the United Kingdom and China. It is also the first university in Malaysia that offers conventional and complementary medicine, together, with the philosophy that health is holistic.

Healthcare and Research

In January 2010, IMU took a bold step in its plan to be a holistic healthcare provider. IMU opened its first Oral Health Centre which was quickly followed by the Chiropractic Centre in May 2010, Medical Clinic in July 2010 and the Chinese Medicine Centre in November 2010. These clinics formed the IMU Healthcare Centre which serves as a teaching site for IMU students and plays an important role in educating future healthcare professionals who understand the importance and benefits of offering holistic healthcare services. It also extends the learning experience beyond the partnerships already offered by the Ministry of Health hospitals and clinics.

While medical and healthcare-related research continues to be an area of focus, the University also places

emphasis on medical education research. To support research, the University established the Institute of Research, Development and Innovation (IRDI) in 2012.

Poised to be a significant player in biomedical and clinical research, IRDI's four key thrust areas are cancer and stem cell research, bioactive molecules and drug delivery, environmental and population health, and health professional education research.

This is also part of the IMU's vision to be a leading private Asian health educator that creates value through integrating education, research and healthcare. The current development of the IMU Hospital and a planned network of clinics is an important part of this vision and set to be completed by 2021.

Serving the Community

One of IMU's core values is that to be good healthcare professionals, students must be moulded to be good human beings. And this includes being aware of, and sensitive to the needs of the communities in which they live and work, hence IMU's tradition of active community engagement.

Since its launch in 2002, IMU Cares programme has played an important part of University life, providing means for students and staff to engage with the community beyond the University. From small-scale fund-raising activity in 2002, IMU Cares has expanded to provide more than just financial assistance to the less privileged.

The Programme now strives to deliver healthcare, to promote health and wellness, and to prevent disease. In addition, IMU Cares has begun providing more holistic care, including medication counselling and nutritional assessment. Cases requiring further treatment are referred to the IMU Healthcare clinics, and the Khazanah IHH Healthcare Fund (KIHf) underwrites treatment costs.

IMU Cares has also looked into the education and training of caregivers, to enable and empower them to provide better care. From integration and application of knowledge and skills to interprofessional learning and collaborative practice, the programme has become a platform for experiential learning. It enables students to learn leadership, inter-professional teamwork, and to practise the values of professionalism and

ethics while making a difference to communities. One of IMU's commendable efforts was seen through its long-running Village Partnership programme which won first place; out of 63 international universities in the prestigious MacJannet Prize for Global Citizenship Award 2013. In 2013, the University also won the Association for Medical Education in Europe (AMEE) ASPIRE for Excellence Award in the area of "Student Engagement" at the AMEE conference in Prague, Czech Republic.

Moving Forward

Celebrating its 25th anniversary this year, the University was also awarded the self-accreditation status – by the Malaysian Qualifications Agency (MQA). This status of autonomy entitles a higher education provider to accredit its programmes except

for programmes that require accreditation and recognition of the relevant professional body. The award also demonstrates the fact that IMU consistently maintains high standards of quality and integrity in all its programmes.

As the University progresses into a rapidly changing world, where knowledge and technology is moving at an unimaginable pace, the IMU retains its vision of becoming an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens and visionary leaders.

THE UNIVERSITY MACE

The mace is the symbol of authority of the International Medical University (IMU). The globe at the top symbolises the international nature of the University. Gold denotes the quality of education provided by the IMU.

The seven krises (traditional Malay weapon) represent the nations participating in the international medical consortium.

The songket motif symbolises the country's cultural tradition. The bunga raya (hibiscus) is Malaysia's national flower.

The five facets of the mace stand for the five continents of the world.

The second ring consists of the logo of the IMU to signify its new charter as a University. Below the second ring of the mace are the logos of the original five Partner Medical Schools which helped start this innovative medical programme.

The original International Medical College emblems are etched on each side of the brace in the third ring of the mace. Below the third ring are the logos of the international Partner Universities involved through their medical schools in the international medical consortium.

The bottom part of the mace is carved in the shape of the Kelantanese gasing (spinning top), another symbol of Malaysian culture.

THE LOGO

The initials IMU represent the name of the University. The strips on the "I" represent the three pillars of Innovation, Imagination and Insight. The snake and staff are the traditional symbols for medicine, which is the educational focus of the University. The colour white represents integrity. The globe stands for international connections: the IMU as a member of the International Medical Consortium, both in terms of partnerships with many well-known foreign universities, as well as its international faculty and student body. The tilted square represents the mortar board, which is the symbol of academia in relation to the community. The colour blue, in its two shades, stands for peace and harmony.

VISION

IMU shall be an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens; and visionary leaders.

IMU is committed to academic freedom and the principles of equal opportunity in the pursuit and application of knowledge, the highest standards of intellectual, educational and research productivity; and the establishment of a learning organisation that respects the individual.

EDUCATIONAL MISSION

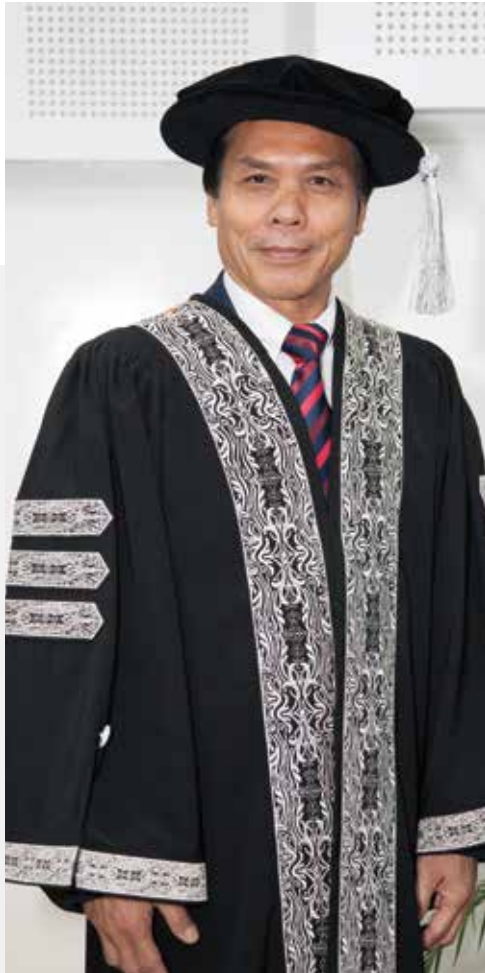

As an educational institution, our mission is:

- To further strengthen the IMU as centre of excellence for undergraduate programmes in medicine, pharmacy and other health sciences programmes
- To establish the IMU as a centre for higher education providing training through multidisciplinary programmes
- To establish the IMU as a centre for postgraduate training and Continuing Professional Education
- To train knowledgeable and skilful professionals with high ethical standards who will be dedicated to serve and improve the quality of life of the community
- To train competent professionals with the use of innovative technologies of knowledge especially ICT in the teaching-learning process

QUALITY POLICY

IMU aims to be an innovative centre of excellence in learning and research, producing competent, caring and ethical professionals who are lifelong learners. It is committed to achieving the highest standards of intellectual, educational and research productivity.

MESSAGE FROM THE VICE-CHANCELLOR

Congratulations on your Graduation!

Today is a very special and memorable day for all of you who will be picking up your degrees from one of our five Schools: Medicine, Dentistry, Pharmacy, Health Sciences and Postgraduate Studies. This is a wonderful opportunity to the culmination of three or more years of hard work and achievement. It will definitely be an occasion that you will remember fondly for the rest of your lives and to look forward to what lies ahead.

On behalf of the International Medical University (IMU), congratulations to all these students. We are immensely proud of you and we wish you every success as you enter this next exciting stage of your life and career. The skills that you have acquired and developed in IMU will stand you in good stead in your working and professional life as well as in life generally. It is important for you to take with you the values and traditions of your alma mater as you enter a world full of opportunities and start of this new phase in your life. Be a caring healthcare professional who is committed to lifelong learning, good leadership and ethical behaviour.

While pursuing your respective careers, you must always remember to have a life outside your career. Take time to enjoy nice music, travel or do whatever that interests you. Use your skills to contribute to the community outside your work as this will bring its own satisfaction. All these things will make you a better person and you will benefit greatly from these experiences. You will then be able to return to your job each day refreshed and recharged, more able to achieve your full potential and thereby increase your contribution to society.

This year marks a very special year for the University as it celebrates its 25th anniversary. The University itself has since achieved many awards alongside our students. Some of these awards includes the University being the first private medical and healthcare university in Malaysia to be awarded the self-accreditation status from the Malaysian Qualifications Agency (MQA) and also being the first university to receive the Healthy Cafeteria status by the Ministry of Health. The university's Pandan Serai Café was recently awarded the First Runner-up (Category C – Private Food Court at Shopping Malls, Hypermarket or Individual Building) for the National Competition of the BeSS (*Bersih, Selamat, Sihat*) Award 2017.

These accolades of awards reinforces our commitment in maintaining high standards of quality and to provide our community and beyond better health for a better society.

On behalf of everyone at the University, I would like to once again extend our warmest congratulations to all our graduates on their success. We wish them every success as they enter a new phase in their life and hope that in the coming years, they will stay connected with IMU. We wish them truly happy and fulfilling lives ahead with good health, meaningful career and phenomenal success in their professional life as well as a contributing member of society.

A handwritten signature in black ink, reading 'Aziz', with a long horizontal line extending from the end.

UNIVERSITY AWARDS WINNERS 2017

Dr John Joseph Bosco Memorial Gold Medal

The **Dr John Joseph Bosco Memorial Gold Medal** is awarded to a student graduating with the IMU MBBS who has achieved the highest academic excellence throughout his/her degree. One medal may be awarded in each graduation cohort. This award is given in memory of the late Dr John Joseph Bosco who played an instrumental role in the development of the IMU Clinical Campus.

Noor Dayana binti Azmi

Class of ME2/12

Noor Dayana binti Azmi, graduated as the top student of her Bachelor of Medicine and Bachelor of Surgery (MBBS) IMU graduating class and is the recipient of the Dr John Joseph Bosco Memorial Gold Medal.

She is very passionate, determined, caring, humble and disciplined - always trying to do the best in everything, continuously improving herself and embracing all kinds of challenges.

Dayana had demonstrated tremendous efforts throughout her journey in IMU. As a journey is never easy, she believes that every achievement begins with a small step. Pushing past her comfort zone, through her perseverance, she continues to grow and learn from her mistakes.

Aside from her deep interest in the field of medicine, she is actively involved in various curricular activities of the University. She held various positions including being the secretary for Malay Culture Society, a member of Muslim Society and participating in the IMU Cares Projects.

Dr Saidi Hashim Memorial Gold Medal

The **Dr Saidi Hashim Memorial Gold Medal** may be presented twice a year to the top student of the convocating class who will be continuing their studies either to the IMU Clinical Campus or Partner Schools overseas. The gold medal award is given in honour of the late Dr Saidi Hashim Tahir, one of the founders of IMU.

Nicole Ann Mathews

Class of ME1/15

Nicole Ann Mathews demonstrated tremendous effort and growth throughout the five semesters which had made her an exceptional student. She has great academic interest, knowledge, excellent initiative, participation in discussion, aptitude for research and learning. She is an active participant in class discussions and grasps material quickly. While studying this programme Nicole has demonstrated openness to and empathy for opinions, feelings and perspectives of others, together with powers of observation, all qualities that makes her outstanding as a student of medicine and a future doctor.

Board of Governors Gold Medal

The **Board of Governors Gold Medal** is awarded at this Convocation to the student who achieves the highest academic standing in his/her pharmacy degree programme.

Hong Khai Shien
Class of BP1/13

Hong Khai Shien graduated with a First Class Honours from the Bachelor of Pharmacy (Hons) programme. She is an independent and hardworking student who excelled in her academic performances. Being a motivated student of inquisitive nature, she is never complacent with her achievements and is relentless in self-improvement. She is determined and passionate about her goals in life, showing enthusiasm in everything she does. She has a likeable character and has a strong personality which draws positive attention from people around. Apart from that, Khai Shien has involved herself greatly in extra-curricular activities that nurture her interpersonal skills and leadership qualities.

Tun Zahir Merit Award

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor of Medical Sciences programme, Bachelor of Sciences (Hons) Psychology programme and also in one of the health sciences programmes. It is given in memory of the late **Tun Dato' Seri Dr Mohamed Zahir** who was the Chancellor of IMU from 1999 to 2005.

Yu Sue Mun
Class of PS2/14

Yu Sue Mun graduated with a First Class Honours from her Bachelor of Science (Hons) Psychology programme. Throughout her journey in IMU, Sue Mun has shown admirable qualities as a leader and as a person.

During her three years studies, she continues to excel academically and is actively involved as a leader in extracurricular activities. She was Vice President of IMU Futsal Club and Vice Chairperson of IMU Psychology Ethics Forum. She has successfully organised IMU's first beginner female Futsal competition. In IMU's Psychology Ethics Forum, she oversaw the progress of each work team and was able to provide actionable plans that took into consideration her team members' perspective.

As a person, she is passionate about learning, open to new experiences and is a very humble learner that has a positive attitude toward learning. Furthermore, she is a very smart, fast and independent learner. In fact, the Psychology faculty is impressed by her passion and determination to make a career in the field of psychology. Over the years, she has shown great potential and growth that will propel her to excel in this field.

Tun Zahir Merit Award

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor of Medical Sciences programme, Bachelor of Sciences (Hons) Psychology programme and also in one of the health sciences programmes. It is given in memory of the late **Tun Dato' Seri Dr Mohamed Zahir** who was the Chancellor of IMU from 1999 to 2005.

Cheng Miaw Chin

Class of PC1/14

Cheng Miaw Chin graduated with First Class Honours from Bachelor of Science (Hons) Pharmaceutical Chemistry programme. She has keen enthusiasm in the field of pharmaceutical chemistry and her hard work to gain knowledge and skills lead to her achievement as the top student. Her hardworking, self-discipline, commitment and dedication to study enable her to excel academically throughout the course.

She is a student who is responsible, organised and has initiative – she ensures that she completed the assigned coursework on time, diligently and allocates sufficient time for revision. She is also friendly, approachable and helpful to her fellow cohort members. Her passion in this field would surely help her to excel and shine in her future career.

Voon Khai Boon

Class of BM1/14

Voon Khai Boon graduated with a First Class Honours from the Bachelor of Science (Hons) Biomedical Science programme. Khai Boon is a determined, hard-working and energetic student. He is a fast learner. Besides that, he is a proactive team member and leader. He has good presentation skills and shows excellent performance during group learning sessions in the programme. He showed good laboratory and research skills while conducting his final year research project.

At the end of the project, he produced good results and was able to discuss the results obtained critically. He also has good technical and analytical laboratory skills. Khai Boon was actively involved in his co-curricular activities.

Cheow Yi Ann
Class of MB1/14

Cheow Yi Ann graduated with a First Class Honours from the Bachelor of Science (Hons) Medical Biotechnology programme. Yi Ann is a bright student and constantly striving for excellence in everything. To her peers, Yi Ann is known to be an empathetic person who is always trying to validate another person's perspectives and understand someone else's feelings. In her final year project, Yi Ann worked on "Effect of Phosphate Availability on the Sensitivity of Chlorella Isolated from Antarctic and Tropical Regions to Ultraviolet Radiation (UVR) Stress". She has presented the findings in an international conference and received good comments from other researchers. Yi Ann was also actively participating in co-curricular activities during her study at IMU.

Wong Ting Xuan
Class of DN1/13

Wong Ting Xuan graduated with a First Class Honours in the Bachelor of Science (Hons) Dietetics with Nutrition. In her four years of study in IMU, Ting Xuan has shown amazing commitment, determination and hard work. She is very focused and goal-oriented. She has been an inspiration and with her right attitude, Ting Xuan will go very far in her career.

Ng Cheng Yee
Class of NT1/14

Ng Cheng Yee graduated from the Bachelor of Science (Hons) Nutrition programme with First Class Honours. She has always portrayed high dedication towards her studies, continuously taking initiative to strive for excellence. She has shown tremendous critical thinking skills and leadership capabilities throughout the duration of her studies. She has demonstrated good comradeship with her peers, ever willing to offer help and support. She is caring for others and has been deeply involved in many IMU Cares programmes. Cheng Yee has proven university-life balance is important for academic excellence. She has shown that it is possible to balance these responsibilities; studies, social obligations and commitments to her friends while having academic success. She is a model student who enshrines the IMU core values.

THE GRADUANDS NOVEMBER 2017

**Doctor of Philosophy
in Medical and Health
Sciences (By Research)
Graduand**

Haema A/P Thevanayagam

Thesis Title: Photoprotective mechanism of carrageenans against UVB-induced structural and extracellular matrix (ECM) degradation in immortalised normal human keratinocyte (HaCaT) and their antiproliferative effect against epidermoid carcinoma (A431NS) cells

**Master of Science in
Medical and Health
Sciences (By Research)
Graduands**

Chua Bing Wei

Thesis Title: Cobalt-conjugated poly(glycerol adipate): synthesis, characterisation and evaluation of their potential as antimicrobial polyurethane coating materials

Kaeshaelya Thiruchelvam

Thesis Title: Residential aged care medication review to improve the quality of medication use among the older population in Klang Valley, Malaysia

Lam Kit Ying

Thesis Title: Neuroprotective mechanisms of orientin against hydrogen peroxide-induced oxidative damage in SH-SY5Y cells

Ng Yen Teng

Thesis Title: Chronic effects of natural palm margarine, interesterified palm margarine and modified vegetable oils blend margarine on surrogate markers of metabolic syndrome in human subjects

Tan Yeh Fong

Thesis Title: Deciphering of cellular receptor responsible for pteropine orthoreovirus gaining entry into host

Voon Yit Nee

Thesis Title: Expression and roles of interferon regulatory factor-5 (IRF5) in asthmatic and non-asthmatic patients

Congratulations for making it this far in your education and welcome to the IMU Alumni Community! Your relationship with International Medical University (IMU) does not end just because you have graduated. As an IMU graduate, you've automatically become a valued member of the IMU Alumni Community.

Being a part of the IMU Alumni Community, you can reconnect with classmates, get in touch with lecturers and mentors, participate in business and social networks, and attend (or organise!) a range of events including reunions. You may also enjoy special privileges and benefits such as special alumni discounts on continuing professional development programmes at the IMU Centre for Lifelong Learning (ICL), as well as receive updates and first-hand information on IMU news and events. The IMU experience is not just about your years on campus but beyond. Many alumni find that they carry the IMU learning skills well into their professional and personal lives.

How Can The Alumni Contribute?

KEEP IN TOUCH ~ We appreciate your ongoing interest in IMU. Connect with our various social media channels, as well as the IMU Alumni website, which are all designed to help you STAY IN TOUCH with what's going on. Keep your profile up-to-date via <http://alumni.imu.edu.my> or stay tuned with us on Facebook "IMU Alumni" to stay informed of the latest happenings!

ALUMNI SHARING ~ Come and share your experience with the students on campus - life in PMS, working experience, guidance on specialty, research work, etc are just some of the topics that you can explore. You can even consider providing internship or employment opportunity in the future. Contact us at alumni@imu.edu.my to know more.

FEATURED ALUMNI ~ We want employers, institutions and individuals to know where you studied and where you are now. Write back to us a short story of yours anytime and anywhere. After all, WE ARE PROUD OF YOU!

You are the "living proof" of the educational philosophy promoted at IMU. Your story will be kept to be featured wherever deemed appropriate. Write to us at alumni@imu.edu.my.

IMU Alumni Relations Office

Established in 2002, the IMU Alumni Association (IAA) aims to develop an international network of IMU graduates and to engage alumni through the exchange of knowledge, academic ideas and professional development. The Alumni Relations Office is the point of contact for graduates of IMU. We will ensure that your time is used wisely and that your experience is rewarding. We offer a range of special alumni events, services and publications to allow graduates to stay connected to the University and benefit from networking with one another.
