27	Bachelor of Medical Sciences (Hons) Graduands		
	Bachelor of Science (Hons) Psychology Graduands		

ABOUT THE INTERNATIONAL MEDICAL UNIVERSITY

In 1992, Malaysia was facing a serious shortage of doctors. Dr Kamal Salih, a visionary, and Dr Mei Ling Young, a social scientist with a strong interest in development, hit on a brilliant, simple idea – if young Malaysian students could not go out into the world to get the medical education they wanted and deserved, they would bring it to them. And so the idea for the International Medical College (IMC) was born. The college was officially launched on 13 April 1992 by the then Education Minister, YB Datuk Amar Dr Sulaiman Haji Daud, demonstrating the full support of the Malaysian Ministry of Education and Ministry of Health.

Changing the landscape of medical education, IMC introduced the world's first unique curriculum model that allow medical students to spend the first five semesters at the IMC in Kuala Lumpur, before moving to initially one of the five leading Partner Medical Schools (PMS) around the world.

Gaining University Status

On 4 February 1999, IMC was granted university status and became the International Medical University (IMU), thus providing students the additional

option of reading the whole medical degree in Malaysia, graduating with the IMU MBBS. With this, IMC also became the country's first private medical college to be upgraded to a university.

Since then, IMU has grown from a medical college with five PMS offering one programme, to an internationally recognised higher education institution offering 25 programmes with over 30 world class partner universities in Australia, New Zealand, Canada, Ireland, the United Kingdom and China. It is also the first university in Malaysia that offers conventional and complementary medicine, together, with the philosophy that health is holistic.

Healthcare and Research

In January 2010, IMU took a bold step in its plan to be a holistic healthcare provider. IMU opened its first Oral Health Centre which was quickly followed by the Chiropractic Centre in May 2010, Medical Clinic in July 2010 and the Chinese Medicine Centre in November 2010. These clinics formed the IMU Healthcare Centre which serves as a teaching site for IMU students and plays an important role in educating future healthcare professionals who understand the importance and benefits of offering holistic healthcare services. It also extends the learning experience beyond the partnerships already offered by the Ministry of Health hospitals and clinics.

While medical and healthcare-related research continues to be an area of focus, the University also places

emphasis on medical education research. To support research, the University established the Institute of Research, Development and Innovation (IRDI) in 2012.

Poised to be a significant player in biomedical and clinical research, IRDI's five thrust areas are in environmental and population health, bioactive molecules and drug discovery, cancer and stem cell research, health professions education, as well as translational research.

This is also part of the IMU's vision to be a leading private Asian health educator that creates value through integrating education, research and healthcare. The current development of the IMU Hospital and a planned network of clinics is an important part of this vision and set to be completed by 2021.

Serving the Community

One of IMU's core values is that to be good healthcare professionals, students must be moulded to be good human beings. And this includes being aware of, and sensitive to the needs of the communities in which they live and work, hence IMU's tradition of active community engagement.

Since its launch in 2002, IMU Cares programme has played an important part of University life, providing means for students and staff to engage with the community beyond the University. From small-scale fund-raising activity in 2002, IMU Cares has expanded to provide more than just financial assistance to the less privileged.

The Programme now strives to deliver healthcare, to promote health and wellness, and to prevent disease. In addition, IMU Cares has begun providing more holistic care, including medication counselling and nutritional assessment. Cases requiring further treatment are referred to the IMU Healthcare clinics, and the Khazanah IHH Healthcare Fund (KIHf) underwrites treatment costs.

IMU Cares has also looked into the education and training of caregivers, to enable and empower them to provide better care. From integration and application of knowledge and skills to interprofessional learning and collaborative practice, the programme has become a platform for experiential learning. It enables students to learn leadership, inter-professional teamwork, and to practise the values of professionalism and ethics while making a difference to communities. One of IMU's commendable efforts was seen through its long-running Village Partnership programme which won first place; out of 63 international

universities in the prestigious MacJannet Prize for Global Citizenship Award 2013. In 2013, the University also won the Association for Medical Education in Europe (AMEE) ASPIRE for Excellence Award in the area of "Student Engagement" at the AMEE conference in Prague, Czech Republic.

IMU Cares continues to win accolades and awards for its unique programmes that continues to serve the community including the Bronze Award for the CSR Leadership Award at the 10th Annual Global CSR Summit & Awards 2018.

Moving Forward

Committed in its relenting quest for quality, the University was awarded the self-accreditation status – by the Malaysian Qualifications Agency (MQA). This status of autonomy entitles a higher education provider to accredit its programmes except for programmes that require accreditation and recognition of the relevant professional body. The award also demonstrates the fact

that IMU consistently maintains high standards of quality and integrity in all its programmes.

The University also gained a six-star rating under SETARA 2017 for the Mature University Category. This is the highest ranking awarded by the Ministry of Higher Education (MOHE) which measures the performance of three core functions namely teaching, research and services.

As the University progresses into a rapidly changing world, where knowledge and technology is moving at an unimaginable pace, the IMU retains its vision of becoming an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens and visionary leaders.

THE UNIVERSITY MACE

The mace is the symbol of authority of the International Medical University (IMU). The globe at the top symbolises the international nature of the University. Gold denotes the quality of education provided by the IMU.

The seven krises (traditional Malay weapon) represent the nations participating in the international medical consortium.

The songket motif symbolises the country's cultural tradition. The bunga raya (hibiscus) is Malaysia's national flower.

The five facets of the mace stand for the five continents of the world.

The second ring consists of the logo of the IMU to signify its new charter as a University. Below the second ring of the mace are the logos of the original five Partner Medical Schools which helped start this innovative medical programme.

The original International Medical College emblems are etched on each side of the brace in the third ring of the mace. Below the third ring are the logos of the international Partner Universities involved through their medical schools in the international medical consortium.

The bottom part of the mace is carved in the shape of the Kelantanese gasing (spinning top), another symbol of Malaysian culture.

THE LOGO

The initials IMU represent the name of the University. The strips on the "I" represent the three pillars of Innovation, Imagination and Insight. The snake and staff are the traditional symbols for medicine, which is the educational focus of the University. The colour white represents integrity. The globe stands for international connections: the IMU as a member of the International Medical Consortium, both in terms of partnerships with many well-known foreign universities, as well as its international faculty and student body. The tilted square represents the mortar board, which is the symbol of academia in relation to the community. The colour blue, in its two shades, stands for peace and harmony.

VISION

IMU shall be an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens; and visionary leaders.

IMU is committed to academic freedom and the principles of equal opportunity in the pursuit and application of knowledge, the highest standards of intellectual, educational and research productivity; and the establishment of a learning organisation that respects the individual.

EDUCATIONAL MISSION

As an educational institution, our mission is:

- To further strengthen the IMU as centre of excellence for undergraduate programmes in medicine, pharmacy and other health sciences programmes
- To establish the IMU as a centre for higher education providing training through multidisciplinary programmes
- To establish the IMU as a centre for postgraduate training and Continuing Professional Education
- To train knowledgeable and skilful professionals with high ethical standards who will be dedicated to serve and improve the quality of life of the community
- To train competent professionals with the use of innovative technologies of knowledge especially ICT in the teaching-learning process

QUALITY POLICY

IMU aims to be an innovative centre of excellence in learning and research, producing competent, caring and ethical professionals who are lifelong learners. It is committed to achieving the highest standards of intellectual, educational and research productivity.

CHANCELLOR

YBhg Dato' Dr Gan Ee Kiang

BSc (Hon), PhD (UWA), PKT, BCN, JMN, DSPN

Dato' Dr Gan Ee Kiang has been actively involved in the International Medical University (IMU) since 2005 when he was appointed a member of the Board of Governors. He later served as Pro-Chancellor from 2014 to 2017.

Dr Gan completed his secondary education in Bukit Mertajam High School and matriculation in Coburg High School in Melbourne. He graduated in Pharmacology (Hons) from the University of Western Australia and was awarded a National Health and Medical Research Council scholarship to pursue his PhD in Pharmacology under Professor M. F. Lockett, a world renowned Pharmacologist from the University of London. Dr Gan obtained his PhD in 1972 for his thesis, "Intra-renal Secretion of Renin".

He joined Universiti Sains Malaysia (USM) as a Lecturer in the School of Pharmaceutical Sciences, being promoted to associate professor in 1977, professor in 1990 and senior professor in 1994. He was appointed Deputy Dean in 1977, Acting Dean in 1979 and Dean of School of Pharmaceutical Sciences for 17 years from 1979-95. During his tenure as a Dean, the School gained international prominence in clinical pharmacy education as well as consultancy services and research and development (R&D) activities. During this time, he was instrumental in setting up three new centres at USM: the Drug Research Centre in 1981, the National Poison Centre in 1995, and the National Doping Control Centre in 1996.

He has published two books and contributed to over 100 scientific/professional publications and is a co-inventor of two patented inventions. He also served as member of the editorial board of several professional journals. As an eminent figure in the industry, he was appointed, on three occasions, as a WHO temporary advisor. He was invited speaker at various professional meetings in USA, Europe and Asia and visiting fellow and external examiner to universities in United Kingdom, USA, Australia, and Malaysia respectively.

Dr Gan was the first Malaysian member of the "International Health Advisory Panel of the United States Pharmacopoeia Convention (USP)", a position he held from 1990-95. He was also a panel member of the "National Panel for Best Inventor Award MOSTI (Ministry of Science, Technology and Innovation)" for almost 10 years, and the Malaysian Drug Control Authority (DCA) for eight years.

His passion in research commercialisation and innovation, led him to establish USAINS Group. USAINS, the commercial arm of USM to help generate income through technology transfer, commercialisation of R&D results and making available University expertise/facilities to serve the public and the private sector. It was the first company

incorporated by a public university in Malaysia with the approval of the Ministry of Finance and the Ministry of Education. He was the Managing Director of the group from 1999 - 2013.

In line with his interest in linking the public and the private sector, Dr Gan has done consultancy works for private equity.

Dr Gan has also been active in community services. He was Past President of the Rotary Club of Bayan Baru in Penang which led many charitable projects. He is also a life member of Persatuan Mencegah Dadah Malaysia (PEMADAM).

Recognised for his outstanding service to the country, Dr Gan has been conferred several awards and accolades. Among them the Pingat Kelakuan Terpuji (PKT) in 1986, Bintang Cemerlang Negeri (BCN) in 1997, Johan Mangku Negara (JMN) in 1999 and Darjah Setia Pangkuan Negeri (DSPN) in 2004. For his contribution to Pharmacy Education, Dr Gan was the second person in Asia to be awarded "The Donald C Brodie, PhD Award" by the Pan Pacific Foundation in Honolulu, Hawaii in 1991.

PRO-CHANCELLOR

YBhg Tan Sri Dato' Dr Yahya bin Awang

*MBBS (Monash), FRCS (Glasgow), SMJ, KMN,
DPMJ, DMPN, DSAP, PSM, Hon Doct (UKM)*

Tan Sri Dato' Dr Yahya bin Awang, an eminent cardiothoracic surgeon, graduated from Monash University, Melbourne in 1974. On his return to Malaysia, he served as a medical officer in Hospital Johor Bahru and Kota Tinggi. In 1980, he obtained his Fellowship of the Royal College of Surgeons and Physicians of Glasgow (FRCS) Scotland, United Kingdom. He trained as a Cardiac Surgeon from 1980-83 at the Department of Cardiothoracic Surgery in Brompton Hospital, London.

Dr Yahya returned to Malaysia in 1983 when cardiac surgery was in its infancy and there were inadequate facilities and medical personnel to cope with the number of patients requiring open-heart surgery. It was at this time that he played a significant and pioneering role in the development of cardiac surgery in the country. He was instrumental in training cardiac surgeons and cardiac paramedics to meet the needs of the nation.

He served at the General Hospital Kuala Lumpur from 1983-85 and later promoted as Head and Senior Consultant from 1985-92. In July 1992, Dr Yahya, together with colleagues, pioneered the establishment of the National Heart Institute (IJN). During his tenure at IJN, he established the Clinical Research Unit, which enabled the Institute to undertake clinical research and collection of relevant clinical data in cardiac surgery. He has published 23 scientific papers in local and international scientific journals and made 15 presentations at various conferences. Dr Yahya was a Co-Editor for the IJN Proceedings from 2000-03.

With his appointment as President of the Asian Cardiac Surgical Society (1992-94), he led and represented Malaysia in numerous international conferences on cardiac surgery. This has put Malaysia on the regional map as an excellent training centre

for cardiac surgery and has attracted trainees from Indonesia, Japan, Yemen, Myanmar and Bangladesh. In addition, he established the IJN Foundation, an organisation that provides financially disadvantaged patients with assistance in cardiac surgery, scholarships for cardiac trainees and research on heart diseases.

Over a span of 30 years as a cardiac surgeon, Dr Yahya performed no less than 5,000 open-heart surgeries and trained more than 50 cardiac surgeons. With a dedicated and trained team, he successfully performed the first heart transplant in Malaysia on 18 December 1997. The success of this operation and other cardiac surgeries performed, enhanced the confidence of the Malaysian public to have cardiac surgical procedures done locally. Dr Yahya is known for his role in successfully operating on Tun Dr Mahathir bin Mohamad, Malaysia's Prime Minister, for coronary artery bypass surgery in 1989.

For his service and contribution to the nation's medical industry, he received several awards and accolades. He was bestowed the titles Setia Mahkota Johor (SMJ) in 1989, Kesatria Mangku Negara (KMN) in 1990, Darjah Paduka Mahkota Johor (DPMJ) (Dato') in 1990, Darjah Yang Mulia Pangkuan Negeri (DMPN) (Pahang) (Dato') in 1994, Darjah Sultan Ahmad Shah Pahang (DSAP) (Dato') in 2000 and Panglima Setia Mahkota (PSM) (Tan Sri) in 2003. He was also awarded the 2013 Merdeka Award for the Health, Science & Technology Category.

Dr Yahya held the position of President of the Association of Thoracic and Cardiovascular Surgeons of Asia from 1993-95 and was the Founding President for the Malaysian Association of Thoracic and Cardiovascular Surgeons from 1993-98. He is also member and fellow of several associations and committees including the Academy of Science Malaysia, Malaysian Medical Association, International Society of Cardiothoracic Surgeons, the Malaysian Society of Transplantation, and Honorary Member of the Special Committee for Development of National Transplant Policy.

In 2012, Dr Yahya was awarded the Honorary Doctor of Medicine from International the Medical University (IMU) in recognition of his vast contribution to the healthcare arena. He also served as Chairman for the IMU Board of Governors from 2005-17 and continues to be a member of the board.

Today, he continues to serve as an Honorary Consultant for Hospital University Sains Malaysia, Visiting Consultant Surgeon for the Division of Cardiothoracic Surgery in University Kebangsaan Malaysia, Adjunct Professor of the Medical Faculty of University Teknologi MARA, and Chairman of the Expert Panel of Heart and Lung Transplant of the National Transplant Registry. Dr Yahya is also currently the founder and Consultant Cardiothoracic Surgeon at the Cardiac Vascular Sentral Kuala Lumpur.

MESSAGE FROM THE VICE-CHANCELLOR

As a University, there's nothing more memorable than seeing our students graduate and celebrate their achievements as well as embrace their upcoming future in the field they've selected as a vocation. Today, we are proud to share this milestone with their parents, partners, family and friends.

On behalf of the University, I would like to congratulate our graduates and their loved ones. Our graduates have indeed put in every effort and worked hard to arrive at this day; they certainly deserve this success. Let's not forget too the support their loved ones have shared with them throughout their journey. Today is also a historical day for some of our graduates. Eight of you have made history by being the first to hold the Master of Pharmacy Practice degree from IMU – well done! I wish you all success for the future.

This year, IMU has achieved some milestones for itself as well. Last June, our BSc (Hons) Dietetics with Nutrition programme was awarded the International Accreditation for Education Programs for Dietitian-Nutritionists by the International Confederation of Dietetics Association (ICDA). We are proud to share that IMU is the first university in the world to receive this accreditation. The world organisation for dietetics professionals, ICDA develops international standards and represents the common ground of dietetics around the world. With this accreditation, our graduates from the programme are now internationally recognised dietitians and can seek employment anywhere in the world.

A handwritten signature in black ink, appearing to read 'Aziz', with a long horizontal line extending from the end of the signature.

Prof Abdul Aziz Baba
Vice-Chancellor
MBBS (Melb), MRCP (UK),
MRCP (Ireland), FRCP (Edin), AM

The building works for IMU Hospital has also commenced in October, putting us right on schedule for completion to service our community by 2021. The hospital forms the inpatient hub of the IMU Academic Health eco-system – it complements the existing University as well as outpatient-based healthcare services. With patient-centred care as its main focus, the Hospital combines and integrates clinical practice with education and research to better serve our community's health and wellbeing.

In light of the technological shift that the industry is currently going through with Big Data and Artificial Intelligence (AI), IMU has taken the necessary steps to ensure our graduates stay relevant and progressive. On 2 October 2018, we were recognised by the Malaysia Digital Economy Corporation (MDEC) as the first university to introduce data analytics in healthcare programmes. This was followed by a collaboration between our Institute for Research, Development and Innovation (IRDI) and FusionEx to launch Malaysia's first-ever medical research centre powered by AI.

All of the above is aligned with the University's mission to develop work-ready talent. I guarantee all of you graduating today will find that your years spent at IMU will be the foundation of your future successes. You are always welcomed to stay connected with your alma mater. IMU's alumni of over 10,000 successful healthcare practitioners will always be your support as you grow in your career. At the same time, we hope that you will also contribute to this community of international alumni and be a source of inspiration for our next generation of students.

Congratulations to the Class of 2018!

UNIVERSITY AWARDS WINNERS 2018

Dr John Joseph Bosco Memorial Gold Medal

The **Dr John Joseph Bosco Memorial Gold Medal** is awarded to a student graduating with the IMU MBBS who has achieved the highest academic excellence throughout his/her degree. One medal may be awarded in each graduation cohort. This award is given in memory of the late Dr John Joseph Bosco who played an instrumental role in the development of the IMU Clinical Campus.

Stephen Gan Chuen Fen

Class of ME2/13

Stephen Gan Chuen Fen graduated as the top student of his MBBS (IMU) graduating class and is the recipient of the Dr John Joseph Bosco Memorial Gold Medal. He is passionate, determined, caring, humble and well disciplined. He is also always trying to do the best in everything, improving himself from time to time and embracing challenges.

He had demonstrated tremendous effort throughout his journey in IMU and faced lots of challenges in his undergraduate life. The journey is never easy. He believes that every achievement begins with a small step. He embraced all the challenges, stepping out from his comfort zone and grow! He had never given up. He appreciated time and learnt from mistakes. Besides his deep interest in the field of medicine, he upholds the responsibility to strive for excellence and to put education as priority. He believes that the hardest battle is for the strongest soldiers and to be the strongest he could be, to overcome all difficulties.

He has actively involved himself in various activities at the University. Among others, he was the President of IMU CrusAIDSers Club and actively participated in the IMU Cares Projects. Apart from that, Stephen is blessed with family, friends and lecturers who always supported his goals in exploring this fascinating field of medicine.

Dr Saidi Hashim Memorial Gold Medal

The **Dr Saidi Hashim Memorial Gold Medal** may be presented twice a year to the top student of the convocating class who will be continuing their studies either to the IMU Clinical Campus or Partner Schools overseas. The gold medal award is given in honour of the late Dr Saidi Hashim Tahir, one of the founders of IMU.

Sarvesh Seger
Class of ME1/16

Sarvesh Seger is currently pursuing his MBBS degree at the International Medical University. He completed his Phase 1 MBBS in June 2018. Sarvesh has excelled consistently throughout his five semesters in the preclinical phase. He is a hardworking, disciplined and enthusiastic student. He frequently approaches his lecturers and peers for guidance to improve his knowledge and skills.

Sarvesh has good interpersonal skills. He is polite and communicates well with his peers, superior and patients. His thirst for knowledge and ability to critically think has enabled him to progress well in medical school. Sarvesh demonstrates the qualities of a caring and responsible doctor who will be well liked by his patients in the future.

Tun Zahir Merit Award

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor of Medical Sciences (Hons) programme, Bachelor of Sciences (Hons) Psychology programme and also in one of the health sciences programmes. It is given in memory of the late **Tun Dato' Seri Dr Mohamed Zahir** who was the Chancellor of IMU from 1999 to 2005.

Neena Mohamed
Class of I2/17

Neena Mohamed from Maldives graduated with a Bachelor's degree in Medical Sciences (Hons). Before joining IMU, she completed her A-Level in Maldives. She achieved first place in the National A-Level Top Ten awards and won the Presidential Scholarship which allowed her to pursue higher studies at the IMU. Neena is a friendly and positive person. She is hard working and focuses on accomplishing her goals. Achieving this award was not easy for her, as she has faced many challenges during the course of her studies. However, through sheer determination and dedication she has overcome the obstacles and has been able to achieve the best. Furthermore, she has the highest regards and respect for her lecturers and supervisors who have guided her through the final year research project. Her great source of strength and support has been her parents, family and friends.

Tun Zahir Merit Award

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor of Medical Sciences (Hons) programme, Bachelor of Sciences (Hons) Psychology programme and also in one of the health sciences programmes. It is given in memory of the late **Tun Dato' Seri Dr Mohamed Zahir** who was the Chancellor of IMU from 1999 to 2005.

Shamir Das A/L K. N. Kavidas

Class of PS2/15

Shamir graduated with a First Class Honours from the BSc (Hons) Psychology programme. Throughout his journey in IMU, Shamir has shown admirable qualities as a student and as a person. During his three years in the programme, he continued to excel in his academic performance and was actively involved as a leader in extracurricular activities. He was the President of the IMU Scholars Committee and was the Event Manager for the IMU Food Freaks (Cooks Club). He is also well known among his peers, lecturers and IMU staff as a talented public speaker and emcee. He has emceed a number of major IMU events such as the Alumni Homecoming, Aurora MasterChef cooking competition and IMU Diwali Night. As a person, his inquisitiveness and insightfulness guide his actions which shows in his confidence in expressing his personal thoughts. This often inspires his peers to adopt a positive attitude toward learning.

Eddy Yii Chung Ann

Class of PC2/15

Eddy Yii Chung Ann graduated with a First Class Honours from the Bachelor of Science (Hons) Pharmaceutical Chemistry programme. Besides excelling in academics, Eddy has also been actively serving the university community through his position in various committees including his sports house and Student Ambassador team. Eddy is also active in sports, having represented his house for IMU Cup in various categories. Equally important, Eddy is a reliable and responsible student and peer who does not let his colleagues and lecturers down.

Pichien Mongkolthanit

Class of MB1/15

Pichien Mongkolthanit graduated with a First Class Honours from the Bachelor of Science (Hons) Medical Biotechnology programme. Pichien is not only a high achiever in his academic endeavours, but has also shown great dedication and responsibility in various activities outside of the classroom including the community outreach projects. As both a leader and a team player, he has led student clubs and contributed to the success of numerous university-wide events. He has demonstrated his ability to think critically and has never been afraid to take steps to improve himself and pursuit excellence. Despite juggling between multiple responsibilities at a time, he has never hesitated to provide support to his peers when needed.

Tan Tong Min

Class of DN1/14

Tan Tong Min graduated with a First Class Honours from the Bachelor of Science with Honours in Dietetics with Nutrition. She is also a recipient of IMU Scholarship. Throughout her four years in IMU, she has demonstrated good attitude and she is always hungry for knowledge. She has a pleasant attitude that makes people around her feel very comfortable. During her dietetics practicum in the final year, Tong Min has also demonstrated evidenced-based practice, good empathy level towards her patients and good critical thinking and problem solving skills.

Tan Ying Wen

Class of NT1/15

Tan Ying Wen graduated with a First Class Honours in Bachelor of Science with Honours in Nutrition. She is also a recipient of JPA Scholarship. Throughout her undergraduate years at IMU, Ying Wen showed consistent effort, dedication and passion with exemplary study habits. Her attention to detail and yearning to do her "perfect best" is an inspiration for her fellow students and peers. Unaffected by her outstanding academic performance, Ying Wen continues to be humble and curious, with her passion for nutrition shining bright. Her reasoning and meticulous attention to detail was greatly appreciated by her preceptors during her practicum placement. Ying Wen is currently excited for her role as a Scientific and Regulatory Affairs Executive in a Multinational Corporation. Ying Wen owes her success to her ability to work well independently and also in teams, her ability to adapt quickly to situations and above all her determination.

Wong Pui Mun

Class of CM1/14

Wong Pui Mun graduated with a First Class Honours from the Bachelor of Science (Hons) Chinese Medicine programme. She has been an IMU Scholar since 2014, having obtained the IMU scholarship throughout her 4 years of studies in IMU. She has also contributed actively to IMU by serving voluntarily as a Vice President in the IMU's club, and participated in various co-curricular activities. For as long as her educators have known her, Pui Mun has demonstrated high levels of professionalism, commitment to her work and is always available to lend a hand to team members when necessary. She is a self-driven, enthusiastic, and pleasant student.

THE GRADUANDS NOVEMBER 2018

24

CONVOCATION 3 NOVEMBER 2018

Master of Science in Medical and Health Sciences (By Research) Graduands

Lo Sing Gee

Thesis Title: Molecular changes induced by *in vitro* invasion of human bronchial epithelial cell line (BEAS-2B) by *Cladosporium sphaerospermum*

Mak Kit Kay

Thesis Title: Synthesis of novel 4,5,6,7-tetrahydrobenzo[b]thiophene as novel anti-inflammatory agents

Toh Yien Shin

Thesis Title: Comparison of pathogenicity between *Vibrio cholerae* and its partnership with *Escherichia coli* or *Enterobacter cloacae* using *in vivo* mouse model

Master of Science in Public Health Graduant

List of Graduant for MScPH1/17

- Nahid Sultana

Master of Science in Molecular Medicine Graduands

List of Graduant for MMM2/15

- Cindy Wong

List of Graduant for MMM2/16

- Nur Ashikin binti Azemi

List of Graduant for MMM1/16

- Aruna Das Athyala

Master of Pharmacy Practice Graduands

IMU ALUMNI

Congratulations for making it this far in your education and welcome to the IMU Alumni Community! Your relationship with International Medical University (IMU) does not end just because you have graduated. As an IMU graduate, you've automatically become a valued member of the IMU Alumni Community.

Being a part of the IMU Alumni Community, you can reconnect with classmates, get in touch with lecturers and mentors, participate in business and social networks, and attend (or organise!) a range of events including reunions. You may also enjoy special privileges and benefits such as special alumni discounts on continuing professional development programmes at the IMU Centre for Lifelong Learning (ICL), as well as receive updates and first-hand information on IMU News and events. The IMU experience is not just about your years on campus but beyond. Many alumni find that they carry the IMU learning skills well into their professional and personal lives.

How Can The Alumni Contribute?

KEEP IN TOUCH ~ We appreciate your ongoing interest in IMU. Connect with our various social media channels, as well as the IMU Alumni website, which are all designed to help you STAY IN TOUCH with what's going on. Keep your profile up-to-date via <http://alumni.imu.edu.my> or stay tuned with us on Facebook "IMU Alumni" to stay informed of the latest happenings!

ALUMNI SHARING ~ Come and share your experience with the students on campus - life in PMS, working experience, guidance on specialty, research work, etc are just some of the topics that you can explore. You can even consider providing internship or employment opportunity in the future. Contact us at alumni@imu.edu.my to know more.

FEATURED ALUMNI ~ We want employers, institutions and individuals to know where you studied and where you are now. Write back to us a short story of yours anytime and anywhere. After all, WE ARE PROUD OF YOU!

You are the "living proof" of the educational philosophy promoted at IMU. Your story will be kept to be featured wherever deemed appropriate. Write to us at alumni@imu.edu.my.

IMU Alumni Relations Office

Established in 2002, the IMU Alumni Association (IAA) aims to develop an international network of IMU graduates and to engage alumni through the exchange of knowledge, academic ideas and professional development. The Alumni Relations Office is the point of contact for graduates of IMU. We will ensure that your time is used wisely and that your experience is rewarding. We offer a range of special alumni events, services and publications to allow graduates to stay connected to the University and benefit from networking with one another.
