ABOUT THE INTERNATIONAL MEDICAL UNIVERSITY

In 1992, Malaysia was facing a serious shortage of doctors. Dr Kamal Salih, a visionary, and Dr Mei Ling Young, a social scientist with a strong interest in development, hit on a brilliant, simple idea – if young Malaysian students could not go out into the world to get the medical education they wanted and deserved, they would bring it to them. And so the idea for the International Medical College (IMC) was born. The college was officially launched on 13 April 1992 by the then Education Minister, YB Datuk Amar Dr Sulaiman Haji Daud, demonstrating the full support of the Malaysian Ministry of Education and Ministry of Health.

Changing the landscape of medical education, IMC introduced the world's first unique curriculum model that allow medical students to spend the first five semesters at the IMC in Kuala Lumpur, before moving to initially one of the five leading Partner Medical Schools (PMS) around the world.

Gaining University Status

On 4 February 1999, IMC was granted university status and became the International Medical University (IMU), thus providing students the additional option of reading the whole medical degree in Malaysia, graduating with the IMU MBBS. With this, IMC also became the country's first private medical college to be upgraded to a university. Since then, IMU has grown from a medical college with five PMS offering one programme, to an internationally recognised higher education institution offering 28 programmes with over 30 world class partner universities in Australia, New Zealand, Canada, Ireland, the United Kingdom and China. It is also the first university in Malaysia that offers conventional and complementary medicine, together, with the philosophy that health is holistic.

Healthcare and Research

In January 2010, IMU took a bold step in its plan to be a holistic healthcare provider. IMU opened its first Oral Health Centre which was quickly followed by the Chiropractic Centre in May 2010, Medical Clinic in July 2010 and the Chinese Medicine Centre in November 2010. These clinics formed the IMU Healthcare Centre

which serves as a teaching site for IMU students and plays an important role in educating future healthcare professionals who understand the importance and benefits of offering holistic healthcare services. It also extends the learning experience beyond the partnerships already offered by the Ministry of Health hospitals and clinics.

While medical and healthcare-related research continues to be an area of focus, the University also places emphasis on medical education research. To support research, the University established the Institute of Research, Development and Innovation (IRDI) in 2012.

Poised to be a significant player in biomedical and clinical research, IRDI's five thrust areas are in environmental and population health, bioactive molecules and drug discovery, cancer and stem cell research, health professions education, as well as translational research.

This is also part of the IMU's vision to be a leading private Asian health educator that creates value through integrating education, research and healthcare. The current development of the IMU Hospital and a planned network of clinics is an important part of this vision and set to be completed by 2021.

Serving the Community

One of IMU's core values is that to be good healthcare professionals, students must be moulded to be good human beings. And this includes being aware of, and sensitive to the needs of the communities in which they live and work, hence IMU's tradition of active community engagement.

Since its launch in 2002, IMU Cares programme has played an important part of University life, providing means for students and staff to engage with the community beyond the University. From a small-scale fund-raising activity in 2002, IMU Cares has expanded to provide more than just financial assistance to the less privileged.

The Programme now strives to deliver healthcare, to promote health and wellness, and to prevent disease. In addition, IMU Cares has begun providing more holistic care, including medication counselling and nutritional assessment. Cases requiring further treatment are referred to the IMU Healthcare clinics, and the IMU Cares Humanitarian Aid Fund underwrites treatment costs.

IMU Cares has also looked into the education and training of caregivers, to enable and empower them to provide better care. From integration and application of knowledge and skills to interprofessional learning and collaborative practice, the programme has become a platform for experiential learning. It enables students to learn leadership, inter-professional teamwork, and to practise the values of professionalism and ethics while making a difference to communities. One of IMU's commendable efforts was seen through its long-running Village Partnership programme which won first place; out of 63 international

universities in the prestigious MacJannet Prize for Global Citizenship Award 2013. In 2013, the University also won the Association for Medical Education in Europe (AMEE) ASPIRE for Excellence Award in the area of "Student Engagement" at the AMEE conference in Prague, Czech Republic.

IMU Cares continues to win accolades and awards for its unique programmes that continues to serve the community including the Bronze Award for the CSR Leadership Award at the 10th Annual Global CSR Summit & Awards 2018.

Moving Forward

Committed in its relenting quest for quality, the University was awarded the self-accreditation status – by the Malaysian Qualifications Agency (MQA). This status of autonomy entitles a higher education provider to accredit its programmes except for programmes that require accreditation and recognition of the relevant professional body. The award also demonstrates the fact that IMU consistently maintains high standards of quality and integrity in all its programmes.

The University also gained a six-star rating under SETARA 2017 for the Mature University Category. This is the highest ranking awarded by the Ministry of Higher Education (MOHE) which measures the performance of three core functions namely teaching, research and services.

As the University progresses into a rapidly changing world, where knowledge and technology is moving at an unimaginable pace, the IMU retains its vision of becoming an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens and visionary leaders.

THE UNIVERSITY MACE

The mace is the symbol of authority of the International Medical University (IMU).

The globe at the top symbolises the international nature of the University. Gold denotes the quality of education provided by the IMU.

The seven krises (traditional Malay weapon) represent the nations participating in the international medical consortium.

The songket motif symbolises the country's cultural tradition.

The bunga raya (hibiscus) is Malaysia's national flower.

The five facets of the mace stand for the five continents of the world.

The second ring consists of the logo of the IMU to signify its new charter as a University. Below the second ring of the mace are the logos of the original five Partner Medical Schools which helped start this innovative medical programme.

The original International Medical College emblems are etched on each side of the brace in the third ring of the mace. Below the third ring are the logos of the international Partner Universities involved through their medical schools in the international medical consortium.

The bottom part of the mace is carved in the shape of the Kelantanese gasing (spinning top), another symbol of Malaysian culture.

THE LOGO

The initials IMU represent the name of the University. The strips on the "I" represent the three pillars of Innovation, Imagination and Insight. The snake and staff are the traditional symbols for medicine, which is the educational focus of the University. The colour white represents integrity.

The globe stands for international connections: the IMU as a member of the International Medical Consortium, both in terms of partnerships with many well-known foreign universities, as well as its international faculty and student body.

The tilted square represents the mortar board, which is the symbol of academia in relation to the community. The colour blue, in its two shades, stands for peace and harmony.

VISION

IMU shall be an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens; and visionary leaders.

IMU is committed to academic freedom and the principles of equal opportunity in the pursuit and application of knowledge, the highest standards of intellectual, educational and research productivity; and the establishment of a learning organisation that respects the individual.

EDUCATIONAL MISSION

As an educational institution, our mission is:

- To further strengthen the IMU as centre of excellence for the undergraduate programmes in medicine, pharmacy and other health sciences programmes
- To establish the IMU as a centre for higher education providing training through multidisciplinary programmes
- To establish the IMU as a centre for postgraduate training and Continuing Professional Education
- To train knowledgeable and skillful professionals with high ethical standards who will be dedicated to serve and improve the quality of life of the community
- To train competent professionals with the use of innovative technologies of knowledge especially ICT in the teaching-learning process

QUALITY POLICY

IMU aims to be an innovative centre of excellence in learning and research, producing competent, caring and ethical professionals who are lifelong learners. It is committed to achieving the highest standards of intellectual, educational and research productivity.

CHANCELLOR AND PRO-CHANCELLOR

**YBHG DATO'
DR GAN EE KIANG**

DR YAHYA BIN AWANG**
Pro-Chancellor

MBBS (Monash), FRCS (Glasgow),
SMJ, KMN, DPMJ, DMPN, PSM,
Hon Doct (UKM)

MESSAGE FROM THE VICE-CHANCELLOR

PROF ABDUL AZIZ BABA
Vice-Chancellor

MBBS (Melb), MRCP (UK),
MRCP (Ireland), FRCP (Edin), AM

Dear Friends and Families of IMU,

It is time again for us to celebrate the success of our graduates in IMU's 2019 convocation. This year, 489 graduands will receive their scrolls today, marking their academic success with IMU. On behalf of the institution, I would like to say congratulations and a job well done to Class of 2019.

Also, heartiest congratulations to our first cohort of graduands to receive the Postgraduate Certificate of Business Administration in Healthcare Management. These graduands joined us in our pioneer programme this March and today, they complete Level 1 of the programme before continuing with their studies to receive an MBA in Healthcare Management.

This year we celebrate the 20th anniversary of our Bachelor of Medicine and Bachelor of Surgery (MBBS) programme. Since establishing our clinical campus and was awarded university status in 1999; IMU became the first private university that provides our young talents the full reading of the medical degree locally. Over 6,000 students like yourself today have gone on to graduate from this programme to join the fraternity of healthcare. Many of you will also join them upon securing a career in healthcare and I am sure will also achieve many great things to make IMU proud of you.

The University has also achieved many other milestones this year. It has always been part of our commitment to contribute as much as possible as a leading educational arm of healthcare to the industry. Therefore, this year, IMU has participated in many collaborative projects with like-minded organisations to bring forward the industry and healthcare in general.

One of our major collaborations is with the Ministry of Health Malaysia whereby IMU has agreed to work closely together with the Ministry to develop an interactive online training module on patient safety complete with self-assessment tools for junior healthcare professionals and medical students prior to their housemanship training. At the same time, IMU was also chosen as the first academic partner for the Ministry's KOSPEN (Komuniti Sihat Pembina Negara) programme whereby we will work closely with the related departments to increase the awareness of Non-Communicable Diseases amongst the IMU community via various initiatives and studies. This is all done in the Ministry's efforts to help transform Malaysia into a healthier nation

Other collaborative projects also worth mentioning include working hand in hand with award-winning data technology provider Fusionex to integrate Big Data Analytics and Artificial Intelligence into our medical and health sciences programmes in view of our goal to equip our students with the knowledge and expertise that will help carry them forward in the changing world of healthcare, and our role as partner with the Southeast Asian Ministers of Education Organization Regional Centre for Food and Nutrition to exchange knowledge and research as well as conduct joint training in the areas of nutrition and food safety for the entire region of Southeast Asia.

Not forgetting the achievements we've attained at University Level. This year, our friends from the Pharmaceutical Chemistry Department made a name for themselves by making it to the Malaysia Book of Records for building the largest 3D periodic table made from recycle materials. It was no easy feat to create this structure; it took more than 645 recycled boxes, newspapers and other recyclable materials to construct it. Thereafter, the materials were given to a recycling centre and the funds received for it were donated to our IMU Cares Humanitarian Aid Fund.

To our graduates today – this convocation marks the first step towards the next path in your journey as a healthcare provider. You came to us at IMU filled with ambition and dreams. I hope that through your education here, we have been able to help you receive the skills and technical know-how to go on and achieve your ambition and dreams. Thank you for trusting IMU in giving you what you need to take your journey further. I hope that your lessons here will guide you for the rest of your journey in healthcare.

More importantly, I also hope that IMU has done you justice by instilling in you the essence of humanity in healthcare. We not only equip our students with technical knowledge but also do our best to nurture you into becoming responsible and compassionate individuals who will put the patients' best interest first.

As we celebrate our convocations each year, it brings me pleasure to know that IMU is doing its public service role to nurture the next-generation of healthcare providers who will serve with kindness. Our graduates are not only work and future ready for the industry; they are also ready to treat with care and concern, to practise a patient-centred service that will benefit not only the patients but also healthcare in general as they commit to become great caregivers.

Once again, congratulations graduates. And thank you for giving IMU the opportunity to provide you with quality education and more.

UNIVERSITY AWARDS WINNERS 2019

Two thin, parallel pink lines that run diagonally across the lower half of the page, starting from the left edge and extending towards the right.

DR JOHN JOSEPH BOSCO MEMORIAL GOLD MEDAL

The Dr John Joseph Bosco Memorial Gold Medal is awarded to a student graduating with the IMU MBBS who has achieved the highest academic excellence throughout his/her degree. One medal may be awarded in each graduation cohort. This award is given in memory of the late Dr John Joseph Bosco who played an instrumental role in the development of the IMU Clinical Campus.

Sharmathi A/P Dhanapal

Cohort: ME2/14

Sharmathi Dhanapal graduated with her Bachelor of Medicine and Bachelor of Surgery (MBBS) and is recipient of the Dr John Joseph Bosco Memorial Gold Medal for her excellent achievements. She was also the recipient of the Dr Saidi Hashim Memorial Gold Medal during her Phase I of the MBBS programme in year 2017. She has also received Distinction Awards in all professional exams during her clinical years.

Sharmathi has actively participated in voluntary works since her pre-clinical years. She was the Project Leader for the 'Dream Bigger, Reaching Out' project in Bukit Jalil where she would arrange weekly classes for refugee children in Kuala Lumpur. In Seremban, she was the External Liaison for Kampung Sebir's Education Project where she organised weekly classes and annual trips for indigenous children. Sharmathi is very intelligent and smart with extraordinary caliber which she exudes during the whole course of study. Her strength remains as very confident, respectful and well-mannered. IMU feels proud of her achievement and wishes her a successful and bright career ahead to serve the country as an ideal medical professional.

DR SAIDI HASHIM MEMORIAL GOLD MEDAL

The Dr Saidi Hashim Memorial Gold Medal may be presented twice a year to the top student of the convocating class who will be continuing their studies either to the IMU Clinical Campus or Partner Schools overseas. The gold medal award is given in honour of the late Dr Saidi Hashim Tahir, one of the founders of IMU.

Joshua Lim Jien Hao

Cohort: ME1/17

Joshua Lim Jien Hao graduated as the top student in his class for the Phase I of the Medical programme with the highest total marks at the end of Semesters 1, 3 and 5 examinations. He is a hardworking, conscientious and highly intelligent student. Throughout his time at the IMU, Joshua shows dedication in all activities that he undertakes. While his performance in academics is exemplary, he has taken part wholeheartedly in all spheres of University life, including being a Student Ambassador and contributing to IMU Cares projects as well. He has excellent communication skills and conveys his thoughts and opinions with great care. He always tries his best in whatever he undertakes and is held in high regard among his peers.

BOARD OF GOVERNORS' GOLD MEDAL

The Board of Governors' Gold Medal are awarded at this Convocation to the student who achieves the highest academic standing in his/her pharmacy degree programme.

Chieng Yi Rong

Cohort: BP2/15

Chieng Yi Rong graduated with a First Class Honours from the Bachelor of Pharmacy (Hons). If anyone were to be given the moniker "the quiet achiever", Yi Rong will fit this description to a T. A quiet and unassuming, team player who is highly motivated, Rong is driven, proactive, a self-starter, and is a leader of ideas if not people. He hails from Sibu, Sarawak, and is an absolute gem of a person. He gravitates towards being a little quiet and unremarkable, but don't let this fool anyone. He has a practiced air of someone who uses the earlier characteristics to delve into personal reflection to provide insight. His years in IMU has seen him rewarded with the Best Poster Award, a speaker to the IMU Self-Development Unit, led community projects and is part of the university team that participated in the 11th MyPSA National Pharmacy Quiz.

TUN ZAHIR MERIT AWARD

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor in Medical Sciences (Hons), Bachelor of Science (Hons) in Psychology and in the health sciences programmes. It is given in memory of the late Tun Dato' Seri Dr Mohamed Zahir who was the Chancellor of IMU from 1999 to 2005.

Lim Min Ying

Cohort: PC2/16

Lim Min Ying graduated with a First Class Honours from the Bachelor of Science (Hons) in Pharmaceutical Chemistry. Min Ying is a hardworking, enthusiastic and responsible student. She is an active learner, always paying full attention and actively taking part in class discussions and activities. Throughout her studies, Min Ying has developed effective problem solving, decision making, organisational, time management and leadership skills. She has also participated actively in extracurricular activities and volunteered in charity events. Min Ying is now ready to contribute to the pharmaceutical industry and realise her ambition to become a Chartered Chemist awarded by the Royal Society of Chemistry one day.

TUN ZAHIR MERIT AWARD

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor in Medical Sciences (Hons), Bachelor of Science (Hons) in Psychology and in the health sciences programmes. It is given in memory of the late Tun Dato' Seri Dr Mohamed Zahir who was the Chancellor of IMU from 1999 to 2005.

Brandon Tan Hwang Sing

Cohort: BM1/16

Brandon Tan, a model scholar and First Class Honours' graduate of the Bachelor of Science (Hons) in Biomedical Science programme, is a shining example of resilience and determination. Despite trying circumstances, he has thrived through his optimistic outlook in life and indomitable passion to succeed. He is also very meticulous and thoughtful, with an inquisitive, explorative mind. While excelling academically, he has led events organised by the IMU's Scholars Club and was the Vice-Captain of the IMU Cup Swim Team. He has also won a silver medal in the annual IMU swimming competition. He is known to be a supportive and compassionate friend to his peers. Brandon's keen interest in forensic science and solving mysteries paves way to a potential career in this exciting field.

Bernadette Tune Xin Jie

Cohort: MB1/16

Bernadette Tune Xin Jie graduated with First Class Honours from the Bachelor of Science (Hons) in Medical Biotechnology programme. Bernadette is a bright student and constantly strives for excellence in everything. To her peers, Bernadette is known to be an enthusiastic and motivated learner who is always trying out new things. In her final year project, Bernadette worked on "Investigating the effects of orientin on DENV2 infected THP-1 cells". She was trained to persevere and multi-task as a researcher. Bernadette was also actively participating in various co-curricular activities during her studies at the IMU.

Wong Wei Wen

Cohort: DN1/15

Wong Wei Wen graduated with a First Class Honours from the Bachelor of Science (Honours) in Dietetics with Nutrition programme. Wei Wen is an intelligent person with the ability to think reflectively and critically. He is disciplined and conscientious in his pursuit of excellence. His research thesis has helped to improve understanding of energy expenditure in Malaysian patients with cancer, the results of which have been published in a peer reviewed journal. As a reflective practitioner, Wei Wen makes deliberate inquiries in his actions to improve his dietetic practice. He walks the talk and practices a healthy lifestyle based on his knowledge.

TUN ZAHIR MERIT AWARD

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor in Medical Sciences (Hons), Bachelor of Science (Hons) in Psychology and in the health sciences programmes. It is given in memory of the late Tun Dato' Seri Dr Mohamed Zahir who was the Chancellor of IMU from 1999 to 2005.

Tan Zuanne

Cohort: NT1/16

Tan Zuanne graduated with a First Class Honours from the Bachelor of Science (Hons) in Nutrition programme. Owing to be a determined and reliable person with an attention for detail, Zuanne has consistently excelled throughout her academic years in IMU. Besides that, with a mindset of seeing any form of life experience as an opportunity to develop and improve herself, she has also been involved in extracurricular activities including management of events and community projects, which she believes has contributed greatly in developing and improving a wide range of skills including teamwork and leadership, as well as organisational and problem solving skills. Most importantly, Zuanne believes it is important to motivate, support and help others whenever she can, and her down-to-earth, sincere and positive attitude helps her do so.

IMU ALUMNI

Congratulations for making it this far in your education and welcome to the IMU Alumni Community! Your relationship with International Medical University (IMU) does not end just because you have graduated. As an IMU graduate, you've automatically become a valued member of the IMU Alumni Community.

Being a part of the IMU Alumni Community, you can reconnect with classmates, get in touch with lecturers and mentors, participate in business and social networks, and attend (or organise!) a range of events including reunions. You may also enjoy special privileges and benefits such as special alumni discounts on continuing professional development programmes at the IMU Centre for Lifelong Learning (ICL), as well as receive updates and first-hand information on IMU News and events. The IMU experience is not just about your years on campus but beyond. Many alumni find that they carry the IMU learning skills well into their professional and personal lives.

How Can the Alumni Contribute?

KEEP IN TOUCH - We appreciate your ongoing interest in IMU. Connect with our various social media channels as well as the IMU Alumni website, to help you STAY IN TOUCH with what's going on. Keep us up-to-date with your profile information via <http://alumni.imu.edu.my> or scan the QR code below and stay tuned with us on Facebook "IMU Alumni" to stay informed of the latest happenings!

ALUMNI SHARING - Come and share your experience with the students on campus life in Partner School, working experience, guidance on specialty, research work, etc are just some of the topics that you can explore. You can even consider providing internship or employment opportunity in the future or be our Mentor by joining our mentorship programme where both students and alumni benefits from this exercise. Contact us at alumni@imu.edu.my to know more.

FEATURED ALUMNI - We want employers, institutions and individuals to know where you studied and where

2019 IMU Alumni Association

you are now. Whether you are doing volunteerism, or a humanitarian or an entrepreneur we want to know it all to support your journey. Write back to us a short story of your adventure anytime and anywhere. After all, WE ARE PROUD OF YOU!

You are the "living proof" of the educational philosophy promoted at IMU. Your story will be kept and be featured wherever deemed appropriate. Write to us at alumni@imu.edu.my

IMU Alumni Relations Office (ARO)

Alumni Relations Office (ARO) was established in early 2016 with the aim to develop an international network of IMU graduates and to engage alumni through the exchange of knowledge, academic ideas and professional development. The Alumni Relations Office is the point of contact for graduates of IMU.

We will ensure that your time is used wisely and that your experience is rewarding. We offer a range of special alumni events, services and publications to allow graduates to stay connected to the University and benefit from networking with one another.

Alumni Association Committee (AAC)

IMU Alumni Association Committee (AAC) was established in 2002, and it aims to be a place to support IMU alumni and for the alumni to socialise and network with one another. The new committee members were elected in early 2019 and will serve for two years.

Position	Name	Cohort	Where are they currently working
President	Dr Gandhi N. Solayar	ME2/98	IMU Clinical Campus
Vice President	Ng Kar Foo	ND1/08	IMU School of Health Sciences
Secretary	Hii Ling Wei	BP1/07	IMU School of Pharmacy
