## About International Medical University

In 1992, Malaysia was facing a serious shortage of doctors. Dr Kamal Salih, a visionary, and Dr Mei Ling Young, a social scientist with a strong interest in development, hit on a brilliant, simple idea – if young Malaysian students could not go out into the world to get the medical education they wanted and deserved, they would bring it to them. And so the idea for the International Medical College (IMC) was born. The college was officially launched on 13 April 1992 by the then Education Minister, YB Datuk Amar Dr Sulaiman Haji Daud, demonstrating the full support of the Malaysian Ministry of Education and Ministry of Health.

Changing the landscape of medical education, IMC introduced the world's first unique curriculum model that allow medical students to spend the first 5 semesters at the IMC in Kuala Lumpur, before moving to one of the five leading Partner Medical Schools (PMS) around the world.

### IMC becomes the International Medical University (IMU)

On 4 February 1999, IMC was granted university status and became the International Medical University (IMU), thus providing students the additional option of reading the whole medical degree in Malaysia, graduating with the IMU MBBS. With this, IMU also became the country's first private medical college to be upgraded to a university.

Since then, IMU has grown from a medical college with 5 partner universities offering one programme, to an internationally recognised higher education institution offering 24 programmes with 34 world class partner universities in Australia, New Zealand, Canada, United States of America, Ireland, United Kingdom and China. It is also the first university in Malaysia that offers conventional and complementary medicine, all under one roof.

### Healthcare and Research

In January 2010, IMU took a bold step in its plan to be a holistic healthcare provider. IMU opened its first Oral Health Centre which was quickly followed by the Chiropractic Centre in May 2010, Medical Clinic in July 2010 and the Chinese Medicine Centre in November 2010. These clinics formed the IMU Healthcare Centre which serves as a teaching site for IMU students and plays an important role in educating future healthcare professionals who understand the importance and benefits of offering holistic healthcare services. It also extends the learning experience beyond the partnerships already offered by the Ministry of Health hospitals and clinics.

While medical and healthcare-related research continues to be an area of focus, the University also places emphasis on medical education research. To support basic science research, the University established the Institute of Research, Development and Innovation (IRDI) in 2012. Poised to be a significant player in biomedical and clinical research, IRDI's four key thrust areas are cancer and stem cell research, bioactive molecules and drug delivery, environmental and population health, and health professional education research. This is also part of the IMU's vision to develop a comprehensive academic health centre where all the three components of education, research and healthcare will be integrated in the hospital and add value to each other.

### Serving the Community

One of IMU's core values is that to be good healthcare professionals, students must be moulded to be good human beings. And this includes being aware of, and sensitive to, the needs of the communities in which they live and work, hence IMU's tradition of active community engagement.

Since its launch in 2002, IMU Cares programme has played an important part of University life, providing means for students and staff to engage with the community beyond the University. From small-scale fund-raising activity in 2002, IMU Cares has expanded to provide more than just financial assistance to the less privileged. The Programme now strives to deliver healthcare, to promote health and wellness, and to prevent disease. In addition, IMU Cares has begun providing more holistic care, including medication counselling and nutritional assessment. Cases requiring further treatment are referred to the IMU Healthcare clinics, and the Khazanah IHH Healthcare Fund (KIHF) underwrites treatment costs.

IMU Cares has also looked into the education and training of caregivers, to enable and empower them to provide better care. From integration and application of knowledge and skills to inter-professional learning and collaborative practice, the programme has become a platform for experiential learning. It enables students to learn leadership, interprofessional teamwork, and to practise the values of professionalism and ethics while making a difference to communities. One of its commendable efforts was seen through its long-running "Kampung-Angkat" (village partnership) programme which won first place; out of 63 international universities in the prestigious MacJannet Prize for Global Citizenship Award 2013. In 2013, the University also won the Association for Medical Education in Europe (AMEE) ASPIRE for Excellence Award in the area of "Student Engagement" at the AMEE conference in Prague, Czech Republic.

## The University Mace

The mace is the symbol of authority of the International Medical University (IMU).

The globe at the top symbolises the international nature of the University.

Gold denotes the quality of education provided by the IMU.

The seven kris (traditional Malay weapon) represent the nations participating in the international medical consortium.

The songket motif symbolises the country's cultural tradition.

The bunga raya (hibiscus) is Malaysia's national flower.

The five facets of the mace stand for the five continents of the world.

The second ring consists of the logo of the IMU to signify its new charter as a University.

Below the second ring of the mace are the logos of the original five Partner Medical Schools which helped start this innovative medical programme.

The original International Medical College emblems are etched on each side of the brace in the third ring of the mace. Below the third ring are the logos of the international Partner Universities involved through their medical schools in the international medical consortium.

The bottom part of the mace is carved in the shape of the Kelantanese gasing (spinning top), another symbol of Malaysian culture.

## The Logo

The initials IMU represent the name of the University. The strips on the "I" represent the three pillars of Innovation, Imagination and Insight. The snake and staff are the traditional symbols for medicine, which is the educational focus of the University. The colour white represents integrity. The globe stands for international connections: the IMU as a member of the International Medical Consortium, both in terms of partnerships with many well-known foreign universities, as well as its international faculty and student body. The tilted square represents the mortarboard, which is the symbol of academia in relation to the community.

The colour blue, in its two shades, stands for peace and harmony.

## Vision

IMU shall be an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens; and visionary leaders.

IMU is committed to academic freedom and the principles of equal opportunity in the pursuit and application of knowledge, the highest standards of intellectual, educational and research productivity; and the establishment of a learning organisation that respects the individual.

## Educational Mission

As an educational institution, our mission is:

- To further strengthen the IMU as centre of excellence for undergraduate programmes in medicine, pharmacy and other health sciences programmes
- To establish the IMU as a centre for higher education providing training through multidisciplinary programmes
- To establish the IMU as a centre for postgraduate training and Continuing Professional Education
- To train knowledgeable and skilful professionals with high ethical standards who will be dedicated to serve and improve the quality of life of the community
- To train competent professionals with the use of innovative technologies of knowledge especially ICT in the teaching-learning process

## Quality Policy

IMU aims to be an innovative centre of excellence in learning and research, producing competent, caring and ethical professionals who are lifelong learners. It is committed to achieving the highest standards of intellectual, educational and research productivity.

# Message from the Vice-Chancellor

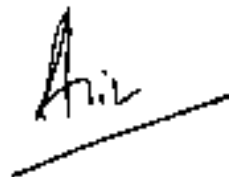

Graduation ceremonies are very special times for our graduating cohorts and for the University, as we proudly celebrate their achievements. It is a special day as it is the culmination of three or more years of study and an occasion that you will remember fondly. Today is a celebration and important day for parents, partners, family and friends of the graduands as the achievement of a degree is one that is seldom managed without the support of those nearest to us.

On behalf of everyone at the University, please allow me to congratulate our graduates, their family members and friends on this wonderful day. Our graduates have worked hard for their award and they deserve this success. I hope today will be an enjoyable day and I wish our graduates every success for the future.

Those graduating today will be receiving their degrees from one of our four Schools: Medicine, Pharmacy, Health Sciences and Postgraduate Studies. Amongst them are the first cohort of nutrition graduates who started their studies three years ago and will be graduating with their degrees today. The graduates will also be joined by an honorary graduate who has made a significant contribution to the development of the University. This honorary graduate, Emeritus Professor James Roland Lawrence, has been instrumental in IMU's partnership with University of Sydney, Australia. I would like to take this opportunity to congratulate Jim on this honorary degree.

We hope that those who are graduating today are proud to be joining a community of alumni that has over 9000 members with many of them holding prominent positions in the government and private sectors locally and overseas. Our alumni network is an invaluable resource for our graduates as they embark on their career, with connections across healthcare disciplines in Malaysia and overseas. Take advantage of and contribute to this community of international alumni who all began their professional lives at IMU.

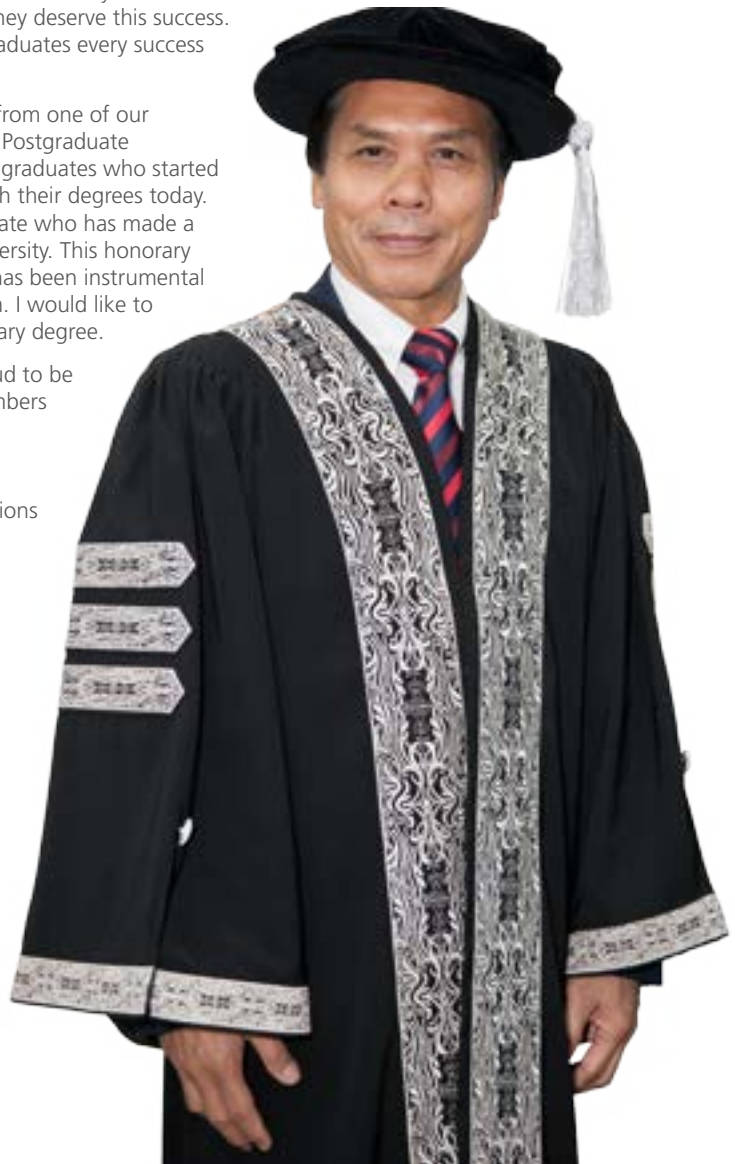

Congratulations to the Class of 2016!

*Vice-Chancellor*

Honorary Doctor of Medicine

2015  
**Prof Chris Stephens**  
Honorary Doctor of Medicine

2015  
**Prof Mak Joon Wah**  
Honorary Doctor of Science

# Conferment of the Honorary Doctor of Medical Education

## Emeritus Professor James Roland Lawrence

James Roland Lawrence who is also fondly known as Jim Lawrence, was born in Mt Gambier, South Australia in 1930. He received his MBBS with Distinction in 1954 from the University of Adelaide and became a Resident Medical Officer at the Royal Adelaide Hospital and the Adelaide Children's Hospital. Realising his passion in the emerging field of renal medicine during the late 1950s, Jim obtained a scholarship from the Royal Australasian College of Physicians to undertake renal medicine research in Chicago. Subsequently he worked as a Fellow in Edinburgh and London before returning to Adelaide. This was also the period when artificial kidneys had just become available, opening new frontiers in kidney biopsies, immunology and kidney transplant. Jim obtained his MRACP and FRACP in 1958 and 1967, respectively, and became the Director of the Renal Unit in the Queen Elizabeth Hospital from 1964 to 1976. It was in this capacity that Jim was part of the first team in Australia to perform a successful renal transplant. He had also successfully established a renal unit providing care of end-stage renal failure using newly developed long-term dialysis. He also contributed extensively to the evolution of more modern integrated undergraduate and postgraduate teaching and assessment in the Faculty of Medicine at the University of Sydney. Recognised for his enormous contributions, Jim received numerous awards including the Officer of the Order of Australia (AO) in 1991. This was in recognition for his service to Renal Medicine and Continuing Education.

Throughout his career, Jim has been an effective member of numerous faculty and university committees. In 1985, he began the long association with Universiti Sains Malaysia (USM) and in 1988 was appointed consultant-in-charge of the International Development Programme (IDP) for the Malaysia-Australia Universities Development Project which successfully built two way bridges between senior influential members of the Australian and Malaysian health professions. This collaboration between Malaysia and Australia was unanimously acknowledged by the Australian High Commission in Malaysia, USM and IDP in view of Malaysia's need for extra academic medical teaching resources in order to expand its medical programmes. Later in 1995, Jim was appointed Senior Consultant Advisor to Universiti Sains Malaysia – University of Sydney (USMUS) postgraduate exchange education programme for 10 years.

Jim's contribution to postgraduate medical training in Malaysia extended beyond USM. He was involved in the conjoint Masters of Medicine programme, playing an important role in integrating acceptable international standards. He facilitated the selection of external examiners from the Royal Colleges of Physicians of Australasia (RACP) for the conjoint Malaysian Masters of Medicine examinations with students from USM, Universiti Kebangsaan Malaysia (UKM) and Universiti Malaya (UM). He also helped organise trainers comprising of senior clinicians and academics from Australia to participate in various training workshops as part of the Masters training programme. His significant contributions has led to the enhancement of value and minimising staff shortages during the expansion of Malaysia's "academic medical economy" while improving the exposure, quality, and experience of healthcare professionals, specialists and healthcare across the nation.

Jim's contribution continues to be seen in the development of the medical programme of the International Medical University (IMU). Representing the University of Sydney between 2000 and 2005, he was an active member of IMU's Academic Council. During the development and expansion of IMU's Partner Medical School (PMS) in Australasia, Jim played a part in influencing partnerships with some prestigious medical schools in Australia. In 2006, the University of Sydney officially joined IMU's consortium of PMS for Medical Education and PhD training, and paved the way for another collaboration with the University of Sydney's Faculty of Pharmacy in 2011 which recognises credit exemptions from IMU for its Master of Pharmacy programme. Over the years, Jim continues to be interested in the development of IMU and has always been available for advice to both senior and junior staff members.

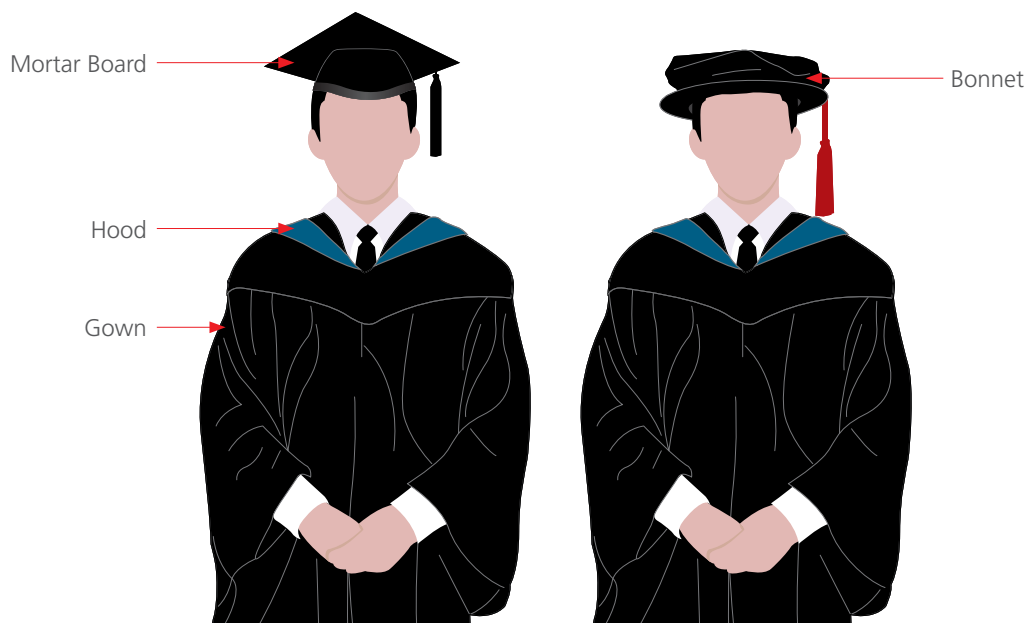

In recognition of Jim Lawrence's extensive contributions towards the development and growth of medical education, the International Medical University is bestowing upon James Roland Lawrence the Honorary Doctor of Medical Education.

# University Awards Winners 2016

## Dr John Joseph Bosco Memorial Gold Medal

The **Dr John Joseph Bosco Memorial Gold Medal** is awarded to a student graduating with the IMU MBBS who has achieved the highest academic excellence throughout his/her degree. One medal may be awarded in each graduation cohort. This award is given in memory of the late Dr John Joseph Bosco who played an instrumental role in the development of the IMU Clinical School.

**Ng Yang Jein**  
Class of C 1/14

Ng Yang Jein is graduating with a MBBS IMU degree. He is receiving the Dr John Joseph Bosco Memorial Gold Medal for the highest achievement in his degree. His academic excellence since secondary school has gained him several other awards, including Jabatan Perkhidmatan Awam (JPA) Scholarship, Tan Sri Dato' (Dr) Loy Hean Heong Merit scholarship and Distinction Award in IMU's final examinations. He is a responsible, helpful and intellectually gifted student who demonstrated great perseverance and diligence, being highly proactive in ward work and group discussions. He always believes that private victory precedes public victory and having the right attitude, self-discipline, good knowledge and a genuine desire to serve the community are the fundamental elements of success. In order to prepare himself for the challenging medical profession, he constantly updates his knowledge by attending numerous medical conferences, reading the latest guidelines as well as medical news. Apart from this, Yang Jein has been actively participating in research projects and he received the Top 5 research presentation award and oral presentation award in IMU. In addition, he is also passionate about community services and was involved in volunteer work at Down's Syndrome Society, blood donation campaign, health screening programmes and health article writing.

## Dr Saidi Hashim Memorial Gold Medal

The **Dr Saidi Hashim Memorial Gold Medal** may be presented twice a year to the top student of the convocating class who will be continuing their studies either to the IMU Clinical School or Partner Schools overseas. The gold medal award is given in honour of the late Dr Saidi Hashim Tahir, one of the founders of IMU.

**Aw Pei Ying Amanda**  
Class of ME 1/14

Amanda has completed the first two and a half years of her Medical undergraduate programme in IMU and will be transferring to the University of Glasgow for the completion of her MBChB degree. Being an introspective individual who is well-aware of her strengths and weaknesses, Amanda is a passionate and driven individual who seeks to improve herself holistically. Despite her achievements, she remains humble and approachable to her peers. As an independent and disciplined individual who enjoys learning, she approaches her medical studies with seriousness and ardour while also enjoying a wide variety of interests which includes running and sketching. Amanda demonstrates her keen passion for her career by actively attending medical seminars and conferences and had represented IMU at the 13<sup>th</sup> International Medical School Physiology Quiz and the MOH-IMU Patient Safety Conference in 2016. Besides these, Amanda shows her dedication to give back to society through volunteering activities which includes the Myanmar-IMU Collaborative Community Project 2015. She also headed the Malaysian Care (Bumblebee) Project from 2015 to 2016, which involved spending time with and teaching basic hygiene lessons to children in underprivileged communities.

## Tun Zahir Merit Award

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor of Medical Sciences programme, Bachelor of Science (Hons) Psychology programme and also in one of the health sciences programmes. It is given in memory of the late **Tun Dato' Seri Dr Mohamed Zahir** who was the Chancellor of IMU from 1999 to 2005.

**Liow Jun Wei**  
Class of PS 2/13

Liow Jun Wei (Vincent) will be graduating with the Bachelor of Science (Hons) Psychology. His dedication and discipline has earned him a First Class Honours degree. Jun Wei is known among his lecturers as a student who is a deep, critical thinker. He utilises introspection in gaining a deeper meaning and understanding of the knowledge learned, and applies it to himself. His sharing in classes is often insightful and meaningful. He has demonstrated good listening and emphatic skills in dealing with people and has natural abilities and great potential to become a great couple and family therapist. Jun Wei is very hardworking and has overcome great personal adversity to be where he is today. He completed his internship at Taiwan Tongzhi (LGBT) Hotline Association, in Taipei, Taiwan and has taken the opportunity to conduct his thesis on a culturally sensitive topic 'Perception of Intimate Relationship among Homosexual Men' with an emphasis on the health aspects of living in a LGBT (Lesbian, Gay, Bisexual, Transgender) community. He has firsthand knowledge on the various psychosocial issues prevalent among the community, and strives to publish his research in order to increase awareness in society.

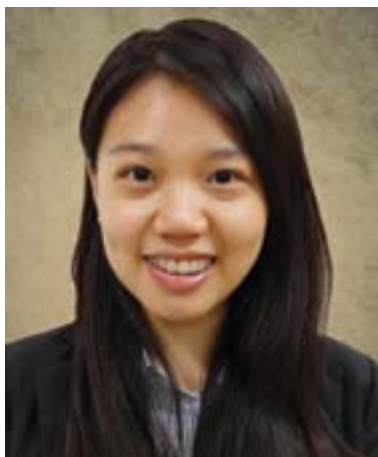

**Zhang YuXin**  
Class of PC 1/13

Zhang YuXin from PC 1/13 will be graduating from BSc (Hons) Pharmaceutical Chemistry. YuXin was born in China but he has grown up in Malaysia since young. His responsibility and never give up attitude has resulted in him excelling academically. He has always set higher goals and is committed to achieving the goals with hard work and good time management. YuXin is also active in extracurricular activities. His participation in IMU Cup, social responsibility activities, orientation week, festival events and many more has developed his positive attitudes and allowed him to make new friends. He has described his student's life as wonderful because of such activities in addition to his excellent academic performance. YuXin also prepared himself for the future by participating in some pharmaceutical and business conferences to gain extra knowledge and keep himself updated with news of his profession.

## Tun Zahir Merit Award

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor of Medical Sciences programme, Bachelor of Science (Hons) Psychology programme and also in one of the health sciences programmes. It is given in memory of the late **Tun Dato' Seri Dr Mohamed Zahir** who was the Chancellor of IMU from 1999 to 2005.

**Chong Sin Yee**  
Class of MB 1/13

Chong Sin Yee graduated with a First Class Honours from the Bachelor of Science (Hons) Medical Biotechnology programme. Sin Yee is a hardworking, self-initiated learner and constantly portrayed high integrity throughout the duration of her studies at IMU. To her peers, Sin Yee is known to be a friend who is dependable and non-judgmental. In her final year, Sin Yee conducted a research entitled 'Combined Effects of Temperature and Ultraviolet Radiation (UVR) Stress on the Growth Response and Pigmentation of Chlorella Isolated from Polar and Tropical Regions'. Her findings have contributed towards the effect of environmental changes to the algal population. Sin Yee was also involved in co-curricular activities actively during her studies at IMU.

**Mariyam Sakha Abdul Hakeem**  
Class of BM 1/13

Mariyam Sakha Abdul Hakeem graduated with First Class Honours from the Bachelor of Science (Hons) Biomedical Science Programme. Mariyam is an intelligent and hard-working student with leadership and interpersonal skills. In her final year research project, Mariyam worked on "Neurotoxic Effect of Salsolinol on NE-4C Neural Stem Cells through Apoptosis and Erk Protein Regulation." This research contributed to understanding of how the mechanism of action of salsolinol as neurotoxin in neural stem cells will improve the stem cell-based therapy for Parkinson's disease. During the research project, Mariyam worked well with her team with responsibility and intelligence to answer the research questions and came up with interesting findings. She was also an active participant in various community projects such as SCAFST, NASOM, and cancer awareness project.

## Tun Zahir Merit Award

This award is given to a graduating student who has shown outstanding academic excellence in the Bachelor of Medical Sciences programme, Bachelor of Science (Hons) Psychology programme and also in one of the health sciences programmes. It is given in memory of the late **Tun Dato' Seri Dr Mohamed Zahir** who was the Chancellor of IMU from 1999 to 2005.

**Ling Sheau Hui**  
Class of ND 1/12

Ling Sheau Hui graduated with First Class Honours from the BSc (Hons) Nutrition and Dietetics programme. From the start, she has always been a bright student and has consistently demonstrated exemplary professionalism throughout the semesters. She would go the extra mile to develop her dietetics skills, and this was especially seen during her final practicum year. During her 4 years at IMU, Sheau Hui has developed and maintained trustworthiness and the tenacity needed to be a merit student.

**Ng Yeng Yi**  
Class of NT 1/13

Ng Yeng Yi, who is graduating with a First Class Honours from the first cohort of Bachelor of Science (Hons) Nutrition programme, is a dedicated and hardworking student. She is always committed to her task and constantly striving for the best outcome in whatever she does. She did great things on campus through her participation and involvement in many students' projects. She has demonstrated courage and perseverance while working with others. Her exceptional attitude and constant participation in IMU community and social work has shown immense growth both in her personality and academic. Despite the heavy workload, Yeng Yi always remain on top of her class. This positive attitude undeniably has an impact on her fellow students.

# The Graduands

## OCTOBER 2016

---

## Doctor of Philosophy in Medical and Health Sciences (By Research) Graduand

- **Choo Heng Lungh**

Thesis Title: Putative roles of c-Jun N-terminal kinase and downstream proteins as therapeutic molecular targets in nasopharyngeal carcinoma

---

## Master of Science in Medical and Health Sciences (By Research) Graduands

- **Lee E Lyn**

Thesis Title: An assessment of the diabetes knowledge and self-management behaviours of patients treated in primary health clinics: exploring any potential roles for community pharmacist. A mixed-methods study

- **Tan Goi Chuan**

Thesis Title: Elucidation of molecular targets regulated by delta-tocotrienol and gamma-tocotrienol in 4T1 murine mammary carcinoma cells

- **Yamuna A/P Rajoo**

Thesis Title: Association between intestinal parasitic infections, nutritional status, socioeconomic and environmental sanitary behaviour among the longhouses communities in Sarikei Division, Sarawak

---

## Master of Science in Public Health Graduand

- Syeda Razelin Kashem

---

## Bachelor of Medical Sciences (Hons) Graduands

# IMU Alumni

Congratulations for making it this far in your education and welcome to the IMU Alumni Community! Your relationship with International Medical University (IMU) does not end just because you have graduated. As an IMU graduate, you've automatically become a valued member of the IMU Alumni Community.

Being a part of the IMU Alumni Community, you can reconnect with classmates, get in touch with lecturers and mentors, participate in business and social networks, and attend (or organise!) a range of events including reunions. You may also enjoy special privileges and benefits such as special alumni discounts on continuing professional development programmes at the IMU Centre for Lifelong Learning (ICL), as well as receive updates and first-hand information on IMU news and events. The IMU experience is not just about your years on campus but beyond. Many alumni find that they carry the IMU learning skills well into their professional and personal lives.

## How Can The Alumni Contribute?

**KEEP IN TOUCH** ~ We appreciate your ongoing interest in IMU. Connect with our various social media channels, as well as the IMU Alumni website, which are all designed to help you STAY IN TOUCH with what's going on. Keep your profile up-to-date via <http://alumni.imu.edu.my> or stay tuned with us on Facebook "IMU Alumni" to stay informed of the latest happenings!

**ALUMNI SHARING** ~ Come and share your experience with the students on campus - life in PMS, working experience, guidance on specialty, research work, etc are just some of the topics that you can explore. You can even consider providing internship or employment opportunity in the future. Contact us at [alumni@imu.edu.my](mailto:alumni@imu.edu.my) to know more.

**FEATURED ALUMNI** ~ We want employers, institutions and individuals to know where you studied and where you are now. Write back to us a short story of yours anytime and anywhere. After all, WE ARE PROUD OF YOU!

You are the "living proof" of the educational philosophy promoted at IMU. Your story will be kept to be featured wherever deemed appropriate. Write to us at [alumni@imu.edu.my](mailto:alumni@imu.edu.my).

## IMU Alumni Relations Office

Established in 2002, the IMU Alumni Association (IAA) aims to develop an international network of IMU graduates and to engage alumni through the exchange of knowledge, academic ideas and professional development. The Alumni Relations Office is the point of contact for graduates of IMU. We will ensure that your time is used wisely and that your experience is rewarding. We offer a range of special alumni events, services and publications to allow graduates to stay connected to the University and benefit from networking with one another.
