About The International Medical University

In 1992, Malaysia was facing a serious shortage of doctors. Dr Kamal Salih, a visionary, and Dr Mei Ling Young, a social scientist with a strong interest in development, hit on a brilliant, simple idea – if young Malaysian students could not go out into the world to get the medical education they wanted and deserved, they would bring it to them. And so, the idea for the International Medical College (IMC) was born. The college was officially launched on 13 April 1992 by the then Education Minister, YB Datuk Amar Dr Sulaiman Haji Daud, demonstrating the full support of the Malaysian Ministry of Education and Ministry of Health.

Changing the landscape of medical education, IMC introduced the world's first unique curriculum model that allow medical students to spend the first five semesters at the IMC in Kuala Lumpur, before moving to one of the five leading Partner Medical Schools (PMS) around the world.

Gaining University Status

On 4 February 1999, IMC was granted university status and became the International Medical University (IMU), thus providing students the additional option of reading the whole medical degree in Malaysia, graduating with the IMU MBBS. With this, IMC also became the country's first private medical college to be upgraded to a university. Since then, IMU has grown from a medical college with five PMS offering one programme, to an internationally recognised higher education institution offering 29 programmes with over 33 world class partner universities in Australia, New Zealand, Canada, Ireland, the United Kingdom, the United States of America and China. It is also the first university in Malaysia that offers conventional and complementary medicine, together, with the philosophy that health is holistic.

Healthcare and Research

In January 2010, IMU took a bold step in its plan to be a holistic healthcare provider with the launch of its Oral Health Centre in January which was quickly followed by the Chiropractic Centre in May, Medical Clinic in July and the Chinese Medicine Centre in November. These clinics formed the IMU Healthcare Centre which apart from providing professional and specialist services to the public, these centres also serve as a teaching site for IMU students and plays an important role in educating future healthcare professionals who

understand the importance and benefits of offering holistic healthcare services. It also extends the learning experience beyond the partnerships already offered by the Ministry of Health hospitals and clinics.

While medical and healthcare-related research continues to be an area of focus, the University also places emphasis on medical education research. To support research, the University established the Institute of Research, Development and Innovation (IRDI) in 2012.

Poised to be a significant player in biomedical and clinical research, IRDI's eight thrust areas are in environmental and population health, bioactive molecules and drug discovery, cancer and stem cell research, health professions education, translational research, transformative nutrition and health, analytical and pharmaceutical services, as well as digital health.

This is also part of the IMU's vision to be a leading private Asian health educator that creates value through integrating education, research and healthcare. IMU completed building the first Hospital in Bukit Jalil on 1 June 2022 to serve the community.

Serving the Community

One of IMU's core values is that to be good healthcare professionals, students must be moulded to be good human beings. And this includes being aware of, and sensitive to the needs of the communities in which they live and work, hence IMU's tradition of active community engagement.

Since its launch in 2002, IMU Cares programme has played an important part of University life, providing means for students and staff to engage with the community beyond the University. From a small-scale fund-raising activity in 2002, IMU Cares has expanded

to provide more than just financial assistance to the less privileged. The Programme now strives to deliver healthcare, to promote health and wellness, and to prevent disease.

In addition, IMU Cares has begun providing more holistic care, including medication counselling and nutritional assessment. Cases requiring further treatment are referred to the IMU Healthcare clinics, and the IMU Cares Humanitarian Aid Fund underwrites treatment costs.

IMU Cares has also looked into the education and training of caregivers, to enable and empower them to provide better care. From integration and application of knowledge and skills to interprofessional learning and collaborative practice, the programme has become a platform for experiential learning. It enables students to learn leadership, inter-professional teamwork, and to practise the values of professionalism and ethics while making a difference to communities. One of IMU's commendable efforts was seen through its long-running Village Partnership programme which won first place; out of 63 international universities in the prestigious MacJannet Prize for Global Citizenship Award 2013. In 2013, the University also won the Association for Medical Education in Europe (AMEE) ASPIRE for Excellence Award in the area of "Student Engagement" at the AMEE conference in Prague, Czech Republic.

IMU Cares continues to win accolades and awards for its unique programmes that continues to serve the community including the Bronze Award for the CSR Leadership Award at the 10th Annual Global CSR Summit & Awards 2018.

Moving Forward

Committed in its relenting quest for quality, the University was awarded the self-accreditation status – by the Malaysian Qualifications Agency (MQA). This status of autonomy entitles a higher education provider to accredit its programmes except for programmes that require accreditation and recognition of the relevant professional body. The award also demonstrates the fact that IMU consistently maintains high standards of quality and integrity in all its programmes.

The University also gained a six-star rating under SETARA 2017 and SETARA 2019 for two consecutive years for the Mature University Category. This is the highest ranking awarded by the Ministry of Higher Education (MOHE) which measures the performance of three core functions namely teaching, research and services. We were also rated a 5-star university by Quacquarelli Symonds (QS) World University Rankings in 2020.

As the University progresses into a rapidly changing world, where knowledge and technology is moving at an unimaginable pace, the IMU retains its vision of becoming an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens and visionary leaders.

Celebrating our 30th Anniversary in 2022 with the theme of Nurturing Leaders Today, we remain focused on the central philosophy that guided our founders; Access to quality health science education, innovation and imagination as a cornerstone, as well as continuous insights and reflection to visualise and realise IMU's future. Our strategic plan aims to cement our leadership in medical and health care education through quality and to ensure that our delivery and offerings are aligned to society's needs and the digital age.

The University Mace

The mace is the symbol of authority of the International Medical University (IMU).

The globe at the top symbolises the international nature of the University. Gold denotes the quality of education provided by the IMU.

The seven krises (traditional Malay weapon) represent the nations participating in the international medical consortium.

The songket motif symbolises the country's cultural tradition.

The Bunga Raya (Hibiscus) is Malaysia's national flower.

The five facets of the mace stand for the five continents of the world.

The second ring consists of the logo of the IMU to signify its new charter as a University. Below the second ring of the mace are the logos of the original five Partner Medical Schools which helped start this innovative medical programme.

The original International Medical College emblems are etched on each side of the brace in the third ring of the mace. Below the third ring are the logos of the international Partner Universities involved through their medical schools in the international medical consortium.

The bottom part of the mace is carved in the shape of the Kelantanese gasing (spinning top), another symbol of Malaysian culture.

The Logo

The initials IMU represent the name of the University. The strips on the "I" represent the three pillars of Innovation, Imagination and Insight. The snake and staff are the traditional symbols for medicine, which is the educational focus of the University. The colour white represents integrity.

The globe stands for international connections: the IMU as a member of the international medical consortium, both in terms of partnerships with many well-known foreign universities, as well as its international faculty and student body.

The tilted square represents the mortar board, which is the symbol of academia in relation to the community. The colour blue, in its two shades, stands for peace and harmony.

Vision

IMU shall be an innovative global centre of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring citizens; and visionary leaders.

IMU is committed to academic freedom and the principles of equal opportunity in the pursuit and application of knowledge, the highest standards of intellectual, educational and research productivity; and the establishment of a learning organisation that respects the individual.

Educational Mission

As an educational institution, our mission is:

- To further strengthen the IMU as a centre of excellence for the undergraduate programmes in medicine, dental, pharmacy, health sciences and complementary and alternative medicine programmes
- To establish the IMU as a centre for higher education providing training through multidisciplinary programmes
- To establish the IMU as a centre for postgraduate training and Continuing Professional Education
- To train knowledgeable and skillful professionals with high ethical standards who will be dedicated to serve and improve the quality of life of the community
- To train competent professionals with the use of innovative technologies of knowledge especially ICT in the teaching-learning process

Quality Policy

IMU aims to be an innovative centre of excellence in learning and research, producing competent, caring and ethical professionals who are lifelong learners. It is committed to achieving the highest standards of intellectual, educational and research productivity.

Message from the Vice-Chancellor

“ Welcome to the IMU’s Convocation 2022. This year’s ceremony is very significant as we celebrate our 30th Anniversary. The chosen theme of “Nurturing Leaders Today” aptly reflects why we are here today – to celebrate the successes of our graduands who are about to begin a new adventure as they enter their next phase in life and where they will be leaders in their chosen fields. Apart from celebrating our graduands, we also want to acknowledge the support system that has enabled our students to reach this far: parents, family, friends, faculty and staff members of the IMU.

Prof Abdul Aziz Baba

Vice-Chancellor

MBBS (Melb), MRCP (UK),
MRCP (Ireland),
FRCP (Edin), AM

In the last few months, we have all started to reclaim some normalcy in our lives. Face-to-face meetings are gathering momentum and businesses have gone back to full operating hours. And many of us managed to *balik kampung* for the festival and religious holidays for the first time in two years.

Yet in moving forward, we must not forget the lessons that we have learnt, the stories and the actions that we have embraced to get through the challenges that COVID-19 threw at us, individually, and as an institute of higher learning.

Throughout this strange and unprecedented journey, the IMU has set in motion many initiatives to make sure we deliver on our promise to provide the best quality education and to ensure that the student learning experience is maintained.

Some of such initiatives took the form of digital transformation. While hybrid learning is not new to the IMU, the pandemic generated an urgency to push forward the development of digital tools such as virtual reality and augmented reality, allowing us to make learning more immersive and engaging.

It was important that the pandemic did not succeed in stealing any of the joys and learnings of being a student at the IMU and that those graduating today are as prepared as any other cohort past and future.

With every challenge faced, there will also be an opportunity for us to innovate and improve ourselves. Here at IMU, we continuously aspire to provide quality and functional education that is sustainable not only for our students but also for the institution and society.

In the last year, IMU has achieved many goals. These include consecutively receiving its international reaccreditation from the International Society of Biomedicine for our Biomedical Sciences

programme and launching an interactive online module that we developed together with the Ministry of Health (MoH) around patient safety.

At the IMU, we take pride in being able to adapt to society's evolving needs and this has led us to update our existing programmes where necessary. Among others, these updates included the implementation of our new MBBS curriculum and the Dental curriculum 2021. In answering the society's growing thirst for all things digital, we recently launched the first Digital Health degree in Malaysia that integrates Information & Communication Technology, Data Analytics and Healthcare and will welcome its first intake in July 2022. This initiative opens up new opportunities for the next generation of students, especially those outside of science-based backgrounds.

The transition from university life to the workforce has always been very challenging, even more so since the pandemic hit, one which the World Health Organisation has described as a once-in-a-century health crisis, warning that "the effects of which will be felt for decades to come."

Many changes have been seen, lived and experienced: on a personal level, as a nation and as a global community. What started off as a statistic became reality when close friends and families were impacted by COVID.

The crisis has driven home the point that we at IMU have always worked toward : to nurture healthcare professionals who are well-trained and future-ready. Healthcare professionals who are armed with the required clinical skills and more importantly, the desire to constantly update themselves with the latest skills the industry has to offer. In terms of being future ready and digitally adept, in the days preceding the pandemic, the IMU had introduced big data analytics into our programmes to prepare

you, our students, to be more digitally savvy and in order to meet digital advances such as telemedicine and telehealth.

But while these hard skills are crucial, the positive culture of service is even more important. This is why at the IMU we ensure that you also are immersed in much needed soft skills such as communications, time management, emotional resilience and leadership roles. Continue to further consolidate these qualities and practice them throughout your career.

It was evident that both the mental and physical health of frontliners have taken a toll from COVID, many facing burn out and emotional distress. This raises the urgency and importance to have greater self-awareness and build emotional resilience to manage one's own health.

Pay attention and be cognizant of your mental health. Learn to recognise the signs that you are overwhelmed and don't be reluctant to seek help. Reach out and stay connected with your alma mater and the alumni. There is always someone ready to share their experiences and know-how and who can be your sounding board. Take care of yourselves, so that you can take care of the community better.

As you enter into the working world, let the IMU's principles of **TRUST** guide you. Be **Trustworthy** and stand for integrity, be **Responsive** to the community's needs, **United** towards a common goal, be committed to **Service** and stay **Tenacious** in the pursuit of excellence.

These values will carry you through your career and your actions will be a testament to all that you have learnt as a student. Be the best person that you can be, treat people with respect and be humble. Always have the community at the centre of your interaction.

Wherever your paths lead you, remember that you are the product of unique circumstances. You have overcome the challenges of the pandemic and that is a tribute to your commitment, your resilience and your determination.

Our success in the future lies in how well we can consolidate our experiences in the past. Use what you have learnt within these halls as a base for you to spread your wings and fly high into the future.

To all our graduands here today, as you go forth to build a successful career, may you continue to do yourself, your family and IMU proud.

Thank you.

A handwritten signature in black ink, appearing to read 'Aziz', with a long horizontal stroke extending to the right.

**UNIVERSITY AWARDS
AND PRIZE WINNERS
JUNE 2022**

Congratulatory Messages

A/Prof Dr Tan Eng Lai
Dean, School of Postgraduate Studies

Prof Dr Ian Symonds
Dean, School of Medicine

“ I wish to congratulate all prize recipients on their outstanding achievements. This award is indeed both a testimony and recognition of your talents and hard work, and as such, it is well-deserved. Congratulations and well done to all prize winners. Thank you for making us proud of your achievements. Thank you for giving us the opportunity to share in this joyous and memorable moment. I wish all of you the very best for your future career.”

“ I would like to send my congratulations to all award and prize winners. You should be truly proud on these outstanding achievements and the recognition of all your hard work. Successfully completing your studies is itself challenging but you have gone above and beyond what is needed to do this and demonstrated dedication and excellence. As you enter the next phase of your training, the qualities that have enabled you to achieve this success will stand you in good stead for the rest of your career.

I know that you will acknowledge that this could not have been achieved without the support of your families, friends and teachers who, I am sure, share my pride at your accomplishment.

Congratulations again on your impressive performance.”

Prof Seow Liang Lin
Dean, School of Dentistry

“ It gives me immense pleasure to congratulate all award and prize winners at this year’s Prize Presentation Ceremony. It has been an honour to see you grow personally and professionally while pursuing your study at the International Medical University. You have completed the undergraduate journey in the midst of a global pandemic. No doubt your learning was disrupted. No doubt there was added stress and uncertainties. Despite these challenges, you have emerged stronger. I would like to take this opportunity to thank the faculty, family and friends who have rendered their support throughout your journey. Your accomplishments are impressive as you carried them out during a worldwide pandemic. Believe in yourselves as we believe in you, you will make competent, empathetic, and trustworthy healthcare professionals.

While we celebrate the achievements, it is important for us to take a step back and remind ourselves about exactly who we are and what we are trying to do, not just as individuals, but as a community. It is about building an inclusive and caring society for the wellbeing of our patients. In every society, you will have people with different challenges in life and what you will be doing, is to reach out with a helping hand, to help improve the quality of life of people.

I wish you every success for your next endeavour and please keep in touch with us.”

Prof Mohd Zulkefeli Mat Jusoh
Dean, School of Pharmacy

“ My heartiest congratulations to all recipients of awards and prizes of this Prize Presentation. After all your hard work, this Presentation is a moment to recognise your outstanding achievement. You have proven to the world that despite the challenges during a global pandemic, you have made it and completed the degree with excellent achievement. I believe that this experience has made you stronger to face other challenges in your life as you have persevered and overcame the unexpected.

May this award encourage you to go further and higher, to another level in the next stage of your career journey. All the best! A note to keep in mind: Remember the past, live in the present and look forward to the future. I hope you will all keep in touch, come back to visit the campus and share your news and hard-won wisdom with the students here.”

Prof Winnie Chee Siew Swee
Dean, School of Health Sciences

“Congratulations to all the graduates who have received the well-deserved awards and prizes in conjunction with the Convocation Ceremony. You have surpassed your goal by graduating tops in your chosen profession and we are proud of your achievements. It is up to you now to continue the journey and make a difference in to go the extra mile to serve society!

Here is a poem from Robert Frost,
The Road Not Taken:

*"I shall be telling with a sigh
Somewhere ages and ages hence
Two roads diverged in a wood and -
I took the one less travelled by,
And that has made all the difference!"*

A/Prof Dr Ranjit De Alwis
Director, Centre for Complementary
and Alternative Medicine

“My heartiest congratulations to all well-deserved award and prize winners. You are a special lot; you bravely faced and beat all the challenges that came your way during the global pandemic to complete your studies. You have proved that you are strong and will be able to face any challenges that come your way in the future. Nothing can stop you, keep reaching for the stars. Graduation may be the end of your studies in the University, but it is also the start of a new chapter of your life. I wish that success keeps following you in everything that you do, always.”

Dr John Joseph Bosco Memorial Gold Medal

The Dr John Joseph Bosco Memorial Gold Medal is awarded to a graduating IMU MBBS student who has achieved the highest academic excellence throughout his/her degree. One medal may be awarded in each graduation cohort. This award is given in memory of the late Dr John Joseph Bosco who played an instrumental role in the development of the IMU Clinical Campus.

Lee Soo Jin Sherry

Bachelor of Medicine and Bachelor of Surgery (MBBS)

Cohort: ME1/17

Lee Soo Jin Sherry graduated with distinction in her MBBS graduating class. She is a determined, passionate, inquisitive and empathetic person. She is never one to shy away from challenges and always tries her best in everything she undertakes. She believes that the hands-on learning of clinical skills in the hospital wards and clinics has greatly attributed to her success in her undergraduate programme. She was actively involved in the IMU extracurricular activities and was in the organising committee of IMU Cares Project in clinical campus, namely the Kampung Tekir Mobile Clinic project. She is blessed with family and friends who have supported her throughout her journey in IMU.

Dr Saidi Hashim Memorial Gold Medal

The Dr Saidi Hashim Memorial Gold Medal may be presented twice a year to the top student of the convocating class who will be continuing their studies either to the IMU Clinical Campus or Partner Schools overseas. The gold medal award is given in honour of the late Dr Saidi Hashim Tahir, one of the founders of IMU.

Lim Yi Xin

Certificate of Completion for Phase 1 of the Medical Programme

Cohort: ME2/19

Lim Yi Xin is currently pursuing a Bachelor's Degree in Medicine, Bachelor of Medicine, and Bachelor of Surgery (MBBS) programme at IMU. She is a dedicated and hard-working student who strives to achieve academic excellence. She is always eager to improve her knowledge and perseveres in enhancing her clinical skills. To her peers, she is known to be humble and helpful. She is a great listener and willing to support her course mates. Academics aside, she also participated in extra-curricular activities such as Chariofare and visiting orphanages as part of the IMU Cares project. Her goal in life is not only to excel professionally as a caring doctor but also to serve the community through humanitarian activities. As she is now in her clinical phase, she is thrilled to embark on the new challenges that await her.

Dr Tan See Leng Award of Leadership

This award is given to a graduating IMU MBBS student who showed outstanding engagement and performance academically and in the professional and personal development through active participation, engagement, advisory and leadership. The award is named after Dr Tan See Leng, a renowned Family Physician and leader in the healthcare industry.

FIRST PLACE

Priyanka Ravichandran

Bachelor of Medicine and Bachelor of Surgery (MBBS)

Cohort: ME1/17

Priyanka Ravichandran is a graduate of the Bachelor of Medicine and Surgery (MBBS) programme. During her time in IMU, she has demonstrated commendable dedication and brilliance towards her academics as well as her personal and professional development. She has shown great maturity and outstanding stature as a student and as a leader. Her strive for excellence was evident when the many organisations she led flourished under her guidance.

Her peers regard her as a kind and skilled conversationalist and value the inclusive environment she creates for those around her. A benevolent person by nature, Priyanka's active engagement in multiple community and outreach projects as a means to give back to society is truly applaudable and resonates well with IMU's core values.

RUNNER UP

Lau Yii Ling

Bachelor of Medicine and Bachelor of Surgery (MBBS)

Cohort: ME1/17

Lau Yii Ling graduated with the Bachelor of Medicine and Bachelor of Surgery (MBBS) degree from IMU. Yii Ling is a well-rounded, compassionate, responsible, and helpful woman. She was able to juggle her responsibilities in her own clinical training, social involvement and her commitment in the personal development of her peers. Throughout her studies in IMU, she was actively involved various co-curricular activities, exhibited great interpersonal and leadership skills, and had successfully led multiple community-based and peer-development projects. She was the Student Concerns & Extracurricular Activities (ECA) representative in the Student Representative Council (SRC) Clinical Campus. She was the chairperson of a career talk titled "Life and Role of Houseman during COVID-19: Are you prepared to weather the storm?" The talk was part of a series which involved international speakers that was accessed nationwide by medical institutions and organisations, with the aim of exposing medical students to the latest COVID-19-related situation and provide a survival guide for housemanship training. Her resilience, empathy, and creativity were demonstrated in her contribution to the welfare of clubs and societies at the IMU Clinical Campus. She was involved in the GlobalSurg-CovidSurg Week study on SARS-CoV-2 as local collaborator, and many other community engagement projects.

Tan Sri Datuk Amar Dr Sulaiman Daud Merit Award

This award is presented to the top student of the dentistry convocating class. It is given in honour of the late Tan Sri Datuk Amar Dr Sulaiman Daud who was the Chancellor of IMU from 2005 to 2010.

Avril Lim Jia Li

Bachelor of Dental Surgery

Cohort: DT1/17

Avril graduates with a Bachelor of Dental Surgery with distinction. Throughout the duration her IMU journey, she has consistently exhibited intellectual capacities, sincerity and honesty, and dedication towards her tasks. She has great interpersonal and leadership qualities and has always strived hard in quest of excellence to meet with the expectations. She has been very proactive in taking up new challenges to achieve her goals and scale new heights to reach the highest pedestal pedestal. She has often provided support to her peers in their studies and personal life. She is an exemplary student who has done a remarkable job of living the IMU values.

Ong Wai Kit

Bachelor of Dental Surgery

Cohort: DT1/17

Ong Wai Kit graduates with a Bachelor of Dental Surgery programme with a distinction. During his course of studies at IMU, Wai Kit has evolved into a well-rounded professional displaying maturity and compassion in his interactions with peers, staff and patients alike. He is diligent in his studies and strives to excel at all that he does. Being passionate about oral wellness, he perseveres to provide high standards of care by updating himself with current best practices.

Apart from academics, Wai Kit has also participated in the IMU Neuro Week and been a committee member in Oral Health Carnival thereby displaying IMU's values effectively.

Tun Zahir Merit Award

The Tun Zahir Merit Award is given to a graduating student who has shown outstanding academic excellence in his/her graduating class. This award is given in memory of the late Tun Dato' Seri Dr Mohamed Zahir who was the Chancellor of IMU from 1999 to 2005.

Teresa Tan Yen Mei

Bachelor in Medical Sciences (Hons)

Cohort: ME1/19

Teresa Tan Yen Mei graduated with a First-Class Honours for Bachelor in Medical Sciences (Hons) programme. She has always been a motivated learner with a thirst for knowledge and presented high intellectual capabilities and critical thinking throughout her studies at IMU. She has put tremendous effort into conducting her research project on a systematic review (Determination of Relationship between Gene Polymorphisms (IL-10) and the Risk of Hepatocellular Carcinoma) which will contribute to the improvement of prevention and control strategy in hepatocellular carcinoma. She has always strived hard in the pursuit of excellence and excelled in meeting the expectations of her performance.

Deirdre Sinead Pereira

Bachelor of Science (Hons) in Psychology

Cohort: PS1/19

Self-described as a curious old soul, Deirdre was born into a small but close-knit family. She grew up being exposed to the unminced realities of the world around her. This led her to becoming a personality that possessed empathy, intelligence, critical-mindedness, and a deep sense of compassion and justice. She interned at the UNHCR, was once an IMU representative at the International Youth Conference on Social Innovation in Hong Kong, and a Tun Zahir Merit Award recipient. Now, armed with a First-Class Honours in the Bachelor of Science (Hons) in Psychology, she is set to launch into the world. She is a force to be reckoned with.

Yeoh Yoong Xin

Bachelor of Science (Hons) in Pharmaceutical Chemistry

Cohort: PC1/19

Yeoh Yoong Xin graduated with a Bachelor of Science (Hons) in Pharmaceutical Chemistry programme with First-Class Honours. He is a motivated, self-directed learner, and his strengths are commitment, dedication, and hardworking nature. Throughout his studies at IMU, he has consistently demonstrated his scholarly abilities, such as critical thinking, problem solving, and time management, and he has always been very effective in sharing his thoughts with fellow classmates in a collaborative working environment. He is a very good team player and is devoted towards achieving his goals. In his final year research project, he performed synthesis of novel sulfonylurea derivatives, and gained hands-on experience with synthetic research skills such as synthesis, purification, and physical and spectral characterization of organic small molecules. His thesis added value to his career as a professional pharmaceutical chemist by meeting the standards in the related scientific community. He is also a dynamic volunteer who has participated in several community engagement activities. His asset is that he continuously acquires knowledge and experience.

Bavithaa Sufina A/P Verasamy

Bachelor of Science (Hons) in Chinese Medicine

Cohort: CM2/17

Bavithaa Sufina A/P Verasamy graduated with a First-Class Honours from the Bachelor of Science (Hons) in Chinese Medicine programme. Bavithaa has always been a passionate and dedicated learner, she strived for the excellent result in all the module learning and met the expectations of study. During her studies in IMU, she has demonstrated empathy and tenacity in patient management and extracurricular activities. Her politeness and enthusiasm have also made her popular among all her friends and lecturers.

THE GRADUANDS

JUNE 2022

PhD in Medical and Health Sciences

Amy Chong Siew Peng

Thesis Title: Post-translational modifications of proteins involved in glutamine metabolism by acetylases and deacetylases in breast cancer cell lines under hypoxia

Anupa Sivakumar

Thesis Title: Development and evaluation of nano-emulsion containing curcumin and/or tocotrienol rich fraction for transdermal delivery to improve therapeutic effects in breast cancer

Master of Science in Medical and Health Sciences

Catherine Chong Sze Ling

Thesis Title: Effect of copper and zinc on biofilm formation by Antarctic soil bacteria

Lesley Pua Jia Wei

Thesis Title: Regulation of Nasopharyngeal Carcinoma (NPC) survival by p38 Mitogen Activated Protein Kinase (MAPK)

Chong Yuen Ping

Thesis Title: The effects of pancreatic cancer cells, pancreatic stellate cells, and their co-culture in myeloid-derived suppressor cells differentiation and lymphocytes suppression

Vatana A/P V. Sundar

Thesis Title: Validation of malnutrition identification tools against clinical outcomes in hospitalised cardiac patients with and without diabetes

IMU Alumni

Congratulations for making it this far in your education and welcome to the IMU Alumni Community! Your relationship with International Medical University (IMU) does not end just because you have graduated. As an IMU graduate, you've automatically become a valued member of the IMU Alumni Community.

Being a part of the IMU Alumni Community, you will be given access to the Alumni Portal, where you can connect with your classmates, get in touch with lecturers and mentors, participate in business and social networks and attend (or organise) a range of events including reunions, physical or online. You can also enjoy special privileges and benefits such as special alumni discounts on continuing professional development programmes at the IMU Centre for Lifelong Learning (ICL), as well as receive updates and first-hand information on IMU News and events through Alumni Portal. The IMU experience is not just about your years on campus but beyond. Many alumni find that they carry the IMU learning skills well into their professional and personal lives. Hence, they tend to contribute back by sharing those experiences with the current IMU Students.

How can I contribute as an Alumni?

KEEP IN TOUCH – We appreciate your ongoing interest in IMU Connect with our various social media channels, Alumni Portal, as well as the IMU Alumni Website, to help you **STAY IN TOUCH** with what's going on. Keep us up to date with your profile information, working experiences and Award Achievements via Alumni Portal. If you have yet to receive your activation email from the ARO unit, please scan this QR Code and we will be in touch with you.

Alumni Sharing

Share with students your experience on campus life at Partner Schools, working experience, guidance on speciality and research work, these are just some of the topics that you can explore for sharing sessions. You can even consider providing internships or employment opportunities in the future or be our Mentor by joining our Alumni Buddy programme where both students and alumni will benefit from this exercise. Contact us at alumni@imu.edu.my to know more.

Feature Alumni

We want employers, institutions, and individuals to know where you studied and where you are now. Whether you are doing volunteerism, involved in humanitarian work or if you are an entrepreneur, we want to know all so we can better support your journey. Send to us a short story of your adventures anytime and anywhere.

After all, WE ARE PROUD OF YOU!
Scan here to share your stories.

Stay tuned with us via social media:

-  IMU Alumni
-  IMU Alumni Group
-  @imualumni
-  IMU Alumni

IMU Alumni Relations Office

Alumni Relations Office (ARO) was established in 2016 with the aim of developing an international network of IMU graduates and to engage our alumni through the exchange of knowledge, academic ideas, and professional development. The Alumni Relations office is the point of contact for all graduates of IMU.

We will ensure that your time is used wisely and that your experience is rewarding. We offer a range of special alumni events, services, and publications to allow graduates to stay connected to the University and benefit from networking with one another.

Alumni Association and Alumni Chapters

Alumni Association of International Medical University (AAIMU) was established in 2002. The new committee members were elected in early 2021 and will serve for two years. The AAIMU has set up Chapters to work with the IMU's Schools and Centre to coordinate events and activities. These collaborative efforts allow the alumni to socialise and boost their personal growth.

Alumni Association Committee 2021 -2022

Position	Name	Cohort	Where they are currently working
President	Aw Tsung Wai	ME210	Teladoc Health
Vice President	Sandev Singh	ME102	Thomson Hospital Kota Damansara
Secretary	Rina Sharina Roslan	NS217	Embassy of the United States of America
