

FOUNDATION IN ARTS

KPT/JPT(N/0011/3/0128)03/2029 | MQA/PSA17403

Start on an exciting journey of endless possibilities.

Introducing IMU's Foundation in Arts, an interesting new programme modelled after our prestigious Foundation in Science. A strong base on which you can build your future, it forms a robust springboard for pursuits beyond science programmes. Designed for excellence through student-centred teaching, international standards, interdisciplinary integration and diverse assessment, it ensures a seamless transition to undergraduate studies, provides a conducive environment and enables interactions with industry experts. Equip yourself for the field of arts through personalised education that fosters independence and exploration.

Programme / Duration

Foundation in Arts
1 year (3 semesters)

Commencement

Apr / Sep

◆ Preferred Pathways

Embarking on the FIA programme sets you up on a journey that opens doors to IMU's varied undergraduate programmes. One essential benefit of the programme is that applicants get a conditional offer of admission for the undergraduate programmes at IMU. (Acceptance is subject to meeting the entry requirements and prerequisites.)

◆ Assessment

The Foundation in Arts Programme combines In-course Assessment and Final Examination evaluations, equally weighted at 50% each. In-course Assessments such as assignments, presentations, quizzes, and projects are carried out throughout the semester. Progress will be evaluated through continuous evaluation, with feedback for improvement. The Final Examination is the last lap of the learning process that tests comprehension of key ideas and skills learned in each module. Both assessments are related and ensure evaluations that encourage continued learning. Students will also carry out joint projects with peers in the Foundation in Science programme, particularly in modules covering English for Academic Purposes, Computing Studies, and Cross-Boundary Studies.

Semester

1

Introduction to Business

Basic Mathematics

English for Academic Purposes*

Computing Studies*

Electives

Introduction to Management

Introduction to Psychology

Semester

2

Basic Statistics

Professional Development & Ethics
