

NURSING

(OPEN & DISTANCE LEARNING)

KPT/JPT(N-DL/0913/6/0001)09/2029 | MQA/PA14397

Study to be a better nurse, even while working as one

Open and Distance Learning (ODL) in nursing is a transformative approach to education in the healthcare field, allowing aspiring nurses the opportunity to pursue a higher education remotely. ODL in nursing recognises the importance of students as adult learners who can draw on their work experiences. IMU's reflective learning processes will equip you to be a better, more competent and caring nurse, without you having to leave your current job. This programme will also further strengthen your decision-making, interpersonal and teamwork skills. You will also enjoy flexibility, and find fulfilment in cultivating self-discipline as you journey towards being the best healthcare professional you can be.

Career Pathways

A Nursing graduate registered with the Nursing Board Malaysia receives high recognition locally and abroad. A great demand for nurses awaits you in Malaysia and beyond, largely due to the shortage of nurses globally. Upon graduating, you may advance your nursing career locally or abroad in various healthcare settings as a Nurse Manager, Supervisor, Clinical Resource Nurse, Charge Nurse and other managerial roles. You may even further pursue an advanced diploma/post basic specialisation, or embark on different nursing fields in research, education, entrepreneurship or healthcare-related businesses. Graduates can even pursue a Master's and Doctorate (PhD).
