

INTERNATIONAL MEDICAL UNIVERSITY
MALAYSIA

EXPLORE THE WORLD OF MEDICINE AND HEALTH SCIENCES AT IMU

ABOUT THE UNIVERSITY

International Medical University (IMU) is Malaysia's first and most established private medical and health sciences university with over 30 years of dedicated focus in healthcare education. Established in 1992, IMU pioneered the world's first Partner Medical School programme and has since gained international recognition with more than 30 world class university partners in Australia, New Zealand, United Kingdom, Canada, US, Ireland and China. IMU's main campus is located at Bukit Jalil, Kuala Lumpur with branch clinical campuses in Seremban, Kuala Pilah, Batu Pahat and Kluang.

STUDY ROUTE

FOUNDATION IN SCIENCE

KPT/JPT(R2/010/3/0186)09/2028 | MQA/FA3974

The IMU Foundation in Science (FIS) is the preferred foundation programme for entry into any of the IMU's undergraduate degree programmes, including credit transfers to most of our prestigious partner universities worldwide. It provides the academic preparation required for admission into a science-related degree and equips students with strong fundamental knowledge and skills to pursue their studies in the areas of medicine, dentistry, pharmacy and health sciences at IMU, most of its international partner universities and many others nationally. Studying the Foundation in Science in IMU exposes students to IMU's learning methodologies in a stimulating and conducive learning environment.

PROGRAMME

Foundation in Science

TOTAL DURATION

1 year (3 semesters)

COMMENCEMENT: April, July & September

DIGITAL HEALTH

KPT/JPT(N/482/6/0209)03/2028 | MQA/PSA14380

Our 3-year digital health programme is designed to meet the increasing demand of digital health professions in the healthcare sector. The programme aims to equip students with the knowledge and essential skills related to digital health, healthcare technologies and related industries, making the graduates more knowledgeable about healthcare organisations, systems and regulations, needs and problems. The curriculum blends computing, data analytics and health sciences. Upon graduation, students can contribute to digital transformation and improve the current healthcare processes in the healthcare sector.

DEGREE

Bachelor in Digital Health (Hons) (IMU)

TOTAL DURATION

3 years

COMMENCEMENT: July & September

MEDICINE

KPT/JPT(R2/721/6/0033)09/2026 | MQA/FA6155

The IMU Medicine Programme aims to produce graduates who meet the demands of rapidly evolving healthcare systems and be able to advocate changes for improvement via emphasis on their development of skills, behaviours and attitudes. The curriculum is developed based on the philosophy to promote "Person-centre Care with Humanistic Values". In order to achieve the goals, they should be medical professionals with these attributes: personally competent, life-long learner, transformative leader, empathetic, compassionate and responsive and adaptive.

DEGREE

PSYCHOLOGY

KPT/JPT(R3/311/6/0013)09/2027 | MQA/A8177

The IMU Psychology Degree emphasises learning in small groups for all students to actively engage and learn from the lecturers as well as from one another. Going beyond the scientific theories, students are challenged on the intricacies of actual practice by delving deeper into a topic. It is a process that adds art to the science of psychology.

DEGREE

Bachelor of Science (Hons) Psychology (IMU)

TOTAL DURATION

3 years

DEGREE

From Partner Universities

DENTISTRY

KPT/JPT(R3/724/6/0010)01/2030 | MQA/FA7026

The Dental programme in IMU is innovatively designed to provide early clinical exposure and various forms of learning activities to promote critical reasoning, develop professionalism and lifelong learning skills. Students will have the opportunity to obtain hands-on experience at IMU's integrated clinics where clinical supervisors with expertise in various dental disciplines will provide excellent context in the practice of patient-centred care, enhancing patient approval and compliance to treatment. There is also an emphasis in the integration of scientific knowledge and clinical skills to provide evidence-based care through actual learning environments such as outreach clinical postings.

DEGREE

Bachelor of Dental Surgery (IMU)

TOTAL DURATION

5 years

DEGREE

From Partner Dental Schools (PDS)

NURSING

KPT/JPT(R/723/6/0125)04/2027 | MQA/FA8944

Our 4-year Nursing degree programme prepares the student to become a registered nurse, and be able to practise the profession in a variety of settings, in either the public or private healthcare sectors. The curriculum follows the semester and credit system, and includes courses in basic Medical Sciences, Nursing Sciences, Humanities, and Scientific Methods as well as Nursing and non-Nursing electives and skills training courses. Graduates of this programme are eligible to apply for registration with the Nursing Board Malaysia on passing the Registration Examination.

DEGREE
Bachelor of Nursing (Hons) (IMU)
TOTAL DURATION
4 years

COMMENCEMENT: September

NURSING (Open and Distance Learning)

For registered nurses with Diploma in Nursing

KPT/JPT(N-DL/0913/6/0001)09/2029 | MQA/PA14397

The Bachelor of Nursing (Hons) degree is a part-time programme offered in Open and Distance Learning (ODL) mode. This programme is specially designed and tailored to the needs of working registered nurses who wish to upgrade their Diploma in Nursing qualification to a Bachelor's degree for career advancement while still remaining in their workplace. Students will be able to further develop their competency skills as a professional practitioner, researcher, role model and most importantly, as a lifelong self-directed learner in order to upgrade the standard of practice and facilitate the development of others.

DEGREE
Bachelor of Nursing (Hons) (IMU)
TOTAL DURATION
3 ½ years*

*After credit exemption from 5-year duration. Subject to terms and conditions

COMMENCEMENT: February & September

NUTRITION

KPT/JPT(R2/726/6/0011)06/2027 | MQA/FA1298

Our Nutrition programme is a 3-year, full-time course. This programme incorporates a comprehensive curriculum that integrates knowledge from the physical, biological and social sciences. It prepares work-ready, competent graduates to meet the needs for nutritionists by government agencies, industries, sport centres, universities, research institutions, mass media and businesses involved with food, nutrition, wellness, fitness and health.
